COUNTRY MARKET.	
There is very little in the state of trad in the market to call for special commen. The supply in the latter days of last wee was good in all lines. Meats are steady with choice lamb a little higher. Butter steady. Eggs were slightly easier last weel Really choice potatoes are not as plentift as consumers would like, but there is no change; thinds. There is no change;	Lk /, is k. il

Really choice potatoes are n as consumers would like, bu lack of poorer kinds. There is prices of poultry.	it the	re	is n

A TIDAL WAVE

of Ours.

PAINE'S CELERY COMPOUND BAN ISHING SICKNESS AND DISEASE.

Bestowing Health, Vigor and New Life.

THE YOUNG AND THE OLD FEEL ITS WONDERFUL POWER.

The Cured Never Cease to Sing Its Praises

Like a mighty tidal wave, Paine's Delery Compound, with its marvellous ealing and curing virtues, is sweepng over Canada on its mission of health restoring. Today it is the only medicine that is banishing sickness and ease; the only one that is bestowing health, vigor and new life. Amongst all classes its wonderful power is felt

directly the first bottle is co Paine 's Celery Compound, owing to its honesty and never-disappointing virtues, has become the "people's" chosen medicine, and its praises are sung everywhere by thousands of cured people. Nothing else in the world is so people. Nothing else in the world is so well adapted for the needs of the sick and suffering. After one trial it be-

A cured lady, Mrs. George Durant of Elma, Ont., writes as follows: "For many years I have been a sufferer from liver troubles, and have doctored with several physicians, but only found relief for a very short time. My usband advised me to try your Paine's Celery Compound. I did so, and found so much relief from the first bottle that I continued, and am now using the third bottle. Your compound has done more for me than any physician. For the business of building up rival commonths before using the Compound I never had one night of sound sleep; but ow I can go to bed and sleep soundly and naturally and feel like a new creature in the morning."

WHAT OUR EXCHANGES SAY.

NOT BRITISH COLUMBIA. (Springhill, N. S., Advertiser.) Minister Blair will find no Chutney sauce and Four Crown whiskey in the respectable homes of the miners in

HERMAN H. PITTS' CONFESSION. (Frederiction Reporter.) Possibly it is difficult for our readers sometimes to tell just where we are politically. We do not wonder at their difficulty, we often have difficulty to

THE EASTERN QUESTION. (New York Express.)
This is the sultan's week for defying the European powers. Next week it will be their turn to send him some more warnings. These things work in perfect rotation, and the results of the operation are scientifically known as diplomatic negotiations.

HEATHEN AND THATRES. (Montreal Herald.) Rev. Manly Benson says that for every dollar spent on missions eighteen dollars are spent on theatres. This is curious. Few theatrical ventures are making money. The missions, therefore, must be in a state calling for the early and grave consideration of

NO LOSS OF MEMORY (Toronto Telegram.) Canada is not suffering from any shortage of memory and would not forget that Hon. W. S. Fielding is smart, even if the minister of finance ceased for a moment to emphasize his own smartness by sarcastic questions and pert rejoinders to witnesses fore the tariff commission.

BUT THE TAX WILL STAY. (New Glasgow Chronicle, grit.) party that ten members as good as Mr. Lister were lost to it, than that this iniquitous tax of 93 per cent. on kerosene oil continued in force.

HARD TIMES

(Moncton Times.) When the people complained of the hard times during the first period of grit government Sir Richard Cartwright told them to "work harder and eat less." Now the unemployed of Hamilton, Ontario, are told that as a special dispensation of grit government, they may spear fish through the ice in the bay!

LOOKING TO WASHINGTON. (Montreal Gazette.)

The liberal government, it is an-nounced, has withdrawn the contract for printing its notes, stamps, etc., from the British American Bank Note company of Ottawa and given it to the American Bank Note company of New York. Is this a straw to show how the wind is blowing; or is there nothing in a name?

