Sammond & Roberts, St. John, N.B.

PUBLIC OWNERSHIP

Public ownership is going ahead with a rush.

Mr. Macdonnell's proposal that the province should develop electrical power on the Niagara River and elsewhere, and distribute it at a reasonable price to municipalities and others, is revolutionary.

But it is progressive and on sound lines, and will be readily endorsed by the people of Ontario.

It means, however, frontier, St. Catharines, Hamilton, Toronto, London, Brantford, Paris, Woodstock, Ingersoll, etc., will get electrical energy in abundance at almost cost price. This energy will drive all the trolley lines, drive all the factories, light all the towns, streets and houses, heat the schools, and drive what are now steam railways.

Farmers can hitch on to the supply wires and drive their threshers, pump, their churning machines, proboscis, their saws, and their windmills, and wherever situated, can easily connect up with a provincial system of power wires.

Farmers' houses, stables, the streets of villages, even country roads can be lighted at night.

There will be no powerful private electrical energy corporations to intervene and boost up the price three or four times what it cost.

Public-developed and public-distributed electricity means honest measure and full measure. You will get a 1000 candle power lamp from your town and you will get it for the price of a 1000 candle power lamp from your town.

Just watch public ownership grow!

MUNICIPALITY THE GAS PLANT AT ONCE

The World trusts that Ald. Spence and his colleagues in the Council who favor public ownership of the gas plant in Toronto are making every effort to get the question up to the legislature forthwith.

After the speeches of the past two days, it is clear that the legislature will grant the reasonable request of the city.

The House is likely to act for six weeks more, and there will be lots of time to get the bill passed if the legislature is asked at once. Mr. Pattullo, for the Liberals, Mr. Macdonnell, for the Conservatives, not to mention our city quartet, will be only too glad to get the measure thru the legislature. Get it up there!

THE REFERENDUM AND QUEEN'S UNIVERSITY

In considering Principal Grant's defense of the referendum, the people to whom he appeals should not lose sight of the relationship that exists between himself and Premier Ross. Premier Ross is committed by the policy of recognizing Queen's University as a State institution, and the eastern half of the provincial university. Principal Grant wants to load Queen's upon the province. Premier Ross wants to sidetrack the troublesome prohibition question. The two are traveling close together. Success for the one means success for the other. The referendum is a golden oak; hand-carved and polished; massive designs; large British bevel plate mirrors; best selected with best brass trimmings; regular price \$22 to \$25; Friday, regular price \$22 to \$25; Friday, .159

36 Parlor Tables; your choice of several patterns; quarter-cut gold, oak and mahogany finish; 24 to 24-inch tops; fancy turned legs; regular prices \$2 to \$2.25; Friday, .165

10 Sideboard and polished; 48 inches wide; 18 x 32-inch shaped British bevel plate mirrors; our special price \$27.50; Friday, .1950

1165 yards of Superfine All-wool Reversible Carpet; full 36 inches wide; wide design; extra fine; colorings; blues, green, red, fawn and brown shades; regular price 75c a yard; Friday, .43

1220 yards of English Tapestry Carpets; large range of up-to-date designs; artistic colorings; regular prices 50c and 65c per yard; Friday, .38

Curtains

275 pairs of Nottingham Lace Curtains; 54 to 60 inches wide; 8 1/2 yards long; white or ivory; single borders; also a few odd pairs 2 yds. long; fine spot and plain centers, with very open, effective borders; regular values \$1.50 to \$2 a pair; Friday, .100

63 pairs of Heavy Tapestry Curtains; 40 and 42 inches wide; 3 yards long; reversible designs; floral patterns; deep colored fringe at both ends; a splendid range of good colors; regular values \$3 to \$5.50 pair; Friday, .200

2000 yards of Odd Glimmer Wall and Ceiling Papers; large variety of designs; light and medium colors; suitable for any room; regular prices 7c to 10c per single roll; Friday, .03

680 rolls of American Embossed Gilt and Damask Wall Paper; choice conventional designs; rich brown, yellow and blue colors; for halls, sitting-rooms and bedrooms; regular price 25c per single roll; Friday, .10

