

Angeles Railway

President Cushing and Manager Atkinson See the Railway Sub-Committee.

They Ask a Cash Subsidy in Return for a Fast Ferry Service.

Yesterday President Cushing and Manager Atkinson, of the Port Angeles and Eastern Railway, came over on the Garfield and spent an hour or two in the city, meeting the railway committee of the committee of Fifty, and submitting their propositions to that body. The result will probably be embodied in a report which the sub-committee will submit to the main body shortly.

Both gentlemen were seen just before they embarked for home and expressed themselves very optimistically in regard to the outlook for the Angeles road. The propositions which they submitted to the sub-committee indicate that the road is emerging from the chrysalis stage, and that the promoters are now prepared to discuss practical details with the corporations which are interested in, and will be affected by, the construction of the road. The president and the manager laid before the sub-committee the details of the service which they intend installing across the Straits from the terminus of the road at Angeles to this place, providing for a daily passage ferry steamer of twenty knots, which will make the trip in one hour. They also propose to put on a freight barge which will be capable of ten or twelve knots an hour. They promise, too, to build at both ports slips and wharves for the accommodation of the great trade which the construction of the line will in all probability divert to this route. The barge will be of such capacity and form that it will be capable of carrying freight and passenger cars.

In return for the benefit accruing to Victoria for the contemplated service the gentlemen named ask a cash subsidy or the guarantee of interest on their bonds. They expressed themselves as pleased with their reception by the members of the sub-committee.

Isaac Atkinson, vice-president and general manager, in further conversation, said good terminal facilities had been offered the road at Beech Bay, below Race rocks. The selection of this bay for the British Columbia terminus would mean the shortening of the distance to be traversed by ferry from twenty to nine miles. Hon. Robt. Dunsmuir held a charter at one time to connect with Port Angeles from that point, but at his death the scheme was allowed to lapse. However, that resulted from heart failure for the purposes intended.

President Cushing, who arrived but a short time ago from Boston, says that work commenced yesterday with fifty men, and that this number is expected to be increased by 200, who are now on the way. The company propose to secure transcontinental connection with several through lines by building to Teno. The idea had been entertained of connecting the Port Townsend and Southern line, but the company now are disposed to construct their own road, having found what they consider a better route. The construction had been of course begun in earnest will be vigorously prosecuted and the managers assured the sub-committee that there will be no cessation of work until the road is completed. They state that the proposed line between Boston capitalists and that the syndicate is incorporated with capital to the extent of \$500,000. The president and the manager returned to Angeles again last evening by the Garfield.

DEBT CONSOLIDATION.

Ratepayers Asking That the Necessary By-Law Be Introduced.

Following is a copy of the petition now in circulation calling upon the council to submit a by-law carrying into effect the scheme for consolidating the city debt as suggested by Ald. Hayward.

Victoria, B.C., April 5th, 1899.

To His Worship the Mayor and Board of Aldermen:

Gentlemen: The petition of the undersigned humbly sheweth: That whereas it is desirable to give effect to the scheme for the consolidation of part of the outstanding city loans, as outlined in the following preamble, viz:

Whereas the following debenture loans of the city of Victoria, namely:

Streets, bridges and cemetery	\$45,000
Water works	70,000
Water works	30,000
Pleasure grounds	25,000
Fire department	15,000
City hall addition	35,000
Cemetery	12,500
Crematory	10,000

Total \$272,500

Bear interest at the rate of 5 per cent. per annum and fall due in the years 1919 and 1920; and

Whereas provision is made in said debentures for their redemption at any time by the council of the said city; and

Whereas the present condition of the money market indicates that a new loan could now be floated on much more favorable terms than the said existing loans; and

Whereas there is now standing to the credit of the sinking fund of the aforesaid named debentures the sum of \$350,000, which is destined to apply in part redemption of the said debentures; and

Whereas it will require the further sum of \$210,000, which, together with the accumulated sinking fund, will suffice for the entire redemption of said loans; and

Whereas the floating of a new loan will result in saving to the city the sum of about \$3,000 per annum more payable in interest, etc., on the said existing loans, and will be otherwise advantageous to the city; and

Therefore it is resolved: That our solicitors be and they are hereby instructed to examine into the legal questions involved in the foregoing preamble and report to the council at its next meeting;

And whereas the city solicitors have given it as their opinion that the scheme is a good one and free from legal difficulties,

and also that City Auditor Raymur has certified to the correctness of the calculations upon which the foregoing preamble is based.

