

- Knee-elbow position in treatment of presentation of cord, 371
 Krause's method of induction of abortion, 635
 Kyphotic pelvis, 406
- LABOUR, Abnormal, 323**
 abnormalities of action of uterus, 419
 ante-partum hemorrhage in, 456
 management of, 473
 symptoms and influence on labour, 468
 ante-partum rupture of membranes, 428
 breech or pelvic presentations in, 337
 brow presentations, 324, 335
 cancer of cervix and, 415
 conditions of soft parts and, 410
 contracted pelvis and, 387
 management of, 393
 prophylactic, 396
 face presentations, 324
 diagnosis of, 326
 management of, 334
 mechanism, 329
 flat pelvis, 389
 inversion of uterus in, 453
 lacerations of cervix and vagina, 451
 management of, 473
 non-expulsion of placenta in, 483
 obstructed, 361, 430
 by fibroid tumour, 413
 by hydrocephalus, 431
 by ovarian tumour, 410, 411
 by uterine tumours, 412
 clinical results, 435
 diagnosis of, 436
 management of, 414
 ovariectomy during, 412
 over-action of uterine muscle, 423
 prolapse of umbilical cord and limbs in, 369
 rigidity of cervix and, 415
 rigidity of pelvic floor, 418
 rupture of uterus, 436
 transverse or shoulder presentations, 356
 twin labour, 365
 vaginal examination in, 327
 Cesarean section during, 693
 centre, 250
 complicated by eclampsia, 499
 conduct of, in eclampsia, 509
 "false," 171
 fetal complications, use of forceps in, 673
- Labour, induction of, in pyelitis, 184**
 management in hydrocephalus, 433
 maternal complications indicating use of forceps, 672
- Labour, Normal, 216**
 age factor in, 216
 albuminuria during, 108
 anaesthesia in, 300
 attitude of fetus, 238, 240
 changes in lower uterine segment and cervix, 247
 date of, 216
 delivery of child and after-birth, 304
 delivery of placenta, 252
 delivery of shoulders, 307
 diagnosis of progress of, 297
 dilatation of internal os, 219
 displacement of pelvic floor in, 235
 effect of, on fetal head, 276
 extension, 273
 first and second stages of anatomy and physiology of, 228
 maternal passages and, 228
 flexion in, 266
 fetal positions in, 259
 forceps of, 245
 formation of bag of waters, 220
 general effects of, 251
 hemorrhage during, 251
 labour centre, 250
 liquor amnii in, 221, 245
 management of, 280
 abdominal palpation, 280
 antisepsis in, 280
 diagnosis, 284
 preparations, 280
 mechanism of, 256
 narcosis in, 300
 nerve centres of, 250
 onset of, 217
 stages of, 221
 first, 221
 second, 224, 395
 third, 227
 "the show," 219
 "Twilight sleep" in, 300
 uterine contractions in, 246
 vertex presentation in, 259, 262
- obstructed, clinical results of 3**
 414, 435
 postmature, 217
 precipitate, 419
 premature, 247
 in albuminuria, 130
 induction of, 419
 in contracted pelvis, 3
 indications for, 626
 methods of, 626
