

## GREAT SALE OF MEN'S CLOTHING

### All Fixed Up For Easter!

New Spring Suit! New Spring Dress!  
New Spring Coat! New Spring Shoes! New Spring Hat!

With the departure of Winter comes the beautiful Spring and Summer, demanding a complete change of wearing apparel. To be well clad helps you to feel better and enjoy the outdoor life more. To be "well clad" does not necessarily mean to be "extravagantly clad."

Good judgment in buying is very important. A store with a good sales staff, having customers' interests at heart, lessens your chances of "bad buying." Doubtful merchandise has no place on our shelves in this store.

### The Transcript

Published every Thursday morning from The Transcript Building, Main Street, Glencoe, Ontario. Subscription—In Canada, \$2.00 per year; in the United States and other foreign countries, \$2.50 per year.

Advertising—The Transcript covers a wide section of territory in Western Ontario, and its readers are the leading farmers and townpeople. It is a first-class advertising medium. Rates on application.  
Job Printing—The Jobbing Department has superior equipment for turning out promptly books, pamphlets, circulars, posters, blank forms, programs, cards, envelopes, office and wedding stationery, etc.  
A. E. Sutherland, Publisher.

#### GLENCOE COUNCIL

The regular meeting of the Glencoe council was held in the council chamber on Monday, April 3, with all members present. The minutes of the last meeting were read and adopted.

The engineer's report on the McPherson drain was then read and discussed. On motion of Messrs. Lumley and Davidson the report was accepted.

On motion of Messrs. Parrott and McCracken the council accepted the petition of W. D. Moss and others for a granolithic sidewalk on the east side of Main street from the Grand Trunk Railway to the Presbyterian church lands.

On motion of Messrs. Lumley and Parrott the clerk's salary was increased \$50 a year.

On motion of McCracken and Davidson the following accounts were ordered paid: Jas. Wright & Son, supplies for town hall, \$3.35; A. B. McDonald, insurance premium, \$30; E. T. Huston, first quarter's salary, \$30; four months' sale of tax tickets, \$32; telephone re debentures, \$1.90; postage and war tax stamps, \$2.42; Jas. M. McGregor, survey, plan, profile and report on McPherson drain, \$25; McPherson & Clarke, coal and lumber for town hall, \$43.72; Don H. Love, 100 check loops for seats for town hall, \$3.75; Neil Munroe, hauling grader to Glencoe, \$2.50; Wm. Gurd & Co., 50 dog tags, \$2.75; C. E. Nourse Co., 3 cords wood for town hall, \$15; C. George, first quarter's salary, \$56.25; express on assessment roll, 40c; postage, \$2.02; Wm. McRae, cleaning streets, hauling gravel and snow plowing, \$4.50; Frank Smith and Roy Smith, cleaning streets, \$2.40; J. B. Henry, salary for March, \$96; express, 90c; freight, 25c.

On motion of Messrs. Davidson and McCracken the clerk was instructed to prepare a by-law for the McPherson drain.

Charles George, Clerk.

"Tanlac did what everything else failed to do." Thousands have said it. So will you. — E. E. Lumley.  
One of the most effective vermifuges on the market is Miller's Worm Powders. They will not only clear the stomach and bowels of worms, but will prove a very serviceable medicine for children in regulating the infantile system and maintaining it in a healthy condition. There is nothing in their composition that will injure the most delicate stomach when directions are followed, and they can be given to children in the full assurance that they will utterly destroy all worms.

#### WOOD—SHORTREED

At Chalmers church, Guelph, on Wednesday, March 29, at 3.30 p.m., there was solemnized the marriage of Margaret Isabel, eldest daughter of Mr. and Mrs. Robert Shortreed, 45 Paisley street, Guelph, and Lieut. Col. James H. Wood, D.S.O., Croix de Guerre, M.B., of 1962 Dovercourt road, Toronto. The bridemaid was Miss Elizabeth Shortreed, of the Ortophedic Hospital, Toronto, and Maj. Edward O. Jeffrey, M.C. (with bar), M. B., acted as groomsmen. The bride wore a navy blue suit with black hat, and carried a bouquet of orchids and lilies of the valley, and also wore the groom's gift, a platinum pendant with diamonds set in onyx. The ceremony was performed by Rev. George Little, pastor of the church, and during the signing of the register Miss Shortreed sang "Calm as the Night," with organ accompaniment by Miss Edna Laking and violin obligato by Wm. Thain. After the ceremony a reception was held at the bride's home, where a buffet luncheon was served, the toast to the bride being proposed by Rev. Frank Harper, of Hillsburg. The bride is a graduate of Western Hospital, Toronto, where she has been a valued member of the staff. Dr. Wood did good service during the war, having reached Boulogne, France, in November, 1914, and serving continuously until he returned from the Rhine after the signing of the armistice. Dr. and Mrs. Wood motored to Toronto en route to St. John, from whence they will sail for Great Britain and the continent.

#### RUSSIAN FAMINE FUND

Total \$73.55

#### SHOULD STIMULATE BASEBALL

Announcement made in this issue of the Transcript should prove a stimulus to baseball in Middlesex county during the coming summer. Cups are being offered for competition in the various ridings by their respective representatives in both the Dominion and Provincial parliaments, and a meeting of representatives of all ball teams in the county is called for April 15th at London to arrange schedules.

### WINDOW AND VERANDAH

Brightened With Flower Boxes and Hanging Baskets.

