EUROPEAN NEWS BROUGHT SHARP RECOVERY IN WHEAT PIT

Market Was Depressed Early in the Day But Developed Strength on Reports of Fresh Outbreak of Hostilities in the Balkans.

CHICAGO, Nov. 21.—Reports that Turkey had rejected the peace terms which the allies had offered brought about a sharp but not lasting rally today in wheat. The close was nervous, 1-8 to 3-8 under the night before. Corn closed unchanged to 1-16 down, oats were off 1-16 to 5-8, and provisions ranged from 1-16 decline to an advance of 25c.

Wheat in the last hour quickly overcame early declines, buying due to the alleged check to peace because rapidly exhausted on the bulls. Support came chiefly from profit-taking shorts and believers in higher prices seemed rare. Argentine reports tended to pull down prices during the greater part of the session. Good general rains had fallen where wanted, and the weather was clearing elsewhere. The bears received help also from reports that shipments from the Canadian northwest would come to this side of the boundary, other outlets being choked.

Corn Sold Freely. For a while smallness of country offerings gave snap to the buying side of corn. On the ensuing advance, however, selling grew more free. Cash grades were in fair demand. Farmers re-selling weakened oats. Declining prices for hogs resulted in 1-16 to 1-16 setback for provisions. On relatively small dealings, manipulators forced January pork to a net advance of 25c.

Northwest Receipts. Receipts of wheat at northwest points, with usual comparisons, follow:

	Week Ago	Year Ago
Chicago	521	460
Minneapolis	521	460
Winnipeg	521	460
Duluth	521	460

European Markets. The Liverpool market closed 3/4 to 3/4 lower on wheat, and 1/4 lower on corn. Paris wheat closed 2 1/2 higher to 2 1/2 higher, Antwerp unchanged, Berlin 1/4 lower and Budapest 1/4 higher.

Argentine Estimates. The weekly Argentine shipments of wheat this week are estimated at 500,000 bushels, by Broomhall, which would compare with an actual of 1,720,000 bushels last week. His estimates the corn shipments at 5,000,000 bushels, which would compare with 4,300,000 bushels last week.

Argentine Conditions. Reports would indicate that in the northern province of wheat and wheat had too much rain. Base is every prospect of storm continuing during the next few days. Great anxiety is felt over the outcome.

Argentine cables. Heavy rains have fallen all over Buenos Ayres, and the Argentine Tierra del Fuego, San Juan, Corrientes, Pampa Central, Rio Negro, Cordoba. Considerable damage has been done in the north, where the only rain is the southern provinces, where more was needed.

The outlook for wheat continues generally favorable. Climatic conditions have been in part favorable, but it is believed that no material deterioration has occurred.

Liverpool Grain Market.

LIVERPOOL, Nov. 21.—The strength displayed in America was evidenced in the morning due to reports received here of the outbreak of hostilities in the Balkans.

The market opened at a decline of 1/4 to 1/4, following the opening there was further decline. The market closed outside, shipments are expected to be liberal this week.

Canada offering freely and liberal export sales at a decline. There is further ease in freight rates.

First impressions are hardest to eradicate.

One should not be too much governed by external, though one nearly always is. From a man's clothes we make a lightning deduction as to his character. If he is slovenly and in need of carry-combing, we instinctively avoid him.

And once you are convinced of the truth of this, you will then understand your eternal insistence upon the need of style in your clothes, and you will inevitably turn to Broderick's to get it.

Suits and Overcoats, \$25.00 to \$45.00.

Public Interest in Mining Market Shows Signs of Broadening—Prices Raised Through the List—Porcupine Are Dull But Firm.

Public interest in the mining market showed additional signs of broadening yesterday, the speculative movement being of better proportions, with an active demand in evidence for many of the favorite issues. At the same time the undertone adopted a more definite firmness, and sentiment turned cheerful in the extreme, the direct result of the more favorable indications.

It was quite apparent that stocks were available in small quantities only, the recent firm demand having pretty well cleaned up the floating supply. Meanwhile there were good buying orders in the hands of brokers, and the fact that purchasers seemed willing to climb for stock plainly evidenced the faith of speculators in more favorable prospects. Prices were raised gradually on various issues, with the result that at the close a round half dozen advances were apparent.

Hollinger Sold Ex-Dividend.

Hollinger was quoted ex-dividend 3 per cent. up to \$14.85, the shares at that price being equivalent to \$15 with the dividend on, thus evidencing a sharp gain for the day.
