Arrivals at southwest ports are light, and at the southeast fair. India—Latest advices continue unfavorable as a result of continued drought. Argentine—The outlook for the wheat crop is reported by our agent to have never been better in the Provinces of Cordoba and Santa Fe. Australia—Exports regarding the crop outlook, as received by leading shippers, are unfavorable, and they question very much whether there will be any export surplus from New South Wales.

Chicago Gossip.

Marshall, Spader & Co. wired J. G. Beaty at the close:

To-day's reaction in wheat has been only the natural effect of the general selling which has been indulged in for several sessions past. Our advance was at no time commensurate with the strength exhibited in northwestern markets, where the continued wet weather is causing considerable anxiety, as it will undoubtedly impair the quality of the crop and materially delay the movement. Speculative business was unimportant, but there continues to be a fair amount of hedging sales coming into this market on all the hard spots. On good sharp breaks wheat may do to buy, as we are not far from a level at which it can be exported profitably, but we believe that sales on the bulges will prove profitable, if anything more than scalping is attempted.

Corn—A general improvement in the weather over the corn belt and steady, persistent sales against new corn to arrive, caused a somewhat easier tone. The shipping demand was rather quiet, and if the present splendid weather continues the market could easily sag several cents.

Oats have been rather quiet, both in the cash and future markets.

Charles W. Gillett to Peter J. Morgan at the close:

Wheat—The market was dull and narrow, with a small recovery in prices, due to relatively steady cables. Liverpool only lost a half-penny, which it gained yesterday. Cash wheat in the southwest closed unchanged to ½c higher, altho last night Kansas City reported about 100 cars left over unsold. The total American visible is now only 1,900,000 bushels more than last year, while two weeks ago it was over 11,000,000 more. The total next week should show a smaller visible than last year, and these statistical figures should soon become an element of strength in the market. Cash prices at Minneapolis were relatively at the same premium over December as for several days past. Export sales to-day were moderate. The large local stocks stand in the way of a sustained upward movement for the near future, and on any recovery toward the dollar level we think wheat will be a sale for a turn.

Corn—The volume of trading was small, but there was a firmer undertone and an absence of pressure to sell for short account. Cash at Kansas City was ½c higher, and the demand there and elsewhere was good. World's visible shows a fair decrease, and statistical figures show corn is going into consumption at an increasing rate. Weather conditions were still wet, but with no suggestion of frosts. Our private crop advices are decidedly bullish. Corn may sell a little lower, but we still advise purchases on breaks.

Oats—Were neglected and price changes unimportant. Oats seem to be selling at the level on their merits, and any material change should be in the way of higher prices, as supplies are small.

J. C. Chaplin to Melady & Co.:

Wheat—Strength in the northwestern markets, short covering and a bullish statement by B. W. Snow relative to the Northwestern Canadian wheat crop, were instrumental in maintaining a higher level of values in wheat. The covering by miscellaneous shorts was the chief factor, the bullish report of Snow being nothing more than a rehash of his previous reports, and puts a very low estimate on the Canadian wheat crop. Other reports from responsible houses estimate the yield at about 65,000,000 bushels of fair quality. [illegible] Bradstreet's increased 2,250,000 bushels, compared to an increase of nearly 10,000,000 bushels a year ago. The most significant features of the day were the lack of outside trade and the lessening demand for our winter wheat from abroad. Bids for No. 2 hard via the gulf have declined 1½c relative to the futures in the last week, and [illegible] no large amount of business worked. A continued export demand is of prime necessity for the maintenance of values anywhere near present level. Under present conditions, we favor the selling side on bulges.

Corn—The market has held strong most of the session, the big receipts—399 cars—lack of outside trade and poor cash demand militating against an advance. The trade was not large. Bradstreet's decreased 148,000 bushels, against an increase last year of 814,000 bushels. Cash demand fair, with prices steady ¼c lower.

Oats—Hardly enough trade to make a market, prices about steady. Receipts, 260 cars, with 297 expected to-morrow. Cash demand fair.

SEVENTY STRAIGHT MILES.

Remarkable Stretch of Track on the Grand Trunk Pacific.

A straight stretch of 70 miles, which will be the longest length of absolutely direct roadway on this continent, according to J. W. Fitzgerald, who has just reached town from his survey of McKendry and McDiarmid Townships, in the Missinaibi River section, will be built on the line of the G. T. P. in that part of Northern Ontario.

J. W. Code of Alvinston, J. B. Speight and Van Nostrand of this city, Jas. Hutchin of Guelph, and Alex. Niven have also reached town from survey work in the north. Mr. Speight was engaged during this season in surveying a base and meridian line running westward to the line running north between the districts of Algoma and Thunder Bay, of which Mr. Niven had charge. Neither of these surveyors, however, finished his task. Mr. Speight has gone over about 180 miles of his line, leaving about 20 miles more to be done, but owing to difficulties with his Indians Mr. Niven only got as far as some 111 miles from his base in the south.

