JUNE.—You don't believe that agricultural machinery is profitable. Perhaps not for you, because you have no work to which you can give your attention in the time saved by the use of machinery. If you have no means of employing your time during the winter, perhaps it will be as well for you to use the old fashioned flail, and get as much dust on your lungs as they will bear. Think over the matter a little, and see whether you can arrange your business so that all your so-called spare time can be profitably employed. A machine is costly, but time is money. As far as our observation goes, there are very few farmers who could not find sufficient work to occupy all their time usefully, that is profitably. The old adage “waste not, want not” applies to time, as well as other things. Before you condemn machinery arrange your business anew.
