Dear Macdonnell:

The Colonial Office Selection Committee of McGill University has considered the application for a Colonial Office Agricultural Scholarship of Mr. Henry William Thomas Webb, has interviewed him, and now forwards his application with its recommendation.

Mr. Webb's qualifications are apparent from his application form, the accompanying letters, and his academic record, and I think I need only add that at the interview he impressed us very favourably. We felt that, on personal grounds, he would make a most acceptable colleague for the Government officers in any of the Colonies.

Yours sincerely,

Registrar
