BOYS' CALF FEEDING COMPETITION

The calf feeding competition held in Brandon on Thursday, March 9, was a decided improvement on last year's showing. The number of exhibits totalled thirty-three, being one less than appeared before the judges the previous year. The judges, Messrs. Spears and Giles, found it comparatively easy to select the first and second prize winners, but the placing of the remainder of the class was a difficult task. The winning steer, a grade Hereford, was an exceptionally typy steer, with a wealth of natural muscling. He was uniformly good thruout and appeared in top notch bloom. The owner and feeder, Holby Moffat, aged 10, of Carroll, Man., has raised the standard over last year's winner fully twenty-five per cent. The second award was captured by George English, aged 12, Harding, Man., with a grade Shorthorn of an unusually promising type, having a wealth of scale, and weighing well over a 1,000 pounds. This steer was not as highly finished as the winner and was a trifle upstanding. He would hardly dress as high a percentage of high priced cuts as the winning steer. Young English was second in last year's competition, and his steer this year was an improvement on his last year's exhibit.

Third place went to Richard Leish, Barin, Sask., aged 16, on a grade Short-horn of a very smooth conformation, but lacking in finish for the block. Fourth place went to Roy C. Bird, Carievale, Sask., age 12, for a grade Hereford heifer of unusual merit. This animal had been on the car for fifty-four hours and only arrived in the building a few hours prior to the judging. There is little doubt but that this animal would have made a very much better showing. P. E. Robinson, Millwood, age 15, was fifth with a grade Hereford. Sixth was R. Mitchell, Douglas, with a Shorthorn steer. Harry Gauld, Brandon, was seventh with a grade Aberdeen Angus. This animal was very smooth and tiny but lacked finish. This heifer was donated to the Red Cross Fund, and sold for \$235. The other winners in order were as follows: 8, L. Crawford, Chater, Man. (12), grade Shorthorn; 9, H. Heineman, Neudorf, Sask., grade Angus; 10, Hugh G. Jackson, Alexander, Man. (12), grade Angus; 11, Francis N. Robinson, Millwood (12), grade Hereford; 12, Harold H. Lowe, Brandon (9), grade Angus; 13, Ed. Cox, Douglas, Man. (11), grade Shorthorn; 14, Earl Cheasley, Alexander, Man. (12), grade Hereford; 15, John A. Nevin, Chater, Man. (12), grade Shorthorn; 16, Lawrence Wishart, Portage la Prairie (13), grade Shorthorn; 17, William R. Burnett, Moose Park (16), grade Angus; 18, W. R. Murdoch, Millwood (13), grade Shorthorn; 19, W. D. Wishart, Portage la Prairie (9), grade Shorthorn; 20, Sam Heal, Chater, Man. (11), grade Angus.

Lessons from the Show

The strong feature of the showing thruout was the comparative absence of low quality animals. While there was a marked difference between the first ten and the last ten in placing, there were very few individuals unworthy of favorable comment. The greatest lesson to the boy who competed and was not among the winning numbers was that it is absolutely essential that the right type of calf be selected to feed. It was very apparent that breeding counts, and that no amount of feed can establish muscle fibre. This latter quality can only be obtained by breeding and selection. Furthermore, it was very evident that the select few had been carefully nurtured from birth to day of competition, and were never allowed to loose their milk condition. It can confidently be predicted that these budding stockmen will all reap next year more determined than ever to win. It is a pity that the boys could not all enjoy the counsel and direction of fathers, long experienced in the show ring. The crowd of spectators was a record one, and the policy of the Department of Agriculture and the Bankers' Association cannot be too strongly endorsed, and will prove one of the most practical ways of keeping the boy on the farm.

It is not too late to test your seed grain for germination.

SEEDS

FREE OF WILD OATS. This Curved weed is so common that many farmers think they cannot get seed that is free from them, and they are set far wrong. Clean seed is mighty scarce, but we have it. Grown from our pedigreed stocks, carefully inspected in the growing crop. Thoroughly steamed. Rigidly tested for germination and sold subject to our money back guarantee and conditions of sale. Our free catalog tells more about such seed.

HARRIS MCFAYDEN COMPANY
Farm Seed Specialists - WINNIPEG, MAN.

ALLAN CAMERON, Gen'l Supt. of Lands, Desk 19, Dept. of Natural Resources, C.P.R. CALGARY — ALBERTA

FARM FOR SALE

220 acres fine wheat land in West Saskatchewan, 2 miles from good town, on main line of Grand Trunk Pacific Railway, 4 miles from station on C.P.R.; five grain elevators, creamery, telephone and school. 210 acres under cultivation. 60 acres ready for crop, nearly all summer-fallow; 10 acres alfalfa, balance in pasture with plenty of water. Good well at house, 6 good work horses, 3 extra, farm implements, some nearly new, good wheat, oats, barley, good hay, everything ready to go to work with. Price \$55 per acre, which includes stock, implements, etc. It is a bargain and must be seen to be appreciated. I would prefer to sell complete, but would sell land separately if buyer so desired, but must have at least half cash, or will consider lease, if necessary, to repurchase partly. My health demanding special attention is my reason for selling. This ad. will not appear again, although this offer may be open for some time. Address

J. E. PETERSON, Unity, Sask., Canada

TAYLOR'S WONDER WHEAT

This phenomenal yielding variety, developed by James Taylor of Saskatchewan, after 20 years of careful selecting, gave a yield of 62 bushels to the acre at the University of Saskatchewan Experimental Farm last year—by far the heaviest yield of the scores of wheat varieties tested. We are now offering samples of this wheat to the public in small quantities. Full line of field and garden seeds. Cypher's Incubators. Poultry supplies.

A CORRECTION

A testimonial published on the classified page from Mr. James Strang, Boulder, Man., has led some of our readers to believe that he is sold out of this year's supply of rye grass seed. Mr. Strang's testimonial referred to his sales in the spring of 1915. He reports a good stock on hand for sale now.