Your petitioners would therefore pray your honorable body to introduce and pass a by-law for the vote of the electors thereon to raise by way of loan upon the credit of the municipality a sum not exceeding \$210,000 for this purpose.

And your petitioners, as in duty bound, will ever pray.

POLITICAL CARTOONS.

The Montreal Daily Star is publishing a set of cartoons entitled "The Bytown Coons" that are attracting world-wide attention. They are unquestionably the most artistic productions of the kind that have ever appeared in any paper in Canada. Although for the most part they are skits on the Ministers, the members of the Cabinet have laughed over them to their heart's content as being full of fun and humor as no cartoons of the present day have. Sir Richard Cartwright and Sir Henri Joly have been particularly amused by these striking caricatures and have looked forward with keenest interest to every new issue. The demand for the Star with these cartoons has been beyond the publishers' ability to supply, and by special request the entire set of cartoons are being published on fine paper under special covers to meet the demand. The publishers are letting the public have them for ten cents as far as the supply will go. The sum of ten cents in stamps or silver sent to the publishers of the Montreal Star will, we understand, secure a complete set of the Bytown Coons. The Bytown Coons have already had a circulation of upwards of a million.

DEATH OF JOSEPH DAVIES.

One of Victoria's Most Highly Esteemed Citizens Dies Suddenly This Morning.

Joseph Davies, an old time resident of Victoria, and one of the best known and most highly respected citizens of the capital, died suddenly this morning at his residence, Pandora street. Mr. Davies resided at the house of a relative, Mrs. Hyam, and this morning rose at his usual hour and proceeded, as was his custom, to the bath room. He was then returning to his room. As time passed and he did not make his appearance for breakfast, it was thought that he had retired to bed again, having been out late, at a dance at Work Point on Tuesday evening, and an effort was made to arouse him. This proving unavailing his room was entered, but Mr. Davies was found to be dead. The body was still warm, of course, and death is supposed to have occurred between six and seven o'clock. His cousin, Mr. Joshua Davies, the auctioneer, was called and medical assistance brought in, but too late to be of any use. It is supposed that death resulted from heart failure. The deceased's relatives in Portland have been communicated with by telegraph, but no reply had been received up to the time of going to press. The funeral arrangements are being made in the city and it may safely be said not a single enemy. He was a member of long standing of the Typographical Union, and always took a keen interest in the affairs of that organization. He was also prominent in Oddfellows circles, and at the time of his death held the position of Vice Noble Grand of Columbia Lodge No. 2. He was a man of very happy disposition and on Wednesday evening at Work Point, he was, as ever, the life and soul of the party. He will be very much missed in those circles, where he was known best and the news of his death will come as a shock to the hundreds who have passed many happy hours in his company. He leaves two sisters and three brothers. One sister is in Portland, Oregon, and the other in Tacoma. Of the three brothers, two are in Portland and a third is in Salt Lake City, Utah. Mr. Davies was unmarried.

Mr. Davies was born in London, England about 50 years ago, although there is no absolute certainty as to the date. He came to San Francisco at a very early age with his parents and family, and with them moved to Victoria in 1858. His father conducted a hotel on the site of Messrs. Hibben's store, Government street in early days and the deceased was educated in the city. He was subsequently apprenticed to the printing trade and was engaged in nearly every office in the city at one time or another. He worked on the Standard, the Colonist and Times, and at the time of his death was employed in the government printing office.

For any case of nervousness, sleeplessness, weak stomach, indigestion, dyspepsia, try Carter's Little Nerve Pills. Relief is sure. The only nerve medicine for the price in market.

Hon. Fred. Peters left to-day for Ottawa and later for Prince Edward Island.

Is the baby too thin?
Does he increase too slowly in weight?
Are you in constant fear he will be ill?
Then give him more flesh.
Give him more power to resist disease. He certainly needs a fat-forming food.

Scott's Emulsion is just that food. It will make the baby plump; increase the weight; bring color to the cheeks, and prosperity to the whole body. Thin children take to it as naturally as they do to their milk.

