Daily Hints For the Cook

SCRAMBLED EGGS.
The Peggy Bradford and 1874—One cup of cooked rice, 1/2 cup of milk, salt and pepper to taste and 2 well-beaten eggs. Put plenty of butter in frying pan. When good and hot add the above and stir until the milk is absorbed.

SOUP MILK GRIDDLECAKES.
One and one-fourth cups of thick sour milk, 2 eggs, salt, tablespoon melted butter, 1 even teaspoon of soda sifted with 1 1/2 cups flour 3 times, little nutmeg, about 1 tablespoon of molasses or just enough so the cakes will cook nice and brown.

Grease griddle pan with fat pork. Do not make batter too thick as the thinner the batter the better the cakes as long as you are able to fry them.

RECENT DEATHS

The death of Miss Charlotte A. Patterson occurred yesterday in Moncton at the home of her brother, J. C. Patterson. She was seventy-three years old and a well known resident of Moncton. Her father was the late John Patterson of St. Mary's.

The death of Mary J., widow of William Peters, took place last evening at the residence of George T. Cooper, Queen street. Mrs. Peters was in the 82nd year of her age and is survived by four daughters—Mrs. William Peters, Mrs. Baker, Mrs. Ernest DeMille, of St. John, and Mrs. Ernest Harrington, of Victoria (B. C.), and

A Little Bunion Lore

A DAINTY foot is one of the greatest attractions that a woman can have and it is generally admitted that the Amazonian girl possesses fully as pretty feet as the woman of any other realm. So far, so good. Now we will look on the reverse side of the shield, so to speak, and see what can be done to remedy the defect.

It is written that with the possible exception of the Chinese the women of no other nation mistreat their feet as do the Americans.

Especially as we subject to bunions, due to our habit of wearing shoes a wee bit too tight or a trifle too short.

To begin with, the defect from henceforward see to it that the aching joint is relieved of all pressure as continued friction on the joint will increase the inflammation to such an extent that a surgical operation will be necessary. If it is at all possible, wear a practice of shoes that protect the bunion from pressure by covering it with a large ring of piano felt.

A local treatment for bunions consists in painting joint several times a day with the lotion given below:

BUNION LOTION
Glycerine..... 2 drachms
Carbolic acid..... 2 drachms
Tincture of iodine..... 2 drachms

If the thought of applying a carbolic lotion to the tender joint daunts the fearful woman, she can substitute for it a mixture of iodine, applying it to the bunion at night with a camel's hair brush.

Do not neglect to do something and at once for your grumbling joint, as otherwise you may fall heir to a deformed foot and lifelong suffering, as it is a serious matter when the synovial membrane—lining the joint—becomes diseased. Only constant care and attention will prevent the bunion from reaching an acute stage.

WOMAN FOUND DEAD IN WRETCHED HOME

Aged Mrs. Donovan Evidently Dead Several Days in St. Patrick Street Before it Was Known

In a wretched hotel in the rear of 82 St. Patrick street, where she had lived in seclusion for more than six years, the dead body of Mrs. Margaret Donovan, 70 years old, was found yesterday afternoon by a neighbor, Mrs. William Nichol. Every morning Mrs. Nichol was in the habit of taking a supply of water to the old woman, but on Tuesday, Wednesday and Thursday mornings, when she went and rapped at the door, she received no response from within. Yesterday afternoon she became alarmed and investigated. She pushed open the door and saw the body stretched across the room. It was found that the woman had been dead since Monday night when she was last seen.

It would seem that the cause of her death from natural causes, as she had been suffering from an incurable disease. It is believed that the sufferer died in her dying hours.

Mrs. Nichol notified the police and Patrolman Corbett arrived and gave permission for the removal of the body to the morgue. The condition of the rooms in which the woman lived was such as to make it impossible for her to live in such a place as long as she had. There was little furniture and much dirt and on the bed there were several enough ragged bedclothes to cover her body.

Little is known about the woman except that she lived alone. She was a native of the town of St. John, and she told herself. Although living in apparent destitution she never applied for help as she said she had nearby relatives abroad who supplied her with all the money she needed. She is said to have a brother at present in St. John, and said she had two sons, sometimes saying they were still alive and at other times that they were dead. It is said she once lived in Charlott.

UGH! HOW CHILDREN HATE CASTOR OIL

To Clean The Little One's Stomach, Liver And Waste Clogged Bowels, Give Gentle "Syrup of Figs"

Look back at your childhood days. Remember the physic that mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. The day of harsh physic is over. We don't force the liver and bowels now; we coax them. We have no dreaded after-effects. Mothers who cling to the old form of physic simply don't realize what they are doing to their children's health. Their little stomachs and tender bowels are injured by them.

