Further evidence of the dangerous character of the exceed the capital of half a million, that it is not likely to be so great, and that depositors he carried a cane and wore garments will not likely have to submit to any delay in getting their money. At the offices of several large banking firms the amount of Dickinson's deficit was placed at \$250,000. He has not been at his desk since Friday. The clearing house committee has suspended the bank ad interim till the meeting of the association on Wednesday. The president of one bank here said to-day:—"This will prove a bad failure. The accounts are very much mixed. A valuable record of loans is missing. Dickinson took loans and securities and speculated on them in his own behalf. Simpson characterized the rumour that Dickinson had fled to Canada as false and malicious. Dickinson had done nothing criminal and is not the kind of man to run away.

IMPERIAL PARLIAMENT.

LONDON, Aug. 11.—In the House of Commons to-day the Marquis of Hartington said it would be impolitic to describe the steps the government was about to take for the relief of Gordon. Certain preparations were progress-

ing.
Sir Stafford Northcote moved an address to the Crown, praying that the house might he informed of the details of Lord Northbrook's mission to Egypt. He expressed gratification at the collapse of the Egyptian confer ence. He objected especially to the Anglo-French agreement; this agreement, he said,

was a most alarming document. Mr. Gladstone said Earl Northbrook was sent to Egypt to enquire and advise the government concerning the new position the Sondan disasters and the Egyptian financial troubles had created. He reminded the house that even had the Egyptian conference succeeded in the adoption of the agreement it was entirely pendant upon the will of parliament. The powers to be given to the debt commissioners under the agreement were of a negative and restricting character. There was an excessive amount of financial trouble in Egypt. The government would be careful to respect the supreme authority of Parliament.

BUTTERMILK AS A DRINK.

In warm summer weather many persons feel an irresistible craving for something sour, ence in pickles, or vegetables made acid with vinegar. This demand for acids indicates a deficiency in the acid secretions of the stomach, and the demand for an artificial supply is a natural one; but vinegar is not the best substitute. Lactic acid is one of the chief agents that give acidity to the gastric juice of the stomach in health. This is the acid of sour milk, and therefore one of the best summer diet drinks that we can use is butternilk. It satisfies the craving for acids by giving to the stomach a natural supply and at the variety of lackson, Tenn.; another to E. B. Comstock, 205 Ninth street, Milwaukee, Wis. DUBLIN, Aug. 7.—The grand jury, in preenting their indictment against Cornwall and ompanions, niged the judge to prohibit the publication of the evidence. The judge said he would do what he legally could, and commented on the request to the discretion and forbearance of the press.

LONDON, Aug. 7.—Once more the sapient authorities of Scotland Yard have allowed their fears to mislead their judgment, and they are now being remorselessly chaffed by those Londoners who are acquainted with the facts. The police to day informed the press and public that they had received information that a Catholic priest was coming to England from America in disguise as an emissary of the Irish vigil-ance committee, whatever that may be. ance committee, whatever that may be. He was described as being 35 years old, five debtor at the clearing house for \$28,000 this feet seven inches in height, and as possessed of an unclerical cut. This information came by mail from certain special officers employed at the British consulate in New York. It was promptly given to the press and extensively published throughout the kingdom to-day in connection with an alleged attempt to blow up the Nottingham post office. It furnished material for another of those dynamite scares which London does not lately seem to be happy without. The police of course began energetic preparations to repel this new invasion and to capture the emissary, but the New York Vidocqs had unfortunately failed was to arrive, and a cable message was sent pected emissary was really Rev. Father John J. Riordan, a Castle Garden chaplain, and a most worthy clergyman, who sailed on the Baltic on the 24th ultimo on some mission which is understood to be connected with immigration, but which, it is needless to say, has no possible connection with dynamite. The Baltic arrived at Liverpool last Sunday, but whether Father Riordan has come up to London it is impossible to ascertain to-night. From what can be learned here he is a man of splendid abilities, which might make him a dangerous enemy to England if he should descend to the level of the dynamite plotters, but the idea that he could ever demean himself to that extent is scouted by those who know him

GERMANY AND THE VATICAN. Berlin, Aug. 11.—Dr. K. Von Schloezer, the Prussian Embassador at the Vatican, has arrived in the city, having obtained a furlough from Rome and left the affairs of the Embassy in the hands of Baron Von Rotenhan, Secretary of Legation. He says that his relations with Cardinal Jacobini and the other officials of the Papal Court have been very friendly, and he denies emphatically the statement recently published in a Hamburg paper, to the effect that he had told a reporter that the Vatican was a nest of intriguers against the unity of Germany. Dr. Schloezer says he is aware of the existence of sectarians who would be glad to subvert existing governments in pursuance of their own ends, but he has no idea that the head of the Catholic Church believed in either the policy or the possibility of such convulsions.