SHOULD HAVE SOBER HEADS,

TOO. (Ottawa Citizen.) The very fine distinctions drawn as to the difference between selling whiskey to a policeman on duty and the same man off duty suggest the desir-ability of not employing policemen who drink liquor at all. If there is good business reason not to have railroad men who drink, there is good moral reason not to have policen who drink. The former are required not to hob-nob with carelessness, the frequenters of bar-rooms.

A BARBAROUS LAW. (Chicago Canadian-American.) The Thirteenth battalion band Sweeping Over This Canada Hamilton, Ont., has been engaged to play at a charity ball in the Buffalo Music hall on New Year's night. Immigration Inspector DeBarry has been communicated with by Bandmaster Robinson and says he will not object to the band crossing the border, the members being artists. DeBarry must have heard the band, as they certainly are artists, with all that the term applies. But is it not rather humiliating that a band cannot play for the benefit of sweet charity, with out the royal permission of an immigration inspector? Away with such barbarous laws as relics of a dark

JIM BLUDSOE AT COURT.

(Toronto Globe.)
Col. John Hay is to be appointed American ambassador to the court of St. James, in succession to Mr. Bay ard. The telegraphic message men tions that he was Lincoln's secretary, a major in the army and a few othe notable facts, but fails to record his chief title to fame, namely that he is the author of the Pike County Ballads. Anybody could be a major in the army, but only one man could have written Little Breeches or Jim

WHAT RECEPROCITY WOULD DO

(Boston Herald.) Perhaps some of the Canadian state nen have a scheme for reciprocity Inited States has not even dream of, but certainly Canada has nothin to offer us in return for reciprocal reations, excepting such concessions to sturers as would deal a death blow to the industries of Canda. The liberal government in Canada is going to have great difficulty in any legislation of the tariff which shall end towards a reduction of protectiv duties on present manufactures

RECIPROCITY IMPOSSIBLE. (San Francisco Chronicle.) "If Canana wants to have equality in this market with New York or Kansa or California, let her drop other device and try for annexation. In spite of the argument of competition, she would probably be able to get into the union, but short of that there seems to be no hope. This country is not in munities, nor of strengthening the finances of any part of the British em pire."

THE CAREER OF EDWARD BLAKE (Ottawa Citizen.)

Harry Furniss alluded in his lecture last night to Edward Blake as a man whose reputation in England was still n't unfinished, though it might be expecte ed to become as brilliant there eve

ally as it was and is in Canada. The fact is that while Mr. Blake is intellectual peer of the best men in the imperial parliament, his career there has been somewhat a failure. You cannot transplant a public man at sixty with success. He has grown up under another sky, he has breathed a different atmosphere, his rocts are in a distant soil. Mr. Blake was an immense power in Canada, where he was at home. It is impossible that he can ever become so in England.

According to its new directory calculation, Toronto has a population of Directory counts, however, 220,000. have their weaknesses, which never lie in the direction of under estima tion. If Toronto's next census shows the directory man to be correct the city will be unusually fortunate.

RECIPROCITY. (Hamilton Spectator.) The Laurier government has established a reciprocity treaty with the Yankees. You make us dominion notes and postage stamps, says Mr. Laurier, and we will give you good Canadian money. And the offer was accepted.

SLIGHTING THE LIBERAL PRESS.

(Yarmouth Times.) News of the Canadian government's intentions regarding reciprocity nego-Mr. Laurier's views and intentions on Canadian tariff matters first reached the world through a Chicago paper. The Toronto Globe and other liberal thunderers ought to object to these "scoops" being given their Yankee rivals.

SHAKE HAS NO SUCCESSOR. (Commercial Advertiser.) Shakespeare stands for the English speaking drama. There is a strange rony in this. When England was a little nation of 3,000,000 people it managed to produce Shakespeare; today, with a population forty times as great, overrunning the globe, it produces only chorus and dancing girls, galety girlism and the sermons of Henry Arin fact, the T. D Witt Talmage of the drama.

