WELDING

WELDING AND CUTTING OF ALL kinds of metals by Oxy-Acetylene process.—United Distributors, 48 King Square.

MAIL ORDERS ARE BETTER THAN IN 1921

(Montreal Gazette.) Wholesalers state that this time of year is between seasons and quite a number of their staff and travelers are taking the usual summer vacation. They are encouraged by the number of mail orders, etc., coming to hand, which show improvement over the same period a year ago. Montreal trade report. Quite a number of dry goods buyers are now on the regular European trip. Dry goods, groceries, hardware and boot and shoe jobbers are optimistic over the fall trade.

The weather has been ideal for the growing crops, which are making rapid progress. Cutting of rye in some sections of the western provinces is now in progress, while wheat is heading up nicely. The apple crop promises well, a larger acreage than usual has been sown in the potato crop of the province of Quebec. It is estimated that 700,000 acres in Canada are planted in potatoes. An improved demand for grain for export was experienced during the week.

There is quite a shortage of hard coal at present in the city, but dealers anticipate ample supplies before it is required for the winter. They also state that prices will probably be lower than last year, due to cheaper freight rates and the decline in American exchange rate.

Retail trade is fair, and collections do not show any improvement.

THE CROPS AND TRADE

(Toronto Globe.) Crop prospects continue to be the centre of interest in Canadian business circles. While the outlook generally is favorable, merchants and manufacturers are inclined to mark time, waiting until the harvest is better assured. While there are reports of damage having occurred in scattered areas of the Prairie Provinces, as well as in eastern Canada, taking a wide survey of the whole country, the promise of an abundant yield has seldom been better. In Ontario the situation leaves little to be desired. An excellent stand of fall wheat is now being harvested under ideal weather conditions. Although some damage has been reported from insect fly, the injury on the whole will be small. Yields of all spring grains in the province should be heavy, when the present large acreage will in all probability, make the Ontario grain crop of 1922 something close to a record. The importance of a good crop throughout the Dominion is to be emphasized without apology as practically all Canadian trade is dependent upon agriculture. This year promises to be better than last year, owing to the fact that crops harvested so far have not only been large but of good quality. Last year, it will be remembered, farmers sustained a short crop in many areas, and in addition to this, suffered from a falling market.

Wholesale merchants continue cheerful and report an increase in sales over last year. Orders from country districts, on the whole, are satisfactory. Merchants continue to await crop developments. Prices on most lines of textiles have been steady, but firm in tendency, and in the grocery markets refined sugar has scored a further advance. Retail trade still shows little improvement, and is generally reported as very sluggish in the departmental stores. In exclusive men's stores, it is still dull, although sales in evidence at some establishments this week show the strong efforts to bring in buying.

Find Colonial Coins of 1724. Montclair, N. J., July 25.—Workmen digging on the site of the mansion used by General Washington as his headquarters found old copper coins, one bearing the inscription "British North America, 1724."

Mr. Maurice Cohen, who now owns the property, obtained some of the coins.

The annual meeting of the trustees of the Reister school district No. 13, Milford, was held last night with the retiring chairman, M. P. Coholan, presiding. Mr. Coholan's term had expired and he was unanimously re-elected. H. C. Melaney was re-appointed secretary, and the meeting voted the sum of \$100 to Mr. Melaney as salary. The other members, Boyd Allan, has an unexpired term. Only routine business was transacted.

WOOD AND COAL

FOR SALE—DRY CUT WOOD, \$2.50 large truck.—W. P. Turner, Hazen Street Extension. Phone 4710.

KINDLING WOOD—\$3 PER LOAD, south of Union St.—Haley Bros, Ltd. City.

U. S. Strikes Show 2,000,000 Voluntarily Idle—Pessimistic Business Situation.

New York, July 25.—A pessimistic picture of business conditions resulting from the strikes in the railroad, coal and textile industries of the country is painted with figures included in the weekly review of industrial conditions made public yesterday by the national industrial conference board.

"Altogether, more than two million persons are voluntarily idle through strikes, and since the beginning of July 100,000,000 man hours of work have been lost each week. Of the average wage of labor taken at fifty cents an hour, the wage loss alone has been in excess of \$150,000,000 and is proceeding at the rate of more than \$8,000,000 a day.

"This, in effect, means a serious contraction in purchasing power, which, in turn, may have its effect on future employment and general business conditions."

The conference board reports a slight increase in the cost of living since May 16, with a twenty-four per cent. recession from the peak reached in July, 1920.

"Reports of wage changes gathered by the board," the review says, "shows that while last month there were more increases than decreases between June 16 and July 15, the number of decreases slightly exceeded the number of increases."

ODD ACCIDENT KILLS TWO.

German Couple Shocked to Death by Bathing, Pipe and Lamp Circuit.

Frankfurt, Germany, July 25.—Electrocution snuffed out the lives of a young married couple in one of the most unusual accidents on the local records. Both bodies were found in a bathtub.

That the zinc bathtub, a water pipe and a lamp stand figured in completing the electrical circuit that brought about their deaths.

The wife had grasped the lamp, which was of defective construction, with her wet hands as she was about to leave the tub and was immediately electrocuted, since the pipe leading from the tub completed the circuit to the ground. The husband was killed when he took hold of the lamp in trying to assist his wife.

Burns on the woman's hand and body and on the man's fingers provided the means for determining the cause of the fatalities.

TRADE WITH MEXICO.

Canadian Government to Appoint Commissioner.

Ottawa, July 25.—The Canadian Government will soon appoint a trade commissioner and an assistant trade commissioner to report upon and investigate openings for Canadian trade in Mexico.

The order-in-council says that "Mexico offers a field for organizing and extending healthy trade relations between that country and Canada."
