Chicago Gossip.

Spader & Perkins to J. G. Beatty: Wheat—Firmness in cables gave a momentary lull at the opening. The market being easy thereafter. With export prices so far out of line, and no indication of a reversal of the European demand, it matters little what Liverpool does until conditions change. Perhaps the feature of the news was the reports of highly satisfactory yields of fine quality, some coming from sections from which the crop is expected to be heavy. Splendid progress is being made with harvesting, and weather is all that could be desired. The export demand, as already stated, is flat, and the domestic trade is a dead weight. The market is in much the same condition, as it has been for some time. The market is in much the same condition, as it has been for some time. The market is in much the same condition, as it has been for some time.

Wheat—The market has been a rather tame affair during the short season. The local crowd were free sellers. The usual damage reports came in this morning, but little attention was paid them. There was some improvement reported in flour sales. Weather more favorable for harvesting. We believe in higher prices for wheat, and on these soft spots would buy September or December.

Corn—There was rather a sluggish trade in corn; reports continue unfavorable. There is a considerable short interest, and if it continues to grow as fast as it has the past few days, it will go to buy a little corn, for they are to get run in.

Oats—Reports are all bullish. Cereal interests and country commission houses the chief buyers. The selling was by the leading cash interests. The market is at present, as the oat crop has had a serious setback the past few days.

Provisions—Trade light; prices a shade lower.

IN TWO INCHES OF WATER.

Old Resident Drowned in Lincoln Paper Mill.

ST. CATHARINES, June 26.—(Special.)—A drowning accident occurred at Upper Lincoln Paper Mill, Merriton, at noon, when Darby Dockery, one of the village's oldest men, is supposed to have had a weak spell while at work and to have fallen on his face in about two inches of water, which was on the floor. He was discovered by some employees of the mill who sent for Dr. Vandenburg, but life was extinct.

Coroner Jory was called, but held that an inquest was unnecessary, as the man evidently died of heart failure. Mr. Dockery was an employee of the mill for many years.

A HOLIDAY FARTHEST NORTH.

Tell the casual American, visiting Toronto, that he should not overlook Lake Temagami as a place to see; and, more than likely, he pictures visions of a dog-train journey to the Arctic. Perhaps because Temagami has been somewhat exploited as the "farthest north" summer resort. The phrase is not fallacious, for this fascinating lake, teeming with huge and gamey trout-black bass, pickerel, etc.—along its 800 miles of shoreline, is in no sense a Dec. type and it is in fact it is nearer Toronto than most Canadian cities, even quite remote. It is possible to leave the Union Station at 9 o'clock at night, on the comfortable trains of the G.T.R., and be paddling forth with rod and reel after midnight on the beautiful Temagami Lake. It is a rarity among "places to go" because it is a wilderness with the comforts and conveniences of civilization right at hand, thanks to an efficient hotel, steamboat and outfitting service. Three notable hotels will cater for you at the lake—the Ronoco, at the steamship landing, close by Temagami Station; Temagami Inn, on the beautiful Temagami Island; and the Lady Evelyn, thirty-six miles up the lake. Either of these hotels will satisfy sportsman and rest-seeker alike; and the fishing—well, are thirty pound lake trout big enough game for you? They are plentiful up there. And don't worry about equipment, everything can be had at the hotels.

"Hiawatha."

The Daily and Sunday World is now being delivered at this popular summer resort. By telephoning your order to Main 252 or leaving same at 23 Yonge-street you will receive The World before breakfast.
