make it possible to sell them at moderate figures.

The Taking Out of a "D.A."

Is Perhaps One of the Things You've Been Going to Do for Some Time

Decide to Do it Today!

For a Deposit Account proves its worth in so many ways.

In that it saves time, does away with the necessity of "C.O.D.'s." Systematizes one's shopping.

And enables one to shop by phone, mail or in person with the assurance that all purchases will come as paid.

The taking out of an account is a simple matter.

You make a deposit at the D. A." Office, Fourth Floor, There a number is given you and your signature is recorded. Then, when shopping -just say, "Charge to my D. A., number so-and-so." Money, while on deposit, draws good interest.

(An account must be in funds at all times).

For full information, apply at "D. A." Office.

-Fourth Floor, Store

He Succeeded, Hence Such Boots as These May be Obtained For

\$5.75

One has a choice of black or brown; the English recede, or the round toe shape.

The Boots at \$5.75 are of side leather, in a black velour finish; tops are dull, forming a very smart contrast; eyelets are blind. Soles are Goodyear welted.

Those at \$6.00 are of side leather, in a bright velour finish, and are on the banker's last, a medium round-toed blucher style, straight laced, with Goodyear welted soles.

At \$6.50 one has the choice of either the English recede style, with blind eyelets, or the Blucher style with round toe; both are of dark mahogany side leather. Note the two illustrations. All sizes, 51/2 to 11.

-Second Floor, Queen St.

FRENCH CABINET **DISCUSSES WHEAT**

Country Has Decreased War Area of Cultivation by 1,500,000 Hectares.

Paris, Feb. 2.—The ministers and their under-secretaries met in cabinet lerand presiding. The object of the council was to make a thoro examinacouncil was to make a thoro examinacouncil was to make a thoro examinacouncil yesterday, with Premier Miland is not to be disposed of or used
for other purposes without the consent of the department of naval sercouncil yesterday, with Premier Miltion into the wheat situation, which is considered one of the most importto solve. The deliberations will be knots, displacement 205 tons.

continued Tuesday. During the session of the council, M. LEMON PROFITEERS Thoumyre, under-secretary for food, submitted a report on the state of France's wheat production, her available stocks, and the imports which will be necessary in order to maintain supplies until the next harvest. Frederic Francois-Marcel, minister of fin-

the question. The meeting was devoted exclusively to the question of wheat. It had been anticipated that a decision would be reached on the question of raising the price of bread from 50 centimes per kilogram to 95 centimes, either immediately or by successive increases. But a decision was postpon-

Official reports read at the meeting showed that France, which before the war could support its population, had decreased its wheat-raising area by a million and a half hectares since 1913, while the quantity of wheat produced had fallen during the same per-iod from \$8.000,000 quintals to 48,-

000,000 quintels. The report showed also that the food ministry had bought since Septemebr, 1919, nearly two and threequarter million tons of wheat, covering the country's needs until June, but the Crescent Creamery case. leaving from June to September to

be provided for.

The finance report showed that the state had kept the price of bread at francs, and supplying millers at 43 jority of 728 against the wets.

that a change is inevitable, the state having lost 2,893,000,000 francs by it up to June of lest year. up to June of last year.

PRESENT S.S. RESTLESS TO THE NAVY LEAGUE

Ottawa, Feb. 2.—For the purpose of training boys in practical seamanship, the Dominion government has presented the steamer Restless to the Navy League of Canada. There is the proviso that the vessel is to be used solely for the purpose of training boys

The Restless is a wooden, is considered one of the most import-ant problems that they are called upon steamer, built in 1906; length 71 feet, or 784. The breadth 17 feet, draft 9 feet, speed 8 United