COMMERCIAL. WEEKLY REVIEW-WHOLESALE

MARKETS. The conditions of trade have undergone no material change, the movement being, however, a good average one for the past week. We do not care to speculate and peer into the future, but merchants who know the signs of the times speak with confidence of the outlook and bespeak a healthy revival. The spring business was admittedly a poor one, and, consequently, the wants of buyers are expected to be large, particularly as the harvest has turned out heavy in yield and excellent in quality. Prices of grain are much lower than last year, but the increase in quan-

tity will make up the deficiency.

IRON AND HARDWARE.—Pig iron has been quiet, the sales aggregating only a few hundred tons, and these made up of small lots. Prices are unchanged. We quote:—Coltness, \$19.50; Langloan, \$19; Calder, \$18.25; Gartsherrie and Summerlee, \$18; Dalmellington, \$17.25; and Eglinton, \$17. Warrants are cabled 1d higher than a week ago at 41s Gd. In finished iron there is no change, trade continuing light and without new feature. Bars are quoted at \$1.75 to \$1.80; sheets at \$2.40 to \$2.60; and plates at \$2.50 to \$2.75. Timplates are quiet and about steady at \$4.60 to \$4.75 for I. C. charcoals, and \$4.20 to \$4.40 for cokes. A private cable reports an improvement in coke plates. B B grade, which recently sold at 15s, cannot now be bought under 15s 3d. Makers are booked well ahead and ecline to quote for prompt delivery. Canada plates have been in moderate request at \$2.90 to \$3.00 for Penn. and equal. Ingot tin is quiet and steady at 21½c for Straits and 22½c for Lamb and Flag. London is cabled 2s 6d higher than a week ago at £83 2s 6d. Ingot copper is weaker and a shade lower at 16c to 16tc. Best selected in London is cabled unchanged at £60. Lead has been in moderate request at \$3.25, but the feeling is better, cable orders for round lots having been refused at former prices.

Oils.—In steam refined seal on spot we have to note a somewhat stronger feeling, which is the result of an improved demand and moderate offerings. A lot of 150 brls. was placed on private terms, but quoted at about 60c. A lot of 50 brls. straw seal sold at 50c net cash. We quote steam refined 60 to 62½c on spot; pale, 55 to 57½c, and straw, 52½ to 55c. Steem refined to arrive is offered lower. Cod oil has been quiet and fairly steady, small lots changing hands at 60 to 62½c for Newfoundland, and 57½ to 60c for Gaspe. Linseed oil is firm but quiet at 54 to 55c for raw, and 57½ to 60c for boiled. Cod liver is steady at the advance noted last week, a small business being done at \$1.25 to \$1.30. Olive oil is weak and lower at 95c to \$1. Pe troleum.-The advance talked of last week has not yet come to pass, but the market is firm. A fair seasonable business has been done at late prices, and the consumption is gradually expanding. Refined oil at Petro-lia remains firm at 12½c. Here we quote car lots 14gc, broken lots 15c to 15gc, and single barrels at 16 to 16 c.

LUMBER. - Prices are steadily maintained. The exports of deals during July were 3,604,-780 feet. Deal and lumber freights are unchanged. The following are prices \$35; hirch, per M, \$20 to \$25; hard maple, per M, \$20 to \$25; laths \$1.75; shingles, \$2 to \$3.25; do cedar, \$1.60 to \$3.

DRY Goods.—Travellers' orders have come in to a satisfactory amount, and reports from interior points indicate an improvement in trade. The good harvest has awakened the interest of buyers, who have commenced to operate with greater freedom, but not wholly dispensing with that cautious spirit which has hitherto characterized them. The inward and outward movement of goods has been considerable, which shows that a healthy business is being done, and payments have been tairly met. The duliness in cottons continues to be the unsatisfactory feature of the trade, and notwithstanding the low prices there is very little demand for them. Woollen and knit goods have been in steady request and dress materials have moved out well.

