occasion, and that he will stand the Ford aggregation on their heads on Thursday afternoon. About 700 rooters will accompany the Ford team to Tilbury, and it is more than likely that the Ford Brass Band will accompany the crowd.

DOCTORS WILL MEET

HERE ON THURSDAY

Medical men from all parts of the district will be in the city on Thursday afternoon to attend a general session of the Western Ontario Academy of Mediciae. This is a joint meeting of the academy and divisional meeting of the Ontario Medical Association.

The afternoon program includes the incomplete sensing is and others not on the official town planning committee. According to Dr. Wilson, aldermanic lack of confidence in the official committee was such that unknown to us the council had appointed an opposing committee to do our work. And in confessing his own part in this secret committee, the doctor was charmingly oblivious of any impropriety, disloyalty or bivious of any impropriety, disloyalty or believing on myself, whom the council appointed to responsibility for official town planning committee.

According to Dr. Wilson, aldermanic lack of confidence in the official committee was such that unknown to us the council had appointed an opposing committee to do our work. And in confessing his own part in this own part in this own part in the council had appointed an opposing committee to do our work. And in confessing his own part in this own part in the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee to do our work. And in confessing his own part in this own part in this own part in this council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appointed an opposing committee was such that unknown to us the council had appo

ment, that gentleman after the meeting undertook to supply a marked copy of the minutes to prove his accuracy. But now eighty or ninety hours later, he has failed to do so. And the probable expianation is that no such committee was ever appointed by the council, outside the doctor's imagination.

And why such horse play? The answer is that it is part of a well-organized conspiracy to block the progress of town planning and bring its advocates into disrepute. Certain poor tools do not know how they are being used. They couldn't define the difference between town planning and garbage collection. Others know only too well. If the clerk had wanted business to proceed, he could have demolished my opposition in the few words I requested that he read from the minutes. But he knew well enough that the minutes would establish the falsity of his own words and those of Dr. Wilson.

STRIKE IS THREATENED.

STRIKE IS THREATENED. Vancouver, B. C., Sept. 28.-Unless negotiations now under way between ocal shipbuilding and metal trade interests on the one hand and the labor unions on the other terminates sucunions on the other terminates suc-cessfully before next Saturday there is a possibility of a strike involving ap-proximately 3,250 men being declared here next Monday.

The men are asking an increase in wages of fifteen per cent. The de-mands being made by the unions call for a rate of \$1 an hour.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas. Sourness and Pain -How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the gas, bloating, hausea, etc., are due to an excess of hydrochloric acid in the stomach, and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases, and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid, and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take; and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion—Advt

Roberts Cod Liver Oil & Tar

is a ccientific remedy in which the powerful curative properties of Cod Liver Oil and Tar are combined. The nauseous effect of the oil having been ramoved, the extractive principles re-bain to build up wasted strength and semon their ritation set up by Coughs. Colds, Bronchitis and other affections of the respiratory organs. Try it, for it

does stop coughs
