TRUSTEES SUPPORT TEACHERS' BONUS

Recommend 25 Per Cent. Increase Be Temporary Payment.

Something new was thrown into the question of an increase of teachers' salaries yesterday, when at a meeting of the advisory commercial committee Geo. Hamby suggested that in giving the increase it should, if carried, be in the shape of a bonus, rather than a permanent factor. Mr. Hamby was evidently quite in sympathy with the teachers, wanting them to get the best possible, but he was also of the opinion that conditions would change and that lowering of cost of living might also necessitate a lowering of wages. Discussion for and against was indulged in for some time, the chairman, Ed. Gunn, remarking that the high cost of living was in a measure due to increased salaries. The question was settled by two resolutions, one that the increase of 25 per cent., as asked by the teachers' council, be supported, and the second that all increases be treated as a bonus. The recommendation was also to cover caretakers and others in connection with the schools. Trustee P. A. Douglas voted against

second resolution and later expressed himself as decidedly opposed to the bonus feature.

No Raise Since 1913. A delegation from the High School of Commerce was introduced by the principal, R. H. Eldon, and the object spoken of by W. Keast, who, on behalf of the teachers, asked that the remuneration for night services be increased from \$5 to \$7. No increase had been given since 1913, the spokesman explained, and also pointed out that the evening classes were being conducted by those who also taught during the day. Evening teaching was difficult for many reasons. Teachers were not as fresh as in the morning, attendance of pupils was irregular, and there was no special standard of work. It was pointed out by a member of the committee that because the teaching was not by the showing of the spokesman of the delegation—as efficient as in day classes that there did not seem to be room for the petition for an increase. Mr. Hamby pointed out that there were no other teachers to be had and believed that they were entitled to as good treatment as the teachers of the Technical School. The decision was covered by the resolution that it was an absolute necessity as four rooms were now needed and that good work could not be done without a gymnasium. The chairman stated that the building some time ago might only have cost \$150,000, while now \$200,000 is the figure. In connection with much-needed improvements to the grounds Mr. C. J. Doughty, superintendent of buildings, explained that while much would yet remain to be done, the ultimate cost of which would be about \$20,000, that for the present \$10,000 would be sufficient. This was carried. A request for \$1,000 in connection with improvement of the grounds of the stage was out down to \$200. Instead of planning for the yard, for which \$960 was requested, Mr. Doughty spoke in favor of sand, which will be adopted.

Dunlop Tire Benefit Fund Hold Social Annual Meeting

The annual meeting of the Dunlop Tire and Rubber Goods Company Benefit Society, which was held in Odd-fella Hall, Broadview avenue, was a great success. President Collins gave a brief address, commenting on the success of the society during the past year. The treasurer's statement showed a balance to the credit of the society of over twelve hundred dollars. After the business was over upwards of seven hundred members were entertained to refreshments by the management of the company, and dancing was indulged in till the early hours of the morning. The election of officers for the ensuing year resulted as follows: Honorary president, J. Westren; honorary vice-presidents, A. E. King and D. E. Beynon; president, F. Andrews; vice-president, Ben Sharp; secretary-treasurer, L. P. Alett; committee, G. Archer, S. Ward, G. Heath, H. Briscoe, P. Johnstone, J. Bailey, G. Cooper, C. Lapp R. Trill.

HEAVY BUILDING YEAR.

Toronto led all cities of the Dominion in 1919 in the matter of building figures. Montreal's total was only \$9,738,735, as compared with Toronto's \$19,470,000. Returns gathered by "Construction" from 38 points in Canada place the total value of permits issued in 1919 at \$73,884,453, as compared with \$35,549,380 in 1918. All these centres predict an active building season for 1920.

MR. OR MRS. DYSPEPTIC
Get rid of Indigestion and Stomach Worries with "Pape's Diapepsin"

"Really does" put weak, disordered stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness due to acid fermentation—that just makes Pape's Diapepsin the largest selling stomach antacid and regulator in the world. If what you eat ferments and turns sour, you belch gas and eructate undigested food or water; head is dizzy and aches; breath foul; tongue coated. Pape's Diapepsin comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous—and the joy is its harmlessness. A box of Pape's Diapepsin tablets costs so little at drug stores, too.

SWITCH OFF!
Put aside the Salts, Oil, Calomel, or Pills and take "Cascarets."

Are you keeping your bowels, liver, stomach clean, pure, and fresh with Cascarets, or merely whipping them into action every few days with Salts, Cathartic Pills, Oil, or Purgative Waters? Stop having a bowel wash-day. Let Cascarets gently cleanse and regulate the stomach. Remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the colon and bowels all the constipated "waste" matter and poisons so you can straighten up. Cascarets tonight will make you feel great by morning. They work while you sleep—never grip, sicken, or cause any inconvenience, and cost so little, too.

WANT FACTORY SITES.

There is a heavy demand for factory and industrial sites in the city, according to Industrial Commissioner R. Yeomans. American and Canadian capitalists are swamping the city with requests for permits to commence activities in their respective lines.

When asked by "The World" for names and fuller particulars regarding these financiers, Mr. Yeomans stated that his hands were tied at present, and no definite details could be given out. The first thing they do is swear us to secrecy," he explained. "The reason for this is that they wish to get the drop on their competitors by getting well under way before any successful competition can be started. It is true, tho, that we have at least half a dozen requests from big American enterprises."