CHASE YOURSELF, SAMUEL (Dundas, Ont., Banner.) Now that the treaty between Great Britain and the United States for submitting to arbitration all differences that may arise between them has been signed, Canada can go ahead and rile the Yankees as much as she pleases. They cannot hit us without arbitrating, so let us have fun with them. Uncle Sam, you're no good. Go and

Ottawa has not for twenty years had an Irish Catholic mayor, and it was felt, both amongst citizens of that religious belief and by many non-Catholics, that the time had come the just claims of so respectable and influential a portion of the community should be acknowledged.

THAT'S THE WAY TO TALK. (Kingston News.)

It is high time that Canadian liberals as well as Canadian conservatives came to the conclusion that our est policy is to become more and more ndent of the American market, which we can do by studying and conforming our wares to the requirements of the British market. The blow which the framers of the new McKinley law are preparing to aim at Canada will not be without an abundant compen sation if it shall convince the deluded followers of the Knight of Blue Ruin hat there is absolutely no hope of curing better trade relations with he United States except on terms wholly subversive of our present rela-tion to the British empire. The future rosperity of Canada hinges upon the degree in which all classes of Canadians acquire a profound belief in the principle of the national policy.

THE JINGO FOOL (New York Herald.)

Fredericton, Jan. 22.-Fire was disthis covered by the night policemen morning about four o'clock in the livery stable on King street, occupied by Ald. McPherson. The police had to burst in the door to gain admittance, and found both hostlers sound asleep. McPherson's livery stock and horses were all got out with but little damage. The building belonged to J. THE BOTTOM PRINCIPLE.

Nothing "merely happens so." Always keep that fact where you can see ft. Whatsoever comes to pass has an dequate cause right behind it. I don't say this as though it were a new discovery. Not a bit. It is the bottom principle of all knowledge. But we are apt to forget it—that's the point; we forget it, and so have a lot of trouble there's no need to have. Here is Miss Esther May, who

are glad to hear from, and to know. In the maters set forth in her short letter she speaks, not for herself only, but for two-thirds of the women in Eng-

"In July, 1890," she says, "I had an attack of influenza, which left me in a weak, exhausted condition. I felt lan-guid and tired. Everything was a trouble to me. The good appetite that is natural to me was gone, and when I did take a little food it gave me a dreadful pain in the chest. There was also a strange sensation in my stom-

ach. I felt as if I had eaten too much,

when perhaps I had scarcely eaten

anything. "Then, after a time, I began to have a dry, hacking cough, and to break out in cold clammy sweats. Not very long afterwards my ankles began to up and swell, so that when I stood on my feet it was very painful. "I gradually got worse and worse. The medicines given me by the doctors seemed to have no effect. I lost flesh, like one in consumption, and I feared I should never be any better. "In March, 1893, a gentleman told me about Mother Seigel's Curative Syrup, and said he believed it would help me. Although I had no faith in it I sent for the Syrup and began taking it. One bottle relieved me and gave me some acetite, I ate and enjoyer my food as I had not done for years. I gained strength every day.

(Copyright by Charles Austin Bates.) Most all advertising nowadays tells the truth. Most all business men have learned the lesson that even slight mis-representation in their advertisements causes a loss of confidence, which more than offsets any transient gain that may be made by exaggeration.

In the past there has been more less overstatement in advertising. It has made a great many people doubt everything that they see in an adver-tisement which is in any way out of

the ordinary. This feeling is not right. Probably ninety-nine out of every hundred advertisements of reputable business men are absolutely true.

Sometimes overstatements of values and reductions seem too extraordinary to be truthful, but those on the inside of any business know that there are times when it actually pays to lose money on a certain article or a certain line of goods.

The reliability of an advertisement should be measured by the reputation of the advertiser. If he does not lie in his ordinary business and social relations it is fair to suppose that he does not lie in his advertising. It is a matter of principle and a matter of busi-

Every statement that is made in an advertisement ought to be carefully weighed, and even the appearance of untruth excluded. A truthful statement by an honest man in a good paper will bring returns every time.

The best paper in which to advertise is the one which possesses the confidence of the community in the high est degree. The high character of the paper will throw a mantle of credence over all the advertising in its columns.
