Radam's Microbe Killer

"The Public wants it, and wants it bad," else they would not buy from the Head Office could they obtain it at home.

The Express Companies can prove the great demand for it from private individuals.

Business has enlarged so rapidly that we want every Druggist not yet handling M. K., to write us at once for full particulars as to what we will do for him.

Should Cholera come, it would be the only safe remedy to use. It is well to know this.

We intend to concentrate the sale wholly into the hands of "The Trade," if they will meet us half way.

Write us or call.
