Sensational Shoe Selling

A legitimate opportunity for the people to obtain needful footwear at exceedingly low prices

OUR ANNUAL CLEARANCE SALE

has been a phenomenal success. We planned that it should be so. People say and have said "How is it possible that you can sell goods at such a price when in a short time you will no doubt be asking double the price." That is easily explained. The makers of the Dorothy Dodd Shoe for women, make up some three hundred samples. These are used by their Canadian travellers for a season. From them hundreds of thousands of pairs are sold, when the season is over the samples are disposed of to a dealer at a set price. We were fortunate in getting them this year, and we decided on giving the people a chance to get rare shoes at a rare price. We also go through our stock and take all odd lots and lines we are not again handling and put them in, affording the cautious buyer an opportunity to supply themselves with excellent goods at an exceptionally low figure. The result is we are enabled to open up in the spring with a brand new stock and the people are given a chance to obtain real undoubted bargains.

OPTIMISTIC ARE HARDWARE MEN

Ge-ahead Speeches at Annual Dinner of St. John Association—Talk of Lancaster and Simonds Joining City

Optimism was the keynote of the speeches last evening at the annual banquet of the St. John Iron and Hardware Association in the Union club, and they were speeches of interest and much worth from men closely in touch with city affairs, and whose interests are intimately allied with those of the city itself. A brighter year for St. John has dawned, according to the utterances of many of the speakers, and the appeal was made to stand united for what would be known as a "solid St. John," urging upon the provincial and federal governments the necessity of still further prosecuting the works in progress here to put the city well in the van. This was the main sentiment, and it seemed to be shared in common by those about the board for hearty and prolonged applause greeted the remarks of the speakers.

A. M. Rowan presided, and an entertaining and interesting programme was given, including a round of toasts, musical and vocal selections, after an excellent and nicely varied menu had been enjoyed. The menu card was unique and original, being in the form of a pair of miniature bellows, the menu inside, and on the outside the coat of arms of the city, with the name of the association and the slogan, "This is the time we blow ourselves." Amongst those taking part in the programme were an orchestra under leadership of Howard Holder, a vocal quartette, Signor Manetta, F. J. Punter and Samuel Holder.

The toast list included the following: The King, proposed by the president; Our Association, proposed by the president, responded to by W. H. Thorne, City of St. John, proposed by the vice-president, responded to by Mayor Frink and Commissioner Schofield; The Board of Trade, proposed by J. G. Harrison, responded to by J. M. Robinson; The Iron and Hardware Manufacturers, proposed by M. E. Agar, responded to by J. A. McAvity; Charles McDonald, John E. Wilson and W. B. Fisher; Our Guests, proposed by W. S. Fisher, was responded to by F. W. Sumner of Moncton, Major Edwards, W. G. Wallace and L. R. Wilson. Mayor Frink was well received. He gave a forceful and inspiring address dealing with city progress, the era of commission, past history and prospects for the future. He spoke of the gigantic works projected for the city and the prospects for ship-building, and greater expansion of industrial growth, and said that with the co-operation of the citizens, it was bound to come, provided they remained steadfast in their faith in the future of the city. "There seems to be an air of self-satisfaction with the citizens for the most part," he said, "but to me this appears decidedly as though they were in the danger zone. We have not yet got enough, and it is not yet time to be satisfied." Regarding industrial expansion His Worship touched upon the matter of the reclamation of a site for the McAvity works, and said that the commission would do all in their power to further that industry, which meant so much to St. John. Of course it would mean the provision of a vast sum, but he thought that the "old town would stand by them when they

were doing what was best in the interest of those who had put them in office, and the people would be willing to stand a lot before they would see the McAvity works go elsewhere." Mayor Frink was vigorously applauded at the close of his speech. Charles McDonald criticized the bringing in of experts for board of trade campaign. Commissioner Schofield was well received in responding to the toast of the city, and made a pleasing and optimistic speech. Among other matters he said that a suggestion which would seem worth acting upon was the matter of embracing the parishes of Lancaster and Simonds within the confines of the city, thereby making a greater St. John, increasing the population by more than 6,000, and advancing the city three places in the order of population of towns in Canada.

J. M. Robinson, president of the board of trade, spoke of the campaign which the board of trade is now launching in an endeavor to obtain new members and place the organization in a position to help in the development of the city and to bring about that development as soon as possible. The menu card was of an unique design being in the shape of a pair of hand bellows, with the motto: "This is the time we blow ourselves." The coat of arms of the city is shown on the front. When opened the menu is shown on a brown sheet.

The officers of the association are: A. M. Rowan, president; S. L. Emerson, vice-president; W. S. Clark, secretary; treasurer; W. H. Thorne, J. A. McAvity and James Pender, directors; A. M. Rowan, W. H. Thorne, J. A. McAvity, James Pender, S. L. Emerson and W. S. Clark, executive committee; J. P. MacIntyre, A. M. Rowan, J. A. McAvity, S. L. Emerson and W. S. Clark, dinner committee.

OLD AT 40

Some Younger at 65 Than Others Are at 40 Years
So many people whom you meet about the time they reach 40 begin by saying "I can't do this, and I can't do that, because I'm getting old now," they begin to act old, feel old and they are older in appearance than many who are much more advanced in years. When you begin to feel old, when your energy begins to fall build yourself up with our delicious cod liver and iron tonic, Vinol. It is a wonderful blood-maker and strengthener.

Mr. J. N. Kelley, aged 75, who lives at

Lake Charles, La., says:—"I took Vinol for a run-down condition, it not only built up my strength, but I feel fifteen years younger than I did before taking it." Thousands of old people have found in Vinol just the medicine they need to build up the feeble, weakened system and create strength. If it fails, we return your money. MORNING NEWS OVER THE WIRES

Colonel Sir William Henry Manning has been appointed governor of Jamaica. Fire yesterday did damage amounting to more than \$125,000 in Fort Saskatchewan, Alta. In accord with the policy of transferring the necessity of life to the free list, most was proposed by the Democrats in Washington yesterday to be added. This proposal was blocked at the last session.

Freckles Today.

Notwithstanding the extra large attendance of the two previous evenings, Freckles is due for still greater audiences at the matinee today and again this evening at the Opera House. This continued patronage is another proof that St. John will support a play and company of real merit.
