

Adjournment Debate

I want to assure the member that there is no subtle scheme to whittle away at this program. As I said before, and he has agreed, the funds are intact. The government spends three times as much in the way of programs for seniors now than before the seniors initiative was announced.

The seniors initiative, announced in February, 1988 set in motion the Seniors Independence Program, an increase to the New Horizons program, and a number of other activities.

The member asked when will the review be done. I do not think that a date can be set on when the study will be

done. However, I can tell the member that the seniors of this country are going to get full value for their dollar. The program is not going to be eroded and it will be equitably distributed across Canada.