If your child is fretful, peevish, half sick, stomach sour, breath ferverish and its little system full of colds, has diarrhoea, constipation, stomach-aches, doesn't eat or rest well—remember—look at Syrup of Figs, then don't worry, because you surely will have a well-smiling child in a few hours.

Syrup of Figs is composed entirely of luscious figs, senna and aromatics simply cannot be harmful. It sweetens the stomach, makes the liver active and thoroughly cleanses the little one's waste clogged bowels. In a few hours all sour bile, undigested fermenting food and constipated waste matter gently moves on and out of the system without gripping or nausea. Directions for children of all ages, also for grown-ups, plainly printed on the package.

It all means get the genuine. Ask your druggist for the full name "Syrup of Figs and Elixir of Senna," prepared by the California Fig Syrup Co. Accept nothing else.

Only One "BROMO QUININE" That is LAXATIVE BROMO QUININE. Look for the signature of E. W. GROVE. Cures a Cold in One Day. Cures Grip in Two Days.

PILES

Do not suffer from PILES. Chamberlain's Ointment will relieve you at once and certainly cure you. See a box of Chamberlain's Ointment in every drug store.

FIGHTING WHITE PLAGUE IN SISTER PROVINCE

When introducing the bill for the establishment of municipal authority in Nova Scotia, Hon. Mr. Armstrong said that instead of Nova Scotia having a large number of sanitariums scattered over the province there will be several large ones established serving certain districts, which system, under the limited revenues of the province, was better adapted to its needs.

These districts or divisions will be so regulated as far as possible, to equalize the population and the percentage of cases to be treated. There will be five sections giving approximately 100,000 population to each district.

Regarding the matter of financial aid, and initial expenditure in establishing these sanitariums, Mr. Armstrong gave a full explanation. The government will borrow \$100,000 on capital account, out of this half the cost of the sanitariums will be paid, the other half being met by the municipalities, towns or cities by which they are to be supported. The measure embodies medical supervision, district nurse, county clinics, and the supervision of the provincial health officer. With regard to the latter, Mr. Armstrong is strongly in favor of the appointment of the very best expert that is procurable.

FOR A BAD STOMACH PAPE'S DIAPYPSIN

Time it! In Five Minutes You Will Wonder What Became of the Gas, Sourness and Indigestion

Sour, gassy, upset stomach, indigestion, heartburn, dyspepsia; when the food you eat ferments into gas and stinks, when your head aches and you feel sick and miserable, that's when you realize the magic in Pape's Diapypsin. It makes each misery vanish in five minutes.

If your stomach is in a continuous revolt—if you can't get it regulated, please, for your sake, try Diapypsin. It's so needless to have a bad stomach—make your next meal a favorite food meal, then take a little Diapypsin. There will not be any distress—eat without fear. It's because Pape's Diapypsin "really does" regulate weak, out-of-order stomachs that gives it its millions of sales annually.

Get a large fifty-cent case of Pape's Diapypsin from any drug store. It is the quickest, surest stomach relief and cure known. It acts almost like magic—it is a scientific, harmless and pleasant preparation which truly belongs in every home.

LABOR MEN TAKE UP STREET RAILWAY AND FERRY SERVICE MATTERS

Street railway matters were discussed by the Trades and Labor Council last evening and a resolution calling upon the city government to take over the present railway facilities was adopted and ordered sent to the city commissioners. If a company is to take over the road the council asks that they be required to provide workmen's tickets at special rates during certain hours.

The council also asks that the workmen's tickets on the ferry boat should be accepted until 7:30 instead of until seven o'clock as under the present rule and request that three of these tickets be accepted for one fare during other times of the day.

The matter of arranging for labor time which would house all the local unions was discussed but no action was taken.

Your Baby Needs One Of These Famous Spring Bed Carriages

The greatest delight your baby will have will be when riding in one of our easy running Spring Bed Go Carts or Carriages. They are simply wonderful—the construction, style and finish can't be beaten.

If you are interested, drop in and let us show you them. To see one is to buy one—ESPECIALLY AT THE PRICES THEY ARE MARKED.

FAIRVILLE NEW POST OFFICE FINEST FOR ITS SIZE IN CANADA

(Continued from page 1)

two sets of steps at either side in the front of the post office there are two small stone steps directly in the centre and these are beneath a letter box opening to the inside of the receipt of mail when the office is closed. While it is possible for adults to reach the box in question without the aid of the steps approaching it, the latter are designed for use of children whose little arms would not permit reaching the slot, were it not for the steps.

Both inside and out the new post office is finished in up-to-date manner. The furnishings and equipment are the latest and most modern, and tend to make the building superior to many business structures about the city. In the tower a large clock is set and can be seen from some distance, and this is proving a matter of great convenience.

Inside the office the lobby is clean and bright and nicely finished in mural and floor arrangement. There is accommodation provided for the writing of letters, addresses, etc., and there is both plenty of room and light, artificial and natural. The
