SHETLAND PONIES!

P. McCullough & Son Breeders and im-
porters of Shetland ponies, Markdale, Ont. We
showed 8 ponies at Toronto Exhibition in 1906
and got 8 prizes: 3 firsts, 4 seconds and 1 third.
All our ponies are imported. Our stallion, Fox
glove, took first prize at Toronto. Our mare
Bessie, took first prize, and their foal, Bruce,
took first prize also. Good accommodation for
mares sent from a distance to breed. Ponies
for sale. Our address: **Markdale P.O., Ont.**

TRADE TOPICS.

Dr. S. A. Tuttle, Boston, Mass.:

Dear Sir,—I treated a horse with
Tuttle's Elixir for spavin, and found it
to make a complete cure, without remov-
ing the hair. The horse has been tested
severely and has not shown any sign of
lameness. Hoping this will be of benefit
to someone else, I remain,

Yours truly,

E. ROY RAYMOND,
Bloomfield Sta., N. B., Canada.

**AN IMPROVEMENT ON BARN-DOOR
LATCHES.**—Through our advertising
columns in this issue a new barn-door
latch is brought to the attention of our
readers. It is made by the Albany
Hardware Specialty Mfg Co., and has a
number of features to which attention is
invited. The handles are of convenient
shape for opening the door from either
side, and can be adjusted without special
fitting to any door of reasonable thick-
ness. It automatically catches and holds
the door either closed or open. It is
attractive in design, material and finish,
and seems to be amply strong for all
purposes. One of the most essential
features of a good latch, and one which
is usually found wanting, is that it shall
have no projecting points that will either
catch in the harness or injure the ani-
mal itself when passing through the door.
It is claimed that this new latch elimi-
nates this disagreeable feature entirely.
It is in use on the experimental farms of
42 agricultural colleges, a fact which
argues well for it. The company is mak-
ing a very interesting proposition to
those who have not tried this new de-
vice. For particulars, refer to the ad-
vertisement elsewhere in this paper.

THE HOOVER POTATO-DIGGER.—The
manufacturer who would furnish to po-
tato-growers the best digger, must build
it upon the actual experience of a potato
man. It can be said of the famous
Hoover digger that it grows directly out
of the experience of Mr. I. W. Hoover,
President of the Hoover-Prout Company.
He was a large potato-grower in North-
ern Ohio, and had been for twenty years,
before he perfected his digger. He in-
vented it originally for his own use. To-
day it is in use by potato-growers all
over the country. There have been great
improvements in the Hoover digger, in
later years. In 1905, the 22-inch eleva-
tor, with its large separating surface, was
brought out. This improvement, to-
gether with its lighter draft, placed the
Hoover in the very front rank of diggers.
The manufacturers have made it a strong,
durable machine—one that growers do not
hesitate to put to work in any kind of
soil. It can be depended upon to get
all the potatoes, and a point that every-
body appreciates is that it delivers them
in fine shape, clean and uncut, in straight
rows on top of the ground, where they
are easy to pick up. If you are in need
of a digger, don't place your order un-
til you have written to the Hoover-Prout
Company, Avery, Ohio, for their cata-
logue, and learned the merits of the
Hoover digger.
