THE SEMI-WEEKLY TELEGRAPH, ST. JOHN, N. B., WEDNESDAY, SEPTEMBER 30, 1903.

THE ST. JOHN RIVER; **ALWAYS ALLURING** AND BEAUTIFUL

Tourists Are Charmed With It - Surpasses the Hudson in Natural Charms - A Suggestion to the Kaiser -The Rhine the St. John of Europe.

when your hard-hearted disciple of natches a Sunday excursion, the river has had her white lovers, and have they ever been faithless?

Her loveliness compels and holds. Her beauty does not fade with age. You may list with other rivers, you may call them set names and endeavor to force yourself the belief that they possess some de-of fairness; but all the while this im-mus mistress happens to occupy about the available space in your heart for things, and her position is supreme. her you cannot. Eleven out of every we will agree with this, more probably

we will agree with this, more productly we out of every twelve. he soothing peace of her winding thes, the broad tolerance of her blue aps and bays, the tonic breath of her on, the fleecy robeing of her shores I by the way she has a bit of a temper just watch her quarreling with the most all sciffs), but then who doesn't to see a most of the devil crop up

borders they "act in Rome as do the Romans." I've heard men and women from the Hudson declare their stream must bow to the peerless St. John that the Hudson was undoubtedly beautiful, but not up to the standard of New Brunswick's champion. Now it's a pretty white American original one, with her legends of mailed bullies and prodigious beer quaffing. Is it not, now in all solemn sincerity, is it not up to the loyal sons of Acadia to compliment the Kaiser, and suggest that hereafter the fatherland's fair artery be known as the "St. John of Europe."

White men have known something about | that will make such an admission, isn't it! ferred to tarry and enjoy a home made

The David Weston-

Gains of a Cup'Challenger.

into fame if he gives it a fair chance. Now, to a man of aspiring spirit that is worth something. To be known of men is a condition which, though not desired by all pensons, is so highly valued by very many as to be recognized as worth very great sacrifices of eare and, if necessary, of money. There never was a time when in politics, in cociety, and in trade advertising was so much appreciated as now, and the business of getting and conferring it was so big and so skilfully conducted. any Briton; to try for it means celebrity at least, and a good time for the trier, if he likes the sout of a good time that a well-mannered and right-spirited challenger is sure to command. Sir Thomas has had lots of fun, and made for himself a far reaching reputation. There is nothing in his experience of large expenditure and successive defeats that seems likely to discourage future aspirants. The game some worth the candle however it turns out. Indeed, as between challenger and defender it is a question whether the challenger does not get rather the best of it. The defender keeps the cup for us, but we had it before, so we are not very much ahead. We are apt to spend more of our strength in sympethy for the keer than in exulting with the victor. It would not be strange if it were true, as reported, that Mr. Leiling directed to let the defense of the conditions.

306,102,982 feet of pune and in 1900, 370,258,913 feet. The rate of increase, as will be seen by comparison of these figures, is enormous.—Harper's Weekly.

Resurgam.

Hark to the winds their mighty anthem pealing: See the pale leaves drift slowly to the earth. All through the woods the autumn breath is stealing. And flowers are dying where they had their birth.

But soon shall nature in her annual kindness.

Once more bestrew her jems o'er hill and dale: Our eyes shall see, through every scale of blindness.

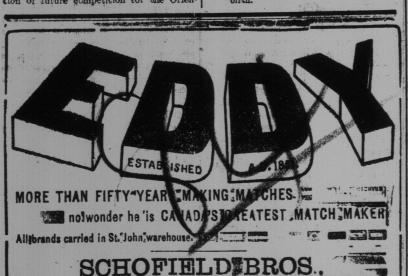

The goodness of the Lord that cannot fail. Yet, when the pine tree bends beneath the with the victor. It would not be strange if it were true, as reported, that Mr. Iselin is disposed to let the defence of the cup pags into other hands. The sport needs some kind of fillip to recommend it to defenders at least. It is suggested that the next race should be between real yachts instead of between racing-machines, and if any change in the conditions of the contest can bring that about it will be welcome.—Harpers's Weekly.

