

As this Band has ample funds in the interest account, there being at present \$5100.00 to which will be added Government Interest of \$8700.00, I would recommend that the cost of the dams and the road work, which amounts to \$760.30, be approved.

*Approved
J. G. M.*

The wages earned by the Indians were spent in supplies and had not the work been undertaken it would have been necessary to give relief. It virtually means that instead of giving out relief with no return, the reserve has a good road and dams constructed for water supply in the future.

Attached please find copies of the resolutions.

Harold Brownell

Deputy Superintendent General.