Scott & Bowne, Chemists, Toronto.

The New Admiral.

A Sketch of Rear Admiral Palliser's Successor at Esquimalt.

Details of His Experiences in the Arctic Expedition of 1875.

The News-Advertiser has a London letter in which an interesting sketch is given of the new Rear-Admiral appointed to this station. The correspondent writes: "As is probably known in British Columbia, Rear-Admiral L. A. Beaumont has been appointed to succeed Rear-Admiral Palliser in command of the Pacific station. Admiral Beaumont is one of the fortunate officers of the service, as he became Rear-Admiral when only three months over the age of fifty, and he is not yet fifty-two. He has had no war service, but was Senior Lieutenant of the Discovery under the present Sir H. Stephenson in the Arctic expedition of 1875-76, being promoted to Commander on the return of the expedition to England at the end of the latter year. As a captain he was private secretary to Lord Northbrook, when he occupied the position of First Lord of the Admiralty, commanded the training squadron as commander, and has been director of naval intelligence since September, 1894. He is succeeded by Captain R. N. Cuntance, who was an assistant director of the same department from February, 1887, to January, 1890. In the Arctic expedition of 1875-76, Beaumont commanded the sledge party for the exploration of the North Greenland coast, being absent on that duty from the ship for over four months, from April to August, 1876, and the record of the expedition shows that Arctic exploration is no child's play and not to be lightly undertaken. Beaumont's party at starting consisted of sixteen men and two officers, dragging two sledges; the cold was intense, ranging from 30 deg. to 40 deg. Fahrenheit below zero, and the work of forcing their way, especially through the snow, proved most arduous. Before he had been absent a month from the ship, scurvy, that fearful scourge of Arctic exploration, broke out, and Beaumont had to break his party up, continuing himself with one sledge and only six men, the remainder being either down with scurvy or employed in conveying their sick comrades back. What the travelling was like may best be gathered from Beaumont's own words: "The travelling had become very weary, and the snow varied from two and a half to four and a half feet in thickness, and was no longer crisp and dry, but of the consistency of moist sugar; walking was most exhausting, and one had literally to climb out of the holes made by each foot in succession, as the hard crust on the top which would only just bear you, as well as the depth of the snow, prevented you from getting your feet down through it, each leg sank to about three inches above the knee, and the effort of lifting them so high to extricate them soon began to tell upon the men." The result of the expedition was that Beaumont had to drag them to the top of the sledge, two at a time, and thankful if they advanced only half a mile a day. With the exception of Beaumont himself, who was not attacked by scurvy, of whom two died. So much for the pleasure of Arctic exploration.

SALMON FISHING.

The New Regulations For Province of British Columbia.

The new salmon fishery regulations for the province are published in the Canadian Gazette. The notice is as follows:

His Excellency, in virtue of the provisions of the Fisheries Act, chapter 95 of the revised statutes, and by and with the advice of the Queen's Privy Council for Canada, is pleased to order that the fisheries regulations established by the order-in-council of the 3rd day of August, 1898, by which the general fishery regulations for the province of British Columbia established by the order-in-council of the 3rd day of March, 1894, are amended, and the addition thereto of certain clauses shall be and the same are hereby rescinded, and the following substituted in lieu thereof:

Salmon Fishery Regulation, B. C.

1. Every applicant for a salmon fishery license shall be (a) a British subject resident in Canada and (b) on or before the 30th day of June in each year personally enter his name and address in a register to be kept by the inspector of fisheries, or by an authorized fishery officer in British Columbia. Before a license is issued to any applicant (c) the required fee shall be paid by the said applicant. Indians being British subjects shall not be required to register as above provided.

2. Each fisherman being a British subject, registered on or before the 30th day of June in each year, as required under clause 1, shall be entitled to one fishing license. Each firm, company or person engaged in the canning of salmon shall be entitled to ten fishing licenses, but each of such licenses shall be valid only for one fisherman, either an Indian or a British subject whose name is enrolled in terms of the conditions stated in clause 1, such name being inscribed on the license by the inspector or officer granting the same at the time of its issue.