Four Billion Feet of Lumber.

The lumber markets of the Orient, and the share which the United States is likely ito have in supplying them, is the subject just now of some attention by the united States department of commerce and labor. Recent reports from American consuls in the Orient announced the arrival of the first cargo of lumber in the Chinese market, by a Russian vessel from Vladivostok. Thin fact opens the question of future competition for the Orien-

tal market between the American lumber interests on the Pacific coast, on the one hand, and that of the Russians in Siberia and on the Yalu River, on the other. In both cases enormous resources are awaiting development. The American industry on the Pacific coast has the advantage of organization on a large scale, and of mechangamzation on a large scare, and of mechanical equipment unequalied by that of any other field in the world. This is evidenced by the rate of annual production. Unofficial estimates put the annual cut of lumber and shingles of the three Pacific States at 4,600,000,000 feet, of which California respired to the contraction of the contrac fornia supplies 86,000,000 feet, Oresgon 740,000,000 feet and Washington 2,300,000,000 feet. At this rate 11 is calculated that the forests of the Pacific coast will be exhausted in forty years.

As would naturally be expected, the Pacific lumberman have been rapidly enlarg

PREMIER TWEEDIE OPENS INQUIRY

Into Charges of Brutality at Provincial Lunatic Asylum.

SEVERAL WITNESSES.

One Case of Ill-treatment Led to Dismissal of an Attendant-Dr. Travers on the Stand-The Cases of Michael Sullivan and John

issuessed him. He did not notify the commissioners of the matter; as this had never been the rule did not consider it his

of the case he would have had the man proceeded against in the courts. The matter was too serious for a mere dismissal to satisfy. A man injured by the guard might die, and then the guard would be at liberty. The guard dismissed was Chas. Adams, an Englishman. Dr. Trayers said he had been in the asylum for seven years, and there have been very few cases of this nature, and in every case when brought home to an attendant he was

Patrick. Tole, secretary of the asylum, said he had been connected with the institution for nineteen years in February next. He was coming in from the street, and a street railway employe, Michael O'Brien, asked him if they allowed patients to be abused, telling him that a guard assaulted Frank Monahan. O'Brien, told him that a man named Sprague and another. assaulted Frank Monahan. O'Brien told him that a man named Sprague and another named Kenneally had seen one guard strike Monahan while another held him. He Jearned that a guard named Young had recaptured Monahan. He saw Monahan and he did not appear at all injured. At that time he was in a delicate state of health. Adams was a robust, strong man. He understood he was now working on a railway in Kings county. Mr. Tole man. He understood he was now working on a railway in Kings county. Mr. Tole said in his experience he had only known of two cases of ill-treatment, and nothing of the kind in recent years. He frequently, heard stories, but had no personal knowledge on these subjects and could not say that the guards treated the patients in other than a reasonable manner.

say that one guards treated the patients in other than a reasonable manner.

Thomas Young, attendant at the asylum since Aprl, said he came from Ireland. He was in charge of Monahan. On the morning in question he was taken out for exercise with other patients. When he reached the ground Guard Ross said there is a man gone. He went out and near In other than a reasonable manner.

Thomas Young, attendant at the asylum since Aprl, said he came from Ireland. He was in charge of Monahan. On the morring in question he was taken out for exercise with other patients. When he reached the ground Guard Ross said there is a man gone. He went out, and near the front gate came up with Monahan. Adams then came along and struck Monahan in the stomach and may have struck him once or twice more. There was also solutely no need to strike him. Monahan had struggled a little, but was weak and sickly. He ordered Adams not to strike the man egain, threatening to punish him if he continued. Young said he told Dr. Travers of the affair. Witness said he had never all-treated them him self. Adams was excited.

Dr. Travers was examined with reference to the two and half story house on the village road owned and occupied by Joseph Cliff. The fire caught from the furnace and burned through the lower floor and practically destroyed the lower inside portion of the house. An alarm was given and with the aid of the new fire apparatus and water which was hauled from the river the fire was extinguished. The damage to the house will amount to several hundred dollars.

