Sell quantities to your merchants for window attractions and then sell to others. Quick Sales. Try 100. Big Money. **AGENTS' HERALD, No. 1089, J. B., Phila., Pa.**

## COPP WARRIOR HEATER.

A short explanation of this magnificent and powerful heater may be useful to many who do not wish to go to the expense of a Furnace, and yet obtain a like result.

The fire box, as shown in cut, is large and roomy, and will take 32-inch wood. The heat and smoke pass from it to the upper section, and are conducted through eight horizontal steel pipes, each 5 inches in diameter, with a total length of 15 feet. The passage of combustion through these entirely exhausts all heat before reaching the smoke pipe.

Cold air is conducted under the centre ring, and comes directly in contact with the several heated steel pipes, and then passes to the central exit at the top intensely heated. The hot air then can either pass through pipes to different rooms, or be thrown directly into the room in which the heater stands.

The powerful heating capacity, the great economy, the ease to control, and the surpassing beauty of this remarkable heater, together with its durability, makes the Copp Warrior Heater the very acme of economic and scientific household, hall, and store heating, as hundreds testify.

Your letter of enquiry will have our immediate attention.