3. A fisherman's license shall not be transferable on pain of forfeiture, and a canner's license (ten in number to each canning establishment) shall be cancelled if the canner for which they are issued ceases to be operated.

4. Each fisherman (whether employed by a cannery or not) shall at all times when carrying on fishing operations carry with him his license and when he fishes, and shall exhibit it when re-

quired to do so by the inspector of fisheries or other authorized officer.

5. Each boat engaged in fishing operations shall have a number painted on the bow in black on a white ground, such number being entered upon and corresponding with the license. The letters or figures painted on the boat shall be plainly legible, and not less than six inches in height.

6. All nets and fishing boats shall be numbered, and every boat shall have its number and initials of its owner painted on it in a conspicuous manner, and every net shall have the initials of its owner or owners as well as the number legibly marked on buoys of wood or metal painted white, and floating on the water attached to each end of the net, and such names and numbers shall be permanently kept on such nets and boats during the fishing season, and shall be so placed and kept as to be visible without taking up the net or nets. Any net or fishing boat used without such number and initials marked thereon shall be liable to seizure and confiscation on view, by any fishery officer.

7. Any boat found engaged in salmon fishing operations without having a duly licensed fisherman on board, shall, together with all its nets and gear, be liable to seizure and confiscation on view by any fishery officer so finding it.

8. No one shall be engaged or employed as a boat puller or boatman on any boat engaged in salmon fishing under license, unless he holds a boat puller's permit. (a) Each applicant for a permit shall when so applying enter his name in the register in a list or register to be kept by the inspector of fisheries, and (b) any person so registered or entered may receive one permit as such boat puller or boatman and payment of a fee of \$1. 9. A licensed fisherman engaged in salmon fishing operations having a boat puller or boatman without such permit shall, together with all its gear and nets, be liable to seizure and confiscation on view by any fishery officer, and to the forfeiture of the fishing license under which fishing is being carried on.

His Excellency is further pleased to order that these amended regulations shall come into operation from the day the publication thereof in the Canada Gazette.

JOHN J. M'GEE,

Clerk of the Privy Council.

LAW INTELLIGENCE.

Application to Release Barber-Benchers Meeting-Successful Students.

Application will be made in Walt vs. Barber to the judge in chambers to-morrow morning for the release from custody of the defendant, who was arrested on a capias issued by Mrs. Walt, of the Vernon, who has a claim for board and lodging of the defendant and his wife.

The newly elected benchers held their first meeting last night. The head or chief officer of the Law Society is called "Treasurer," and last night Mr. Pooley was again elected treasurer for the ensuing year, an office which the late Hon. M. Richards filled for several years prior to his death.

The result of the recent examinations in law was declared and the following gentlemen were successful:

First in the law, Messrs. D. M. Rogers, H. L. Morley, W. L. Roberts and J. H. Livingston.

Final for students and articled clerks, Messrs. A. C. Anderson and H. G. S. Heintzman. The following gentlemen were called to the bar and admitted as solicitors: Messrs. A. C. Anderson, B. C. Keenning, C. E. Gillen, J. R. Brown, H. A. Macdonald, J. A. Hall, J. T. Costigan, J. S. T. Alexander, A. J. Kappeler, A. E. Garrett and H. J. Dawson. Mr. A. D. Macintyre was called only. This morning they were presented to the court presided over by Mr. Justice Walkland, when they took the usual oath. All of them, with the exception of Mr. Anderson, are Eastern Canadian barristers and solicitors who have come here but recently.

Charles Nelson Haney was enrolled as a student at law.

MONTAGUE OF DUNVILLE, CURED OF ULCERATED ITCHING PILLS.

Mr. Montague, of Dunville, Ontario, writes: "I was troubled with Itching Pills for five years and was so badly ulcerated, they were very painful, so much so, that I could not sleep. I tried almost every medicine, but without success. I was advised to use Dr. Chase's Ointment. I purchased a box and from the first application got relief. Have used two boxes and am now completely cured."

PLEASED AMERICAN VISITORS.

Buffalo, N. Y., April 8.—Mayor Diehl and the commissioners of public works returned last night from their gas plant investigation jaunt to Toronto. They express themselves as greatly pleased with the trip. The party inspected the coal and water, gas plants in the Canadian city and were shown voluminous plans which had been prepared by the Commercial Gas Apparatus Construction Company for Buffalo's proposed plant. Mayor Diehl was much impressed with the successful system under which Toronto municipal plant is run, and seems to favor the municipal idea.