The Boxes Must Be Strong and Durable—The Soil Should Be Kept Rich and Well Watered—Hints on Arrangement of Plants.

(Contributed by Ontario Department of Agriculture, Toronto.)

Window boxes should be made strong and durable. Each box should be nine or ten inches wide at top and bottom, seven or eight inches deep inside measurements, of a suitable length to fit the window, not over four feet in length, made of one-inch dressed lumber, and when finished, painted a dull green color. Half-inch holes should be bored about six inches apart through the bottom of the box for drainage purposes. Verandah boxes should be about the same measurements. A large iron screw eye, or iron staple, should be put at each top, outside (front) corner of the window boxes. A strong piece of wire should be attached to these long enough to attach to another screw eye or staple placed in the window frame about a foot higher up than top of box, so that the box can be fastened securely in position. Boxes and barrels may be made more artistic and rustic looking by nailing moss and fungi covered bark, of native trees, on the outside. This not only adds to their attractiveness but also helps to keep the plants moist and cool at the roots in summer time. The bark from Basswood, Elm, Cedar or Birch trees will be found suitable. By the exercise of a little taste and originality, very pretty boxes can be made at slight cost. Verandah boxes and rustic stands can be made in something the same way. One of the prettiest rustic stands I have ever seen was made from the lower half of a sugar barrel, reinforced by a thickness of half-inch board nailed on the bottom of the barrel outside to strengthen it, with three-quarter inch holes bored through for drainage purposes.

#### Hanging Baskets.

Wire hanging baskets lined with green moss or sphagnum moss are very effective, especially for a sunny position. The clay baskets dry out very quickly and are better suited for a shady position than a sunny one.

The soil for window boxes must be rich in fertilizers if the best results are to be obtained. It is a good plan to put an inch in depth of well rotted barnyard manure, or dry cow manure, near the bottom of each box, before filling it up with the prepared soil. About an inch in depth of soil may be placed in the bottom of the box first, and the fertilizers named spread over it, or about half a peck of bone meal may be used as a substitute for the first named fertilizers. These fertilizers will help sustain plant growth late in the season when the soil has become exhausted. One part sand, one part leaf mould (black soil from the bush) and seven or eight parts of light loamy soil well mixed, with two parts of either of the fertilizers named added, will make a good soil for window boxes, rustic stands, etc.

The best time to fill window boxes is when they are to be placed in position toward the end of May or early in June. The boxes may be set in position and well secured, before they are filled with soil or plants, as they are heavy and difficult to set in position when filled.

#### Arrangement of Plants.

Tall growing plants should be placed at the back of the box nearest the window. Dwarf plants and trailing plants should then be put around the front and ends of the box. Any space between these in the centre of the box should be filled with medium height plants. It is a good plan to first fill the box nearly level full with soil, then stand the plants on the surface where they are to be planted finally. By doing this the plants can be changed about and rearranged, and a good idea of the arrangement and effect desired can be obtained before finally planting them. For color effect, for instance, too much of any one color, especially the heavier colors, should not be placed in any one part of the box, whether of dwarf or tall plants, as there would not then be a proper balance of color, something that would detract from the effect considerably. By standing the plants on the surface of the soil before planting as mentioned, any change required can be easily made. Use bright colored plants mainly whether of foliage or flowers, and if possible, make use of good sized plants. Boxes filled as described at the time of setting out, will do much better than boxes filled indoors early in the season. Boxes filled very early indoors, often get shabby as soon as they are set out, and sometimes become positively unsightly before the summer season is half over.

#### Care of Boxes.

Window boxes, etc., require copious and frequent waterings every day, or at least every second day, especially during hot weather. The soil should be well soaked with water when watering the boxes. Toward the end of the season, in July and August, some liquid fertilizer may be given the plants.—The late Wm. Hunt, O. A. College, Guelph.

B. G. Bennett, of Missouri, says: "When you wish to know the fertility of your soil; when you sell butter-fat you retail water, feed and sunshine."

## Studebaker

### Comparison is the Fairest Test

**BIG-SIX**  
**\$2475**

f. o. b. Walkerville, Ont.

Set it side by side with any car, irrespective of price and judge. That's the way to buy a car. See what each has to offer at its price, before you make up your mind. It's the only way to be sure you're getting just what you want—and it surely is the only way to appreciate how much you get in this seven-passenger Studebaker at its price of \$2475.

And it's a test that Studebaker is eager to have you make. For when you stand this new BIG-SIX side by

side with other cars, you'll find it gives you all, in quality of material and workmanship, that you can get in any car regardless of price—and infinitely more than you can get in any car at the same price.

On every hand the thousands of BIG-SIX owners have found in this car everything they considered essential to complete motoring satisfaction. This is another reason why Studebaker is the world's largest builder of six cylinder cars.

—Mr. and Mrs. D. N. Munroe of Glencoe attended the marriage at

Guelph last week of Dr. Wood of Toronto and Miss Shortreed of Guelph.  
—Mr. and Mrs. Ed. Woods, Newbury, announce the engagement of their second eldest daughter, Annie Amelia, to Horace Frederick Liddington, of Glencoe, the marriage to take place the second week in April.

Protect the child from the ravages of worms by using Mother Graves' Worm Exterminator. It is a standard remedy, and years of use have enhanced its reputation.

The old car was lasting the winter out pretty well until the automobile show came along.—Indianapolis News.

#### Children Cry for Fletcher's

## CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

#### What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. The Children's Comfort—The Mother's Friend.