Can Openers and Corkscrews; regular price 5c each; Friday, 2 for .05

In the event of another favorable vote there is no reason to believe that any practical result will be accomplished. Principal Grant proposes to head a campaign of enlightenment on the subject of prohibition. He hopes to make people realize the importance of the subject and to educate them so that they can pass an intelligent judgment upon it. He wishes, in short, to make every individual realize the responsibility that is upon him and to declare yes or no for prohibition. We agree with Principal Grant that it is the duty of every man to declare where he stands on the question, but we think that all men who represent the people in the legislature ought to make the first declaration. Premier Ross should not only tell the people where he stands on the question, but he should tell the people where his party stands and where his government stands on the question. As a politician and a statesman, he should declare for or against prohibition. Politicians, as well as individuals, should have the courage of their convictions, and if Principal Grant is sincere in the advice he is giving to the people he ought to have no hesitation in calling upon the House government to assume its share of the responsibility by declaring either in favor of prohibition or against it. As we have already shown, this is especially necessary in the present case, because if a sympathetic government is not behind the proposed prohibitory measure, it can never be successfully enforced. The two requisites of a successful prohibitory measure are a substantial majority of the people and a sympathetic government. Principal Grant's method of dealing with the question may give the substantial popular majority, but it can never secure us the sympathetic government. If the temperance people accept Principal Grant's plan of dealing with prohibition, they may secure a favorable vote, but they may be minus a government to enforce the measure. They may, in short, get still deeper in the mire. It is into the mire that Principal Grant would lead them, and that doesn't count as long as Premier Ross is elected and Queen's is grafted upon the province.

It may suit Mr. Roblin of Manitoba to oppose R. L. Richardson in Lisgar, but it is not good politics, from the point of view of Conservatives in Ottawa, where the seat in question is concerned. Just why the Conservative should be used to help Mr. Sifton to strengthen himself and the Liberals in Manitoba is hard to understand. If the Conservatives wish to give Mr. Sifton and his friends a blow, they can do it by helping to elect Richardson for Lisgar.

Trolley Franchises. There was a lively demonstration in the Railway Committee yesterday, in opposition to another trolley line that is seeking a right of way from Niagara to Toronto, over the city highways. It was opposed by a great many members, including the chairmen, and it got a good hammering last night in some of the city papers.

Still, when we come to look into it we see the opposition is mainly from existing railway interests. Now, the World is prepared to see two trolley lines between here and Hamilton, and that those who are asking for this new road and franchise will only make a reasonable request, they abandon all the monopoly claims of their schemes, tying up municipalities for indefinite periods, and handing down to the simple proposition of a rival trolley line from Hamilton to Toronto, and the Falls, if necessary. But when we see Mr. George Kappeler weeping tears up before the Railway Committee, on behalf of the municipalities and the capital of the Dominion with all the east and west expresses on the main line of the Grand Trunk between Toronto and Montreal. A bonus for this very extension was passed in parliament a year or two ago, but somehow the Grand Trunk franchise, as to its tolls, and as to its treatment of the municipalities, through which it passes. If the company is not reasonable in all these respects, then there is ground for refusing the franchise asked for. The members of the legislature should not be led away by the speeches and the tears and the special pleadings of men professing to be friends of the municipalities, but who are paid advocates of existing franchises, with all sorts of franchises for their own benefit, but without any regulating clauses for the protection of the public.

THE SLEEPING CAR BEING CHASED. The news in The World yesterday that the Grand Trunk was planning

to run trains between Toronto and Montreal, doing the distance in six hours, rather takes one's breath away, although we have no doubt it will soon be accomplished. To do this trains must run, including stops, at the rate of 55 miles an hour; as a matter of fact we imagine lots of the distance between Toronto and Montreal has been done at over 60 miles an hour when time has to be made. If this service is to be inaugurated it means that travel between the two cities will greatly increase, and that at least one of the journeys will be made during the day without a sleeper. Every improvement in travel in the way of speed as between cities less than 400 miles apart means that people will travel more and more in the daytime and less at night. If a man can leave Toronto in the morning at 7 o'clock and be in Montreal by 1 o'clock, and the afternoon for business, an hour or two for dinner and have up till 12 o'clock at night for pleasure or business, and then take a sleeper and be here at 7 o'clock in the morning, a revolution in travel will be effected. But not only does this travel want to be faster, but it ought to be cheaper. The people ought to be able to go from Toronto to Montreal and back for \$10 and the railways make lots of money out of the business. A great many more people would travel if rates were cheaper, and sooner or later the rates must come down.

The Grand Trunk is to be complimented on the great improvements it is making on its tracks all over the system, and especially on its three services between Montreal, Toronto, Chicago, and the Falls. Whether the present improvements mentioned by our correspondent contemplate the avoidance of a new line from the Don along the lake shore to Port Union we do not know, but we hope Mr. Hays and his assistants have this in mind. The present grade up and down Scarborough is the severest one on the whole Grand Trunk system, and is maintained at an enormous cost in the way of expense for power, not to mention loss of time to the public. We believe the time has come when the Grand Trunk ought to build this improvement forthwith; every month's delay increases the cost of securing the right of way from the Don to Scarborough town-line at Victoria Park.

If the road is built along the lake shore between the Don and Port Union it will make the finest lake view service probably in America, and that of itself will be an attraction for tourists. It is, in truth, a side of the kind of that of the G.T.R. around Humber Bay, and the same thing could be repeated with even greater effect along the Scarborough front.