Good Blood!

Does your heart send good or bad blood to your brain? If bad, impure blood, then your brain suffers. You are troubled with drowsiness, yet cannot sleep. You are as tired in the morning as at night. You have no nerve power. Your food does you but little good. Stimulants, tonics, headache powders cannot cure you; but

Ayer's Sarsaparilla

will. It removes all impurities from the blood. And it makes the blood rich in its life-giving properties. Give a bottle. All druggists. Carefully read the directions. It is the only remedy for all the ailments mentioned above. Write for our Descriptive Circular. Write freely all the particulars in your case to Dr. J. C. Ayer, Lowell, Mass.

NEW YORK FIRE.

More Wild Stories of Incendiarism-The Injured Are Reported To Be Progressing Satisfactorily.

New York, April 8.—A large crowd gathered to-day around the ruins of the Andrews house, where yesterday 12 persons were burned to death. Police men guarded the surroundings and until the cause of the fire is known, the building will be carefully watched. With the exception of Jennie Burns, all the injured were reported to be doing as well as can be expected. For the Burns girl there seems no hope. Both the police and the fire department officials were to-day investigating the cause of the fire, and some wild stories of plots and incendiarism were afloat.

The bodies at the morgue were positively identified to-day by Dr. Cuddeback, who attended to the teeth of the entire household. The bodies correspond with the death list sent out yesterday.

The butler, Foley, made a statement to-day that Mrs. Andrews sent for a policeman to guard the house shortly before midnight on Thursday. The police say that he has made several contradictory statements.

Later.—Despite reticence on the part of the police facts become public to-day which make it appear that the fire was of incendiary origin. A policeman sent for from the Andrews house was mysteriously dismissed by a servant, who said he was not wanted. Foley, the butler, is under surveillance. Anonymous letters received recently made charges against Mary Flanagan and the butler.

Albena, Mich., April 8.—The Church-hill house was burned to the ground to-day with all its contents. Several of inmates narrowly escaped. The insurance amount to \$30,000. It will be rebuilt.

ATTEMPT TO KILL A GENERAL.

Servant Made a Murderous Attack on the Czar's Aide-de-Camp.

Moscow, April 8.—An attempt has been made to assassinate the Czar's aide-de-camp, General Mauney. He was stabbed in the throat by a servant, but the would-be assassin was overpowered. The general's wounds are not serious.

OTTAWA NOTES.

Ottawa, April 8.—A large delegation of lumbermen, principally from Western Ontario, waited on the government to-day and asked that the same duty be placed on United States lumber, shingles and laths entering Canada, as was now on Canadian lumber, shingles and laths entering the United States. Mr. J. D. Gordon, British Columbia Lumber Company, was with the delegation. Sir Wilfrid Laurier promised to consider the matter.

NEWSPAPER MANAGERS FINED.

Paris, April 8.—The revelations made by the Figaro in publishing the testimony furnished to the court of cassation in the Dreyfus case, came before the correctional court this afternoon, when two managers of the paper, M.M. Rodes and Poret, were sentenced, in default, to a fine of 500 francs and costs, for publishing the testimony in the case.

STOCK EXCHANGE QUIET.

New York, April 8.—The trading stock exchange at the opening lacked the exciting incidents of yesterday's market, and business was only normal.

The action of Carter's Little Liver Pills is pleasant, mild and natural. They gently stimulate the liver, and regulate the bowels, but do not purge. They are sure to please. Try them.

Philippine Horrors

Shanghai Minister Tells Revolting Conditions Existing There.

Friars Disinter Bodies Enormous Burial Are Not Paid.

Amongst the mail advices received from the R.M.S. Empress of Japan following report by Rev. John of Shanghai of his investigation of Luzon. He says: In accordance with instructions received from the Bible Society, I have made an investigation of the conditions of the Philippines, with a view to ascertaining what kind of a field for missionary work. I will write things as I can. There are very many things to be referred to in the Philippines. I am compelled to most terrible details of the state of the Philippines.
