Capt. Hasting	Total.	Avg.
Baylun	72	66
Regan	73	66
King	70	77
Robinson	69	73
	384	372

RING.

Winnipeg, Nov. 9.—The Winnipeg Sporting Club has offered \$150,000 to Jack Dempsey to meet an opponent in Winnipeg next summer, so it is announced. Manager Kearns said he would withhold his decision for a few weeks.

Crosley vs. Roberts.

New York, Nov. 9.—Herbert Crossley, English heavyweight, will make his first U. S. appearance tonight in a twelve-

round bout with Al Roberts, of New York.

Bout For Gibbons.

New Orleans, Nov. 9.—Tommy Gibbons, contender for the heavyweight championship, has been matched in a fifteen-round bout with Don O'Dowd on November 25, so it was announced today.

## BASEBALL.

Baseball on Sunday.

Objectors to Sunday baseball in Cleburne, Tex., pulled an unusual stunt in their efforts to prevent the playing of a game on a certain Sunday in the past season.

There was a game scheduled between Cleburne and Sherman in the Texas-Oklahoma League, and the night before the scheduled game a number of the objectors went to the grounds with teams and plowed up the diamond, so that the game might not be played.

But the loyal baseball enthusiasts broke the Sabbath by going to the field the next day and putting it into shape, so that the game might be played.

## Babe Ruths Case.

Chicago, Nov. 9.—Judge Landis, commissioner of baseball, intends to dispose of the case of Babe Ruth and the other two members of the pennant-winning Yankees who violated baseball laws by participating in exhibitions, so soon as he hears what the offending players have to say for themselves. Leslie O'Connor, secretary of the baseball commission said that a questionnaire had been sent to Ruth, Meusel and Bill Piercy, which would give them a chance of explaining their violation of the major league constitution, but that no reply has been received from any of them.

## ST. FRANCIS X. LOSES BRILLIANT GAME, 6 TO 0

Antigonish, N. S., Nov. 8.—Dalhousie defeated St. Francis Xavier in the intercollegiate football game here today by six to nothing.

Dalhousie's victory over St. Francis Xavier gives the Tigers the title in the eastern section of the intercollegiate league and the right to play off with the winners of the western section for the intercollegiate championship of the maritime provinces. Unless Acadia succeeds in defeating Mount Allison in Sackville on Thursday, U. N. B. will have the title of the western section of the league and will play Dalhousie in Truro, probably about November 17.

## NEW KIND OF SPORT SHOE.

The Sole of It Is Made of Unvulcanized Crepe Rubber.

Sport shoes with soles cut from unvulcanized plantation crepe rubber have been introduced in England. A showing of the new type of sole at the rubber exhibition last summer popularized the idea, and boot and shoe manufacturers are now preparing to make sport shoes with the new soles readily available for the trade.

Trade Commissioner Hugh D. Butler reports that Englishmen playing tennis on Far Eastern rubber plantations discovered that they got much better wear from crepe rubber soles than they did from that which had been put through the vulcanizing process.

Shoes soled with the new crepe rubber are said to present a most attractive appearance, as the rubber is of a bright golden color with corrugated surfaces. Only blanket crepe, which is close knit and grizzly, is deemed suitable for the new rubber sole. They are exceptionally resilient since they contain many times as much rubber as the ordinary vulcanized rubber sole.

Shoes equipped with the new type of sole have not proved thus far to be as cheap as shoes with the standard vulcanized sole, but it is the opinion of the promoters of the project that, as soon as the new sole are made in quantity, they can be sold at a price not much higher than a good grade of standard shoes.

There is a very large market in England for durable sport shoes. The most popular type is known as "plimolls," which is a cheap canvas shoe used for any purpose for which shoes with rubber soles are needed. Their average life is two or three weeks, and the trade would therefore welcome a sole which offers more substantial service.

## ROD AND GUN.

The November issue of Rod and Gun in Canada will delight the sportsmen of the Dominion with its resplendent cover painting showing a picture of a fine duck in natural colors. The many interesting stories and articles in this issue include an excellent ducking story entitled "Twenty-six grains of ballistics and one and one-eighth ounces of num-bex." A thrilling account of one of Captain Joseph Bernard's exploratory trips in the Arctic regions also appears in the November issue. For the trapper and the hunter of outdoor life there is the Trapper's department ably edited by M. U. Bates, from material obtained on his own travels. The usual departments appear in this issue of Canada's National sportsman's monthly. Rod and Gun, which is published monthly by W. J. Taylor, Limited, Woodstock, Ont.

## USE The Want Ad Way

## ASKS HALF MILLION FROM ART CRITIC

French Woman Declares He Spoiled Picture Sale.