When the Grand Trunk is taking up improvements to the east, the World desires again to call the attention of Mr. Hays to the need there is for a service between Ottawa and the main line of the system, striking it somewhere between Kingston and Belleville, giving connection between Toronto and the capital of the Dominion with all the east and west expresses on the main line of the Grand Trunk between Toronto and Montreal. A bonus for this very extension was passed in parliament a year or two ago, but somehow the Grand Trunk franchise, as to its tolls, and as to its treatment of the municipalities, through which it passes. If the company is not reasonable in all these respects, then there is ground for refusing the franchise asked for. The members of the legislature should not be led away by the speeches and the tears and the special pleadings of men professing to be friends of the municipalities, but who are paid advocates of existing franchises, with all sorts of franchises for their own benefit, but without any regulating clauses for the protection of the public.

THE BERLIN MUTUAL FIRE INSURANCE COMPANY ANNUAL GENERAL MEETING. Following is a summary of the financial statement of the above company, presented to the shareholders, at the annual meeting, Feb. 4: Among other things mentioned in the Directors' report, was that the company had increased its assets from \$120,000 in 1900, to \$130,000 in 1901. The increase of business was considered very satisfactory, especially in view of the keen competition existing. The losses for the previous year generally had been heavy, but the company had come out with a balance on the right side of the account at the end of the year.

The satisfactory security to policyholders, by reason of the substantial premium income now established, and the fact that the company had nothing of the share capital, was commended. The statement of assets and liabilities shows a surplus of \$135,000.92.

The advantages of moving the Headquarters of the company to Toronto had already become manifest, and the prospects for the coming year were exceedingly bright.

Messrs. James Torrance of Milverton, A. Burrill of Mitchell, W. Van der Sandt and H. E. Irwin of Toronto were re-elected on the board. At a subsequent meeting of the board, Mr. D. Hibner of Berlin was unanimously re-elected president and Mr. W. H. Shapley of Toronto, vice-president.

She Was a Canadian. Rochester, N.Y., Feb. 5.—Mrs. Frank J. Vance of Charlotte, wife of F. J. Vance, the Village Trustee, committed suicide in the National Hotel some time during last night, by drinking carbolic acid. The body was found lying across the bed, fully clothed, but a chambermaid this morning discovered her. She was born forty years ago.

It's All Over Now. Pittsburgh, Feb. 5.—The remains of Edward and John Bidwell, who were killed in a single grave at Calvary Cemetery this morning. There were more than 25 persons present. At the cemetery, Rev. Father Sweeney read the burial service of the Roman Catholic Church.

Took Her Life at 90. Hartford City, Ind., Feb. 5.—Mrs. Rebecca Eviszler, who would have been 100 years old, March 12, committed suicide at the home of her son, near South Whitley. She choked herself to death by stuffing a large handkerchief down her throat.

Can You Blame Her. If at last she tires of the fault finding of a dyspeptic husband and leaves him? The worst of the dyspeptic is that he does not realize his own weakness. His world is entirely out of perspective. Dyspepsia and other diseases of the stomach and organs of digestion and nutrition are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the worst forms of disease. It cures when all other medicines have failed to benefit.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is no other medicine for the stomach, blood and lungs, which can show so wide and wonderful a record of cures. It always cures. It almost always cures. "I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and healthy," writes Mr. W. H. Brashers of McKenville, Canada, N. B. "My health is worth all the world to me. I will pay you as long as I live."

Dr. Pierce's Medical Advertiser, in paper binding, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

The body was found lying across the bed, fully clothed, but a chambermaid this morning discovered her. She was born forty years ago.

It's All Over Now. Pittsburgh, Feb. 5.—The remains of Edward and John Bidwell, who were killed in a single grave at Calvary Cemetery this morning. There were more than 25 persons present. At the cemetery, Rev. Father Sweeney read the burial service of the Roman Catholic Church.

Took Her Life at 90. Hartford City, Ind., Feb. 5.—Mrs. Rebecca Eviszler, who would have been 100 years old, March 12, committed suicide at the home of her son, near South Whitley. She choked herself to death by stuffing a large handkerchief down her throat.

Can You Blame Her. If at last she tires of the fault finding of a dyspeptic husband and leaves him? The worst of the dyspeptic is that he does not realize his own weakness. His world is entirely out of perspective. Dyspepsia and other diseases of the stomach and organs of digestion and nutrition are perfectly and permanently cured by the use of Dr. Pierce's Golden Medical Discovery. It cures the worst forms of disease. It cures when all other medicines have failed to benefit.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is no other medicine for the stomach, blood and lungs, which can show so wide and wonderful a record of cures. It always cures. It almost always cures. "I can say to you, one bottle of your 'Golden Medical Discovery' has cured me sound and healthy," writes Mr. W. H. Brashers of McKenville, Canada, N. B. "My health is worth all the world to me. I will pay you as long as I live."

Dr. Pierce's Medical Advertiser, in paper binding, is sent free on receipt of 31 one-cent stamps to pay expense of customs and mailing only, or if cloth-bound volume is desired send 50 stamps. Address Dr. R. V. Pierce
