	24 July/44	Monday	Meeting of the Selection Board was held in the Commanding Officer's office this morning for disposition of Course No. 105. This was a particularly good Course, and on the average the percentage of marks made equals any Course for quite some period. Average standing of the graduates was 83.5%. It is of interest to note that this is the first Course to go out with no categorization of pilots, and that there were nine members who remustered early in the Course to Air Gunners, at their own request, in order to expedite training. Disposition was as shown in App. "A".	App. "A" attached