LEATHER, BOOTS AND SHOES .- The enquiry for most kinds of leather has been of fair proportions all things considered, and promises well for a continuation and growth of volume. Buyers are not investing beyond early requirements, but even on this basis dealers claim a fair business. Sole leather is in good supply and if anything easier in tone, outside prices being realized with difficulty and then working in better shape. Boots and Shoes-Manufacturers have continued well engaged, and the number of new orders received has reached a satisfactory aggregate. Trade is uniformly described as in a healthy condition. Accounts from all points east and west have an encouraging tone, and payments are not backward. A fairly active fall trade is now assured. Prices are steady as follows:split boots, \$1.50 to \$2.25; do kip boots opinion as to the advance which may be shoe packs, \$1.00 to \$1.25; long do, \$1.25 to supposed to have been made towards a settle-\$2.25; do. felt balmoral foxed; \$1.25 to \$1.40; ment.

to advise regarding the chemical market. The movement has proceeded quietly and steadily, but cannot be called even fairly active. The promises of an increased distri-bution have not been fulfilled. The amount of stock on hand is light, excepting bicarb soda. Prices all round are unchanged. We quote: Bicarb-soda, \$2.30 to \$2.50; bleaching powder, \$2.40 to \$2.60; sal-soda \$1.121 to \$1.25; caustic soda, \$2.20 to \$2.30; soda ash, \$1.50 to \$1.60; alum, \$1.75 to \$1.85; sulphate of copper, \$4.75 to \$5 for American, and \$5.50 to \$5.75 for English. Drugs—The market while without striking feature, has been fairly active, and a good distributive business has been done over which dealers declare themselves well satisfied. Opium has a firmer tone and for the new crop prices are higher at \$4.25 to \$4.40. The London market is stronger. Quinine is steady at \$1.75 for Howard's and \$1.50 to \$1.60 for German in bulk. Morphia is unchanged at \$2.20 to \$2.30, while iodide potass is at \$1.75 to 1.85. GROCERIES-Prices have ruled steady at 63c to 7c for granulated, and 5c to 54c for yellows. Syrup has been more active, holders having shaded prices to effect business. Two 500 barrel lots sold at about our inside quotation. We quote 25c to 35c. Stocks of molasses continue heavy. About 7,000 puncheons have been imported since June 1. The sale of a cargo of Barbadoes for Quebec account is reported on private terms, quoted somewhat below our inside figure Otherwise the market is dull. We quote Barbadoes, 30c to 32c; Porto Rico, 26c to 27½c: Cienfuegos, Cuba and sugar house 35c. The tea market has occupied much the same position, being fairly active and steady. The stock of fruit in first hands is now practically exhausted, and importers are preparing for the reception of the new crop. Good Valencia raisins are at 5c to 5½c. Currants are quiet and quoted at 4½c to 5½c. Prunes are unchanged at 4½c to 5½c. Walnuts are dull at 11½c for Grenoble and 7c for common French. Almonds are quoted at 11c to 131c; Brazil nuts at 7c; filberts at 9c, and figs at 10c to 12c. There has been an improved demand for coffee, principally for jobbing lots. Prices are steady: Mocha 25c to 27½c; Java 19c to 23½c, and Jamaica at 11½c to 16c as to sample. Rice continues steady and in fair average request at \$3 50 to 3 60. Spices have been in more active demand and firm. Black pepper is firm and higher at 17c to 19c as to size of lot. White sold at 26c to 27c. Nutmegs are quoted at 50c to 70c; cloves at 15c to 18c; ginger 12½c to 18c; cassia 10c to

11c, and pimento 6c to 64c.
Woot—Offerings are made freely enough, as there is a fair supply on hand. In Cape we hear of sales of about 100 bales at 16½c to 17 c. Australian has been dealt in at 21c, and the range is from 19c to 30c. Domestic stock has changed hands to a moderate extent at steady prices. FISH-The season not having fairly opened

Buyers and sellers continue apart and the grain trade is dull. The first of the new crop is expocted to arrive next week. Peas were dull and easy. Ocean grain freights were quoted at 3s to 3s 3d Liverpool. We quote:—Canada red winter wheat nominally \$1.04 to 1.06; Canada white winter, \$1.00 to 1.02; Canada spring, \$1.00 to 1.03; peas, 91c to 92c; oats, 43c to 45c; rye, 70c to 71c; barley, 55c to 65c; and corn, 70c. Flour—Superior was unchanged. Fresh ground extra was held at \$4.90, while several round lots of American extra have changed hands at \$4.75. In other grades a small business was heard of at within range of quotations. On Change, 200 American strong bakers were reported at \$5.75. Patents, per brl. \$5.75 to 7.00; superior extra, \$5.15 to 5.25; extra superfine, \$4.65 to 4.90; fancy, \$4.20 to 430; spring extra, \$420 to 430; super-fine, \$320 to 335; Canada strong bakers', \$4.75 to 500; American strong bakers', \$5.00 to 570; fine, \$300 to 310; middlings, \$275 to 295; pollards, \$265 to 275.
