GOOD-NATURED SKIT ON DRY CAMPAIGN

"Water, Water Everywhere" is Very Funny at the Imperial Theatre—Good Travel Pictures.

Will Rogers in his Goldwyn production, "Water, Water Everywhere," at the Imperial at present comes as a star, solidly established in the favor of motion picture audiences. Although "Water, Water Everywhere" marks but the third appearance of Will Rogers as a screen star, the famous humorist has become a favorite already.

In "Almost a Husband" his initial starring vehicle, Will Rogers took the country by storm and handed the industry an eye-opener in the way of surprise by outdrawing, in hundreds of localities, stars of established reputation in the film world. Following "Almost a Husband" came "Jubilo" and the success which attended its country-wide presentation convinced exhibitors that the public was ready and eager to welcome a new screen personality—an individual and refreshingly "different" personality—and that Will Rogers filled the description to perfection.

In "Water, Water Everywhere," now being shown the irresistible personality of Mr. Rogers and his strong drawing power are augmented by the fact that the story deals with the most widely discussed and most timely topic of the day—prohibition. Of course it is a harmless and wholly innocent film that is taken at the dry campaign and nobody can possibly take offence. Yesterday's crowds laughed themselves silly at the witticisms of the "roughneck" comedian. The Imperial showed Burton Holmes' travelogue entitled "From Blarney to Broadstairs," also the Literary Digest "Topics of the Day" as well as a splendid Ford monthly industrial picture "The Making of Rubber Tires."

Same programme tonight but tomorrow Madge Kennedy will be featured in "Through the Wrong Door."

See offer below.

Millions of Them
Millions of teeth are being cleaned in a new way. You see them everywhere—white, gleaming teeth. Ask about them. You will find the owners are now fighting film.

Watch Yours Whiten
A 10-Day Tube of Pepsodent is offered now to anyone who asks. This to quickly show all people what it does. For your sake and your children's sake we urge this ten-day test. Pepsodent is based on pepsin, the digester of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

How Film Wrecks Teeth
Film is that slimy coat which you feel with your tongue. It clings to teeth, enters crevices and stays. The ordinary tooth paste does not dissolve it, and the tooth brush alone can't end it.

A Test is Free to All
This question needs no argument. The results are quick and apparent. Simply send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears. You see the results wherever you look—see teeth uniquely white. And you know those white, clean teeth mean safer teeth. Find out how folks attain them. See the results on your own teeth. Then judge for yourself what is best for you and yours. Cut out the coupon so you won't forget.