Sir George E. Foster Comments Baptist Forward Movement

Sir George E. Foster, K. C. M. G., acting prime minister of Canada, has sent a warm letter of commendation to the Toronto committee of the Baptist forward movement. Sir George Foster says in his letter: "Many years ago I remember the heroic pioneers of the Baptist ministry in New Brunswick, who spent their time building up the first churches in that province. Salaries were then unknown. The preacher traveled in the saddle in all weathers, preached in barns and homes and log school houses, and gradually founded the scattered churches which later developed into important denominations. These pioneers asked for little and got little. They thankfully received the few gifts of the poor people to whom they ministered. "Now the situation is changed. Some charges are well salaried, but the majority, especially in rural districts, are not so favored, and a great majority of the pastors in scattered districts spend their lives for a pittance."

ALLEGED FALSE PRETENCES.

Robert King Carmichael, who claims to be a financial broker in British Columbia, was arrested yesterday by Detective Archibald, on a warrant charging him with false pretences. Carmichael is alleged to have passed a worthless cheque for \$15 on T. J. Horrocks, of 240 Jarvis street. Carmichael was staying at the Jarvis street residence. Several other cheques amounting in all to about \$500 are said by the police to have been passed by the prisoner.

TUBERCULOSIS INCREASES.

A deputation waited upon Hon. H. C. Nixon, provincial secretary, yesterday, asking a substantial increase in the 50 cents per capita grant to indigent patients in consumptive hospitals. There is a noticeable increase in tuberculosis.

CITY HALL NOTES

At last there is some hope that the coveted position of city architect will be immediately filled. At the board of control meeting yesterday, Lieut.-Col. W. N. Moorhouse was recommended for that office by a vote of five to one. Also there were nearly a dozen applicants, the only other name voted on was that of Mr. Price, acting city architect. The new man will receive an annual salary of \$6000.

The daylight saving question was brought up yesterday morning. Mayor Church had no power to pass a bylaw regarding it. To convene this situation he proposed inserting advertisements in the local newspapers asking the views of the citizens and private organizations. These answers should be sent to the city clerk and, if favorable, daylight saving would be introduced on May 1 and concluded at the end of September.

Lieut.-Col. J. I. McLaren of militia headquarters staff, asked the board whether there would be any objection on the part of the city to the government establishing permanent military barracks in Rosedale, on the St. Andrew's College site. After a lengthy debate, a motion was passed opposing this, and further stating that the board was of the opinion that St. Andrew's College should be re-established in their old home.

The military officials came to me regarding the barracks proposal," said the mayor, "but as I explained to them, the city has nothing to do with this matter, tho it was intended to use this site for the permanent force after the war." It is a government matter purely, and we had better adopt a "hands off" policy. Controller Cameron was of the opinion that when the wishes of St. Andrew's College to regain possession of their old site were learned by the government, the situation would be remedied.

His worship thought that consideration of the matter should be postponed pending negotiations with the militia department, but the board went on record as opposed to the site as a barracks location, expressing the opinion that it should be returned to the college.

The possibility of attracting to Toronto the world famous "Olympic Games," was another inducement laid out by Mayor Church as to why Toronto should have an athletic stadium, also he did not mention the location.

ARMY AND-NAVY VETS.

His Majesty's Army and Navy Veterans held their usual monthly meeting in S.O.E. Hall, Tuesday. Fifteen new members were elected. Application is being made to affiliate with the Imperial Veterans' Association of London, England. The accounts of the recent Christmas tree were presented by the committee, and were satisfactory to the members. The members are to canvass Ward 8 on behalf of the gratuity petition, and on Saturday afternoon a tour of the ward will be made by the members under Comrade Dobbs.

COSTLY FIRE OCCURS IN TOWN OF TIMMINS

Nearly One Hundred Thousand Loss to Marshall-Ecclestone Store.

Cottaw, Ont., Feb. 4.—The Marshall-Ecclestone store on the corner of Third avenue and Pine street, Timmins, was completely destroyed by fire today, according to telephone advice received here. The cause of the blaze is unknown here, but the fire raged several hours before it was checked. The firemen succeeded in confining the flames to the one building, which was swept thru with fire, and all the contents are reported lost. The firm dealt in hardware, oils, furniture, and the stock is believed to have been valued at \$100,000, most of which will be a total loss. During the fire there were several explosions. There was very little wind at the time, which assisted to prevent the flames from spreading.

U. F. of New Brunswick Re-elect T. W. Caldwell, M.P.

Woodstock, N. B., Feb. 4.—The United Farmers of New Brunswick this morning re-elected Thomas W. Caldwell, M.P., of East Florenceville, as their president in his absence. The greatest number of votes cast in the election of officers was 36, which shows the attendance of delegates is not nearly so large as expected, the provincial headquarters having advertised locally for accommodations for 2,000 visitors to Woodstock for the convention.

THEATRE CENSORSHIP.

Theatres will not be required to submit press matter or hand bills to the department of the chief advertising censor unless in his opinion there is flagrant misrepresentation in the advertisement matter made up by the theatre, according to the statement of J. J. Burns, chief advertising censor to the World yesterday. "If misrepresentation is found the department will issue an advertisement matter and by the theatre responsible will thereafter be required to be submitted."

PROV. TREASURER RECOVERING.

Hon. Peter Smith, provincial treasurer, is recovering from a severe attack of "flu." He is at his home in Stratford.

Good News Lung Sufferers

An interesting booklet describing a remarkable method of combating the ravages of Tuberculosis is published by SANOSIN 7228 Uppr. Bloor St., Toronto and will be sent free upon request. Write for it today.