The building is insured in the Liverpool, London & Globe for \$1,500, and \$600 in the Commercial Union. The furniture, which was quite dadly damaged, is insured in the Queen for \$800. The new fire apparatus worked splendidly.

self. Adams was excited.

Dr. Travers was examined with reference to the case of John Northrup, the charge being that his body was badly bruised, showing marks of ill-treatment. He came from Belleisle and entered the content in July suffering from guilartic. He came from Belleisle and entered the asylum in July, suffering from epileptic mania. It gave him delusions. He wandered away, and his relatives found it necessity to lock him up. He died on the night of Sept. 4 of epileptic exhaustion. Dr. Travers did not view the remains after death. On the day of the man's death he eaw slight abrasions, and these usually discolor quickly. Friends took the body away the day after the death. Witness did not know of the man hurting himself. His career while in the

his death he was found on the floor in a deep sleep after a seizure. He was lying on his back, and witness saw no marks on him. He did not know of Northrup

was a very quist man.

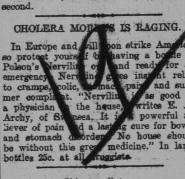

Timothy Foley, night watchman outside of the wards, , said he had been connected with the asylum since 1856. He said he made rounds at 11 o'clock each night with the night watchman. Witness told of seeing Northrup on the floor after he had fallen out of bed.

How We Westigs You are sure he fell.

ed. He was a quiet patient, and gave no trouble. He was reported as an epileptic, but showed no signs of it until he took a fit. Witness said he was on duty from 6 a. m. until 9.30 p. m. In the morning Northrup was in a kind of stuppr, and Guard Walsh said he must have had a fit, as his face was cut and bleeding. He had several other attacks during the day and was delarious all the time. When Mr. Woodland saw him there was an abrasion on the side of his face. He did not receive any other bruines. When put in his coffin there was only the one abrasion, but the mext day there was a black mark on his forehead. Witness explained to the man's son that the mark came from his falling out of hed. When witness put the man in the coffin he found that his head was a little too high for the coffin lid, so he put a sheet over his head and pressed it down so as to close the lid.

um for five years, said he had charge of Northrup in the ward. On the morning of Sept. 3, about 6 o'clock, he unlocked ed the patient or struck him. Patients told him the man had a fit.

The inquiry was adjourned until a date to be fixed, when the street railway work.

Windsor Tribune: The schooner Omega, owned by Capt. Pratt, of Wolfville, loaded wood at Cheverte last week for the United States, and in attempting to go to sea on Monday grounded on a rock and was somewhat damaged. She was towed to the Hantsport Graving Blocks and repaired. On Wednesday as she was getting under weigh to go out she fouled the schooner M. D. S., which was anchored in the stream, carrying away the latter's jibboom and damaging the Omega's rail. The M. D. S. was ready for sea and was to have sailed Wednesday for Weymouth to load lumber. She had to remain and get a new jibboom made, which of course the Omega will have to pay for.

The steamer Hedwig, from Liverpool, arrived at Chatham yesterday, and the steamer Ingridhorn sailed from Chatham yesterday for Preston.

The Ploughman.

Clear the brown path to meet the

on him. He did not know of Northrup ever having received any ill-treatment. He was a very quiet man.

Timothy Foley, night watchman outside of the wards, , said he had been connected with the asylum since 1856. He said he made rounds at 11 o'clock each night with the night watchman. Witness told of seeing Northrup on the floor after he had fallen out of bed.

Hon. Mr. Tweedie—I have known men to fall out of bed who had not had a seizure.

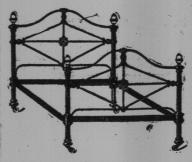

Mutray Scott, the youth arrested at St. John and taken back to Halifax by Detective Power charged with taking 8600 belonging to Railway Contractor McLean, was arranged before Stipendiary Fielding on Saturday. He was not prosecuted and two criminal courts, who was accused of selling infommation to indicted persons. There were five specifications, including one involving the empress' former banker, Eduard Sanden, director of the Prussian Mortgage Bank, who was sentenced in July, 1902, to six years imprisonment and to pay a fine of \$3,750 for falsiving balance sheets.