The land thruout this entire section of country is described as being of excellent quality, and very level. The timber consists of spruce, tamarac, white birch and banksian pine.

UNITED STATES MILITIA.

Estimated That Seventy-Five Per Cent. Would Respond.

WASHINGTON, Oct. 1.—The annual report of Gen. Ainsworth says the strength of the organized militia of the United States at the end of the last calendar year, as reported by the state adjutants-general, is placed at 110,995, out of a total of 13,831,696 males available for military duty, but unorganized.

The reports of nearly all the army officers who inspected the state militia organizations unite in a demand for better armories. The report showed little improvement in regard to target practice.

Summing up the reports of the inspecting officers, the adjutant-general says: "It is estimated that about 75 per cent. of the members of the militia would respond to a call for troops to repel invasion or to suppress insurrection against the authority of the government."

73 CARS AT CITY YARDS PRICES FOR CATTLE STEADY

Sheep, Lambs, Calves, Hogs, Unchanged—Distillery Feeders in Demand.

Receipts of live stock at the City Market since Friday, as reported by the railways, were 73 carloads, composed of 1274 cattle, 495 hogs, 1629 sheep and lambs, 226 calves and one horse.

There were several lots of good cattle, that sold up to $5 per cwt., but there were many—the bulk of those on sale—that were of common to medium quality, which sold at about the same prices as were paid last week.

Exporters.

There were none bought for export, unless it was a few bulls, which were worth from $3.50 to $4.25 per cwt.

Butchers.

Picked lots were quoted at $4.70 to $5, but these were equal in quality and better than many of the best exporters offered lately, and few in number; steers, 1150 to 1300 lbs., $4 to $4.30; common to medium, light cattle, $3.25 to $3.75; cows, $2.50 to $3.75; canners, $1 to $2 per cwt.

Feeders and Stockers.

H. & W. Murby report a fair delivery for a Tuesday's market. Messrs. Murby bought 150, the bulk of which were from 600 to 800 lbs. each, at $2.25 to $2.75 per cwt.; a few steers, 1000 to 1100 lbs. each, sold at $3.25 to $3.60; bulls at $2.25 to $2.60 per cwt.

Milch Cows.

The milkers and springers offered were generally speaking a common lot, with a few fair to good quality. Prices ranged at from $30 to $55 each.

Veal Calves.

Too many horsey, coarse calves are coming on the market, with few of the right kind. Prices were unchanged at $3 to $7 per cwt., but it must be remembered that only prime new milk-fed calves bring the latter price, and there are few of this class being offered.

Sheep and Lambs.

Trade in sheep and lambs was steady at unchanged quotations. Export ewes, $4.25 to $4.40; bucks, $3 to $3.50; lambs, $4.75 to $5.75 per cwt.

Hogs.

Receipts light. Mr. Harris reports prices unchanged at $6.12½ for selects and $5.87½ for lights and fats.

Big Game in Temagami District.

The big game found in the Temagami region comprises the moose, caribou and red deer. During September, which is known as the running season, moose are seen in large numbers throughout the district. The open season for hunting these animals commences on Oct. 16, and continues until Nov. 15. The game birds found in the northern portion of the Temagami region are the ruffled grouse, pine grouse, geese, duck and other water fowl. Now that this district is so easy of access via Grand Trunk Railway, the best hunting grounds are easily reached without the discomforts formerly experienced. Call at Grand Trunk city office and ask for copy of illustrated booklet, "Haunts of Fish and Game." It will help you. It is full of useful information, and maps, etc.

Court Has Not Power.

An application was made before Master-in-Chambers Cartwright on behalf of Coates, Son & Co. of London, England, who are suing the provincial government for $14,600 commission on the sale of certain treasury bonds, to amend their petition of right by inserting in a certain paragraph the words "at the request of the said government purchased" the second issue of treasury bills. After reserving judgment his lordship has decided that the rules as to amendments are not applicable to this application, as the court has not power to amend a petition of right without the consent of the crown. As the question is one of novelty and importance the costs are made in the cause.

He was a shareholder to the extent of $1000, and said that the company owed him over $644 for wages which he could not collect. J. R. Code for the petition said that the company had admitted its insolvency, and A. R. Hassard, on behalf of the company, denied owing the debt, claiming that Mr. Anderson, a former employe, had discharged himself in January last by leaving the company's services voluntarily and that the company would pay Anderson any amount of money which was found to be due to him. Chief Justice Falconbridge, after the close of the argument, dismissed the petition without costs.
