

EXCHANGE OF NOTES (MARCH 4 AND APRIL 30, 1948 ) BETWEEN CANADA  
AND THE UNITED STATES OF AMERICA REGARDING SANITARY  
PRACTICES IN THE SHELLFISH INDUSTRIES AND RELATED  
MATTERS.

I

The Canadian Embassy in the United States of America  
to the Department of State

CANADIAN EMBASSY

Washington, March 4, 1948.

No. 106

The Canadian Ambassador presents his compliments to the Secretary of State and, on the instructions of his Government, has the honour to inform him that, in order to improve sanitary practices in the shellfish industries of Canada and the United States and to facilitate the exchange of information with reference to endorsement of shellfish certifications, the Canadian Department of National Health and Welfare and the United States Public Health Service have agreed on the desirability of an Agreement being concluded on the points and in the terms set forth in the annexed memorandum.

If such an agreement is acceptable to the United States Government, it is the proposal of the Canadian Government that this note and its Annex together with a reply agreeing thereto, constitute an Agreement between the two Governments effective from the date of the reply from the United States authorities.

H. W.

ANNEX

Memorandum of Agreement

March 4, 1948.

In order to improve the sanitary practices prevailing in the shellfish industries of Canada and the United States, it is agreed as follows:

1. Whatever manual of recommended practice for sanitary control of the shellfish industry is approved by both the United States Public Health Service and the Canadian Department of National Health and Welfare, will be regarded as setting forth the sanitary principles that will govern the certification of shellfish shippers.

2. The degree of compliance with those principles obtained by the State authorities of the United States will be reported to the Canadian Department of National Health and Welfare by the United States Public Health Service, and the degree of compliance obtained by the Provincial and other competent authorities in Canada will be reported by the Canadian Department of National Health and Welfare to the United States Public Health Service.
