Captain of One Asks Protection When Signs of Trouble Appear

YARMOUTH, Dec. 8.—Four liquor laden vessels have arrived in Yarmouth in the last day or so. The former Yarmouth knockabout, Kirk and Sweeney, Capt. Clarence Burgoyne, at the customs yesterday reported from sea. The vessel carries 200 kegs of malt and 103 cases and 503 sacks of assorted liquors.

The schooner Dorothy Earl, Capt. Charles Donovan, with 893 packages of assorted liquors and the P. M. Alone, Capt. Wynne, with 3,000 cases of alcohol also reported from sea. The schooner Mary I, Capt. R. Victor, is also in port from St. Pierre, Miquelon.

On the subject of Government aid, the report says:

"Government aid alone, either through preferential tariff duties, or subsidies more or less direct, can secure the operation and continued existence of an adequate number of American merchant ships under private ownership."

Protection should be made for a permanent merchant fleet, to be built in American yards and maintained and operated by American labor, the purpose which Congress had in mind and which it supposed it had accomplished when it enacted the law of 1920 and created the present Shipping Board.

"If the law which already provides for one to be utilized, then a substitute should be provided, but whatever form of aid is given it should not be to special services, but should be general in its provisions, so that any American shipping firm willing to undertake the building and operation of American ships will be entitled to the same aid and the same opportunities to secure that aid that any other concern may have."

LOSES STEER, HAY AND BARN IN FIRE

DIGBY, Dec. 8.—Fire today completely destroyed the valuable barn of Kenneth Thorne, Port Wade. Mr. Thorne also lost tons of hay and one steer, beside some new farm implements. The fire was at first noticed by neighbors, who did everything possible to save the building. The owner said he carried no insurance. The origin of the fire is a mystery.

Now You Can Rid Yourself of Asthma

U. S. SHIP BOARD SHOWS DEFICIT OF \$30,000,000 IN '25

Operating Losses in Previous Fiscal Year Given as \$41,000,000

URGES GOVERNMENT AID FOR VESSELS

Recommends Assistance Be General to Perpetuate Merchant Marine

WASHINGTON, Dec. 5.—The Shipping Board, in its fifth annual report made public Saturday, shows among other things that it has reduced the total losses for fleet operation from about \$41,000,000 in the fiscal year 1924 to about \$30,000,000 in 1925, and that it has proceeded with the liquidation of claims and settlement of counter-claims netting \$43,853,255. It tells of the reduction of the number of operating managers of Shipping Board vessels. Government aid of some kind is advocated to insure the continued existence of the American Merchant Marine.

TRENDS OPPOSITE.

The reports show that the trend of American shipping since 1925 has been downward, while the trend of British shipping has been slowly upward. Among other recommendations made in the report is one for the construction of two vessels of the same type as the George Washington, to be operated with the Levia than in the North Atlantic service. Increase in the service of the United States Lines is proposed despite a loss of \$2,515,825 by those lines.

On the subject of Government aid, the report says:

"Government aid alone, either through preferential tariff duties, or subsidies more or less direct, can secure the operation and continued existence of an adequate number of American merchant ships under private ownership."

Protection should be made for a permanent merchant fleet, to be built in American yards and maintained and operated by American labor, the purpose which Congress had in mind and which it supposed it had accomplished when it enacted the law of 1920 and created the present Shipping Board.

"If the law which already provides for one to be utilized, then a substitute should be provided, but whatever form of aid is given it should not be to special services, but should be general in its provisions, so that any American shipping firm willing to undertake the building and operation of American ships will be entitled to the same aid and the same opportunities to secure that aid that any other concern may have."

GOVERNMENT OWNED.