New York, Nov. 9.—Damages of \$500,000 are asked in a suit brought against Sir Joseph Duveen, international art dealer and critic, who is alleged to have prevented the sale of the painting "Belle Ferroniere," owned by Mrs. Andre Hahn, of Paris, to the Kansas City Art Institute, by expressing the opinion that the painting was a copy and not the original work of Leonardo da Vinci. The painting, according to Mrs. Hahn's complaint, had been expertized by George Sottsass, the official expert of the French Government, and pronounced by him genuine. This, it is said, he had established by many methods, including identification of the finger-prints in the paint as those of the great master. The painting was brought to this country last year, and negotiations for its sale were about to be concluded when a New York interview with Sir Joseph in which he was quoted as saying: "The picture sent to Kansas City is a copy, hundreds of which have been made of this and other Leonardo subjects and offered in the market as genuine. Leonardo never made a replica of his work. His original 'Belle Ferroniere' is in the Louvre, Georges Sottsass' certificate is worthless. It really relates to the Kansas City picture. He is not an expert on the work of Leonardo."

"La Belle Ferroniere," which is a portrait of Lucrezia Crivelli, mistress of Francis I, in which the eyes have much of the same haunting, unfathomable expression of da Vinci's "Mona Lisa," at once time hung in the Louvre. From these, so old reports have it the painting was stolen, and for a century or more passed through many hands and more adventures. It came to the United States last year as the result of the municipal patriotism of wealthy men of Kansas City, who backed the Kansas City Art Institute and offered to pay \$500,000 for it.

## MAY BE HEAD OF HOUSE.

Wife May Hold That Position, Rules Court.

Toronto, Nov. 9.—That a wife may be the head of the house was the ruling made by the Court of Revision here on an appeal by Mrs. Edmund Phillips against an income assessment of \$1,500. "I am the head of the house," said Mrs. Phillips, "I pay all the expenses of the house, and am entitled, therefore, to the \$2,000 exemption." The court made the exemption.

## WORLD'S GREATEST WIRELESS OPENED

Long Island Plant Flashes a Greeting from Harding to 28 Countries.

(New York Times)

A new wireless sending station, which engineers of the Radio Corporation of America who built it say is the most powerful in the world, was opened yesterday at Rocky Point, L. I., near Port Jefferson. From the White House in Washington a message of greeting from President Harding was flashed to twenty-eight countries—to all Europe, and even as far as Japan and Australia.

The plant is an amazing thing of huge size and of huge power, set in a wilderness on the north shore of Long Island. That part of it which is in the open air is a structure of steel and what will eventually cover ten square miles and spread out in a great wheel-shaped arrangement of towers.

When it is finally completed it will be so powerful that with all its energy it will be able to send a message to any station in the world can approach, and, Owen D. Young, Chairman of the board of the corporation, says, will make American the centre of the wireless systems of the world.

## BERMUDA BARS AUTOS.

Pleasure Island Also Refuses to Permit Construction of Trolley Line.

Automobiles are still to be barred from the public highways in Bermuda, according to a recent decision of the local government, which also rejected an offer of an American company to build an electric trolley line from Hamilton to St. George, a distance of twenty miles.

Both matters have been presented for consideration during the last ten years and have been repeatedly rejected. In the absence of autos the bicycle reigns supreme in Bermuda, as a majority of the able-bodied inhabitants use them and a large proportion of visitors adopt the same custom. The roads of Bermuda, well known as smooth as asphalt, are exceptionally well adapted to bicycling.

An important feature of the season will be the resumption of the Bermuda service of the Royal Mail Steam Packet Company, which was suspended during the summer, beginning with Jan. 7, weekly sailings will be made by the Araguaia, a palatial liner of 10,500 gross tonnage.

## COMMUNITY CLUB SOCIAL.

The East St. John Community Club held a basket social last evening in the Edith Avenue Mission hall. The affair, which was largely attended, was under the supervision of R. G. Magee. The first part of the evening was spent in the enjoyment of the following program: Piano solo, Miss Edith Magee; songs, Jack Simpson; reading, Mrs. Bernard; vocal solo, Miss Edith Magee; reading, Reginald Barker. At the conclusion of the entertainment the baskets were auctioned off by Jack Simpson and a substantial amount was realized for community work.

## CARLETON CURLING CLUB.

At the annual meeting of the Carleton Curling Club held last evening, the following officers for the ensuing year were elected: Honorary president, Hon. J. B. M. Baxter; president, Harold Mayes; vice-president, William Haslam; secretary-treasurer, C. R. Clark; chaplain, James Scott. The managing committee consists of Harry Belyea, P. W. Wetmore, E. P. Howard. The club committee is P. W. Wetmore, H. Linzey, Samuel Irons and Harry Belyea. The meeting concluded with a banquet.

## UNOBSERVANT BURGLAR.

North Bay, Ont., Nov. 9.—Alfred Neven, a seventeen-year-old youth, ransacked the private offices in the T. and N. O. building here, overtook \$200 in one drawer, and secured \$14.50 in a box
