### Contracts Let.

The contracts for building the new bridge on the deviation of the Grey and Bruce boundary line were let last Thursday to Hunter Bridge & Boiler Co. of Kincardine. This firm's tenders for the whole work were lower than all their competitors. The total cost of the bridge will be about \$4500.

### Clean Up.

A contemporary calls attention to the necessity of a war against the deadly house fly, now proven to be one of the most active disseminators of disease. It seems early to give this advice. Yet it should not be forgotten that when garbage, the accumulation of the winter, is operated on for a week or two by a warm sun it becomes the breeder of flies and injurious bacteria. The lesson is to get backyards cleaned up at the earliest possible date.

### Dumped Over Embankment.

Mr. and Mrs. Chas. Koenig got a bad dump out of their buggy last Saturday morning. They were driving to town, and in coming down the hill just east of the village, their horse became frightened by a goose flapping its wings in Diebel's swamp, and the animal made a dash over the embankment, which is about four feet high at that point. The buggy was overturned and the occupants thrown out on the frozen ground. Mrs. Koenig was severely shaken up, but Mr. Koenig escaped unhurt. The buggy and harness were slightly damaged.

A. series to enter a club The matter was left to the discretion of the delegate to the W. F. A. convention, J. A. Johnston. The convention will be held at Woodstock on Good Friday.

### Entrance Examinations.

This year the Entrance Examinations will be held on Monday, Tuesday and Wednesday, June 26th, 27th and 28th, commencing at 1.15 p. m. This is a change from previous years and allows the High School to complete the week which was formerly broken by the examination. The Examination of Entrance to Model Schools will be held on the same dates, as instructions have been issued to that effect. In order to prevent that over-crowding of High Schools by the admission of ill-prepared pupils, the chairman of Entrance Boards are instructed to follow exactly the ruling of the Department, 40 per cent on each subject and a 60 per cent total for promotion. The Education Department has issued circulars to the chairmen of the High School Entrance Boards, calling for a more rigid marking of the answer papers and complaining that in the past both public and high schools have been demoralized by the passing of students quite unfit for advanced work. The report of the next examination is not to be published till the Department revises the finding of the examiners and no students below the required standard are to be passed on trial except with the approval of the Department.

The pleasantness of the winter which we sincerely hope is now about to terminate has to some extent detracted our attention from the length of it. The snow at no time covered the ground to any great depth and the roads for the most part were in splendid condition rendering travelling and trafficking easy. We had our share of mild and sunny days alternating occasionally with a day or two of storm. But for all that the winter has been continuous and long and has up to date covered a period of 161 days having started in in real earnest on October 28th. A pleasant summer is to be hoped for after enduring nearly six months of winter.
