

ARE MAPS WORTH PRESERVING?

Undoubtedly you have noticed that constant handling and exposure to dust quickly deteriorate school maps. In a comparatively short time they become so damaged and dilapidated that it is necessary to replace them periodically.

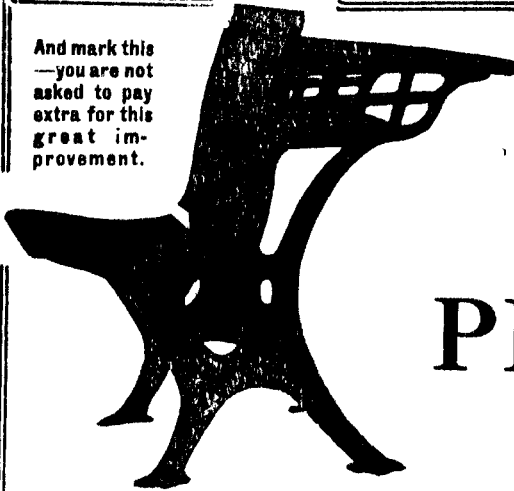

This wastage can be obviated and the maps preserved for a lifetime by investment in a good, substantial yet inexpensive Map Case, such as we illustrate above.

This is a very popular style, known as the Box Case with drop door. It is made of chestnut, golden finish, and can be supplied in various sizes from 54 inches long and upwards.

NOTE THE NEW Sanitary Standard

— of the —

PRESTON DESK

This is the most important innovation of recent years in connection with school desks and does away with the fancy dust-catching and unsanitary standards of the old style. It places the Preston Desk on an equality with any sanitary school desk made, with the added advantage of considerably lower price. Write us, stating your requirements and we will gladly furnish a quotation.
