FURNITURE EMPORIUM

The Golden Ball Boot and Shoe Store is the oldest established in Miramichi. It is now fiteen years since we commenced business exclusively in the above line, and we can now point with gledeur, to hosts of patrons, who have invariably, purchased from us, during that length of time. The respons is plain. We buy entirely from the best manufacturers, consequently our goods give satisfaction. We might purchase cheap, shoddy goods (that are only meant te sell and not to wear) but by pursuiner that policy, it would be impossible to retain our customers. The best goods are the cheapest in she end. Children's Misses', Youth's, Boy's Women's and Men's

Boots Shoes, Slippers. etc.,

Trunks, Valises. and Hand Bags, Sole Leather and hoe Findings. Seven years ago we opened our FURNITURE EMPORIUM, and have witnessed a steadily increasing business. We keep in stock all varieties of BEDROOM, KITCHEN AND PARLOR FURNITURE, LOUNGES, SOFAS, HALL STANDS, WHATNOTS, WARDROBES, BOUQUETTABLES, SIDEBOARDS, EXTENSION TABLES, SPRING BEDS, IRON BEADSTEADS, STRETCHERS, ETC.

> CHATHAM. . . JANUARY 4, 1883. How Protection Affects Labor. [N. Y. Herald.]

Miramichi Advance.

It is not a marvel that the figures com-

is twenty four per cent below the general

affections, as Glandular En-largements, and a wide range of skip affections; as what have the laboring classes to say? ered by the wool and cotton manufacture, dence that if a few such messengers were in which the least wages are paid, is New | cast on the waters, conveying information England, certainly a well "protected" portion of the country. And this brings to which she was drifting, some of them mind that it is the New England journals, would be picked up and other vessels and chiefly our Bost in contemporaries, that are seeking to blunt the point of the her. dangerous figures we have brought before the public. The position that is taken by Bros., Buffalo, N. Y., says has had a rect in charging the payment of starvation wages by the protected manufacturers, but that being either "shallow and ignorant or dishonest," we have erred in our showing The attempted whipping of a negro in that the wages paid in 1879 had declined the mountains of Tennesse by a party of from those paid in 1869, through our not white men resulted in the shooting of two having taken cognizance of the premium whites and two negroes.

on gold at the latter date. The protectionist journals should really then they would not blunder in the simp'est laws which regulate the computation Perry Davis & Son & Lawrence, gold to prices we may observe that, ac-377 St. Paul Street, Montrea cording to the report of the Director of pany having consolidated with the Mint for 1880, "in the United States, from 1863 to 1873, on account of the sus-HALL'S on THE VEGETABLE SICILIAN demand for gold for circulation." The difference between the price of gold and iron, cheese or any other commodity. To so severely sprained his ankle that he prove this we may refer to the valuable could scarcely get home, but after one or tremoves a cruptions, itching and dandruff; the able and just Superintendent of the Statistics furnished by Carroll D. Wright, Oil, he was able to go to work next day.

Massachusetts Bureau of the Statistics of Packand College Col Labor. In his report for 1882 he states tual that the average increase in the cost of living in 1881 over 1878, was 21.2 per cent, or desirable.

Dr. A. A. Hayes, State Assayer of Massachusetts,
says t: "I consider it the best preparation for its
ntended purposes."

living in 1881 over 1878, was 21.2 per cent,
this being the period immediately fullowing resumption, when, if the price of gold ing resumption, when, if the price of gold had anything to do with the matter, the the cures effected by Dr. Van Buren's value of the paper dollar would have been Ridney Cure. Relief in all cases of enhanced. It was increased as regarded gold by the act of resumption throwing gold into the market, but it was lessened Dr. Van Buren's Kidney Cure. Sold in its relation to every other commodity. by J. D. B. F. McKenze.

But we are only making this argument poraries, who think it good form to stig-matize as "ignorance and dishonesty" dif-the dirt and does not hurt the horse. erences of opinion based on facts which in the wages of all the manufacturing valuable medicine with such happy reoperatives in the United States. Again referring to Colonel Wright's report for 1882, and to pages 420-422 thereof, we take his figures for the wages of one hundred classes of operatives in the manufacture of boots and shoes, clothing, cotton goods, glass, &c., and with this result—that they show in the ten years from 1872 operatives in the United States. Again sults." children for from one-quarter to one- after each meal." ne-sixth of the total family earnings.' generally speaking, is so small that they would save more by staying at home than they gain by outside labor." Viewed of Natural Science, Pa. from this standpoint any hedging from the general average on account of the women and children employed in protected indus-

these families would be in poverty or debt;" and, further, these statements are debt;" and, further, these statements are

laborers in the Commonwealth."

of wages, itself eight per cent less than in 1879; and also that the operatives in protected industries are unable to support zing their children to the amount of "from

A Valuable Nautical Invention.

vention which was officially tested last pring may prove highly serviceable. 'ocean courier," is made of the best indiarubber in a spherical shape with a diameter of two and a half feet, and weighs only seven pounds. Ordinarily records of disaster at sea are committed to tin cases casks or bottles, which obey the drift movement of marine currents. Hence, if bined from the Reports of the Census for they ever reach shore, they are borne 1870 and 1880, and recently published in thither very slowly and circuitously in the Herald, should have aroused the the North Atlantic. The "ocean courier," protectionists. Our showing that there however, being made large and light, is has been a decline of nearly nine per cent under the control of prevailing winds, and in the wages of manufacturing operatives its inventor, Mr. Baker, claims that from under a decade of protection is not palatits spherical shape and exceedingly small able, though possibly nutritious. But we displacement it will travel before the have not yet concluded with our re- feeblest wind almost as quickly as the air searches. An examination of the average current itself. From its size and color it annual wages paid in 1879 in the leading is said to be visible at a distance of several protected industries shows as follows:— miles and to afford an almost certain Strike a ratio, and it is found that this | wig just four days afterward. Another, average for all manufactures, which, as we Romeo on May 13, in latitude 54 deg. 30 have slready shown, is only the pitiful min. north, longitude 4 deg. 15 min. cast, annual wage of \$346 08 per capita. It is was picked up by a cutter on May 18 in to be noted here that the statistics of latitude 51 deg. 48 min., longitude 3 deg. cotton manufacture are those of Mr. 15 min. east. (having thus travelled over Edward Atkinson, and he must receive two hundred nautical miles in this inter all the consideration he claims for the val) and was taken to Ostend. These low average on account of the employment were official trials of the invention which of women and children. As to the result | show that this "courier," enclosing a mesof such employment we shall have some. sage, can be pretty well relied on in nar thing to say further on. The statistics of row seas, the mean force and direction of the silk industry are those of Mr. William | whose winds are known, to carry news to C. Wyckoff, a wholly competent and the nearest coast. As such an object reliable authority. Those of the wood would attract attention of passing vessels manufacture are from the Superintendeut in daylight, and its contents notify them of the Census. But what have the pro of the position and need of the vessel tectionist journals to say when their most | which despatched the "courier," the use heavily protected industries are proved to of this invention by ocean-going vessels pay nearly one fourth less than the gener. might also be the means of averting great al average of starvation wages?
