**TOOK HIS TEMPERATURE**

"Did you take your husband's tem-  
perature as I told you to, Mrs. Pur-  
die?"

"I did that, doctor. I borrowed a  
barometer from a neighbor and put  
it on his chest, and it said 'very dry'  
I give him a pint of beer and he's  
gone off to work."

A motorist who did not stop after  
an accident, was fined in police court  
this morning. In this case it was not  
a very serious accident, for no one  
was hurt, but it might easily have  
been very serious, and the fine is a  
lesson to all motorists that they must  
stop at the scene of any accident.  
James McInnes of Shallow Lake was  
the offending motorist, and to the  
court he paid \$12.85 in fine and costs.  
In addition he settled the damages  
amounting to nearly sixty dollars, to  
the car he ran into. The accident  
happened one night about two weeks  
ago on the road between Owen Sound  
and Chatsworth. McInnes was driv-  
ing a heavy McLaughlin car and just  
over Dugoon's bridge he ran into a  
Ford belonging to Mr. J. A. Lenahan  
which was stopped at the side of the  
road. McInnes did not stop at the  
time of the accident, and it was only  
through Acting High County Con-  
stable Pembroke that he was caught  
later. This morning McInnes settled  
for the Ford outside of Court, but the  
Crown case proceeded against him for  
not stopping at the time of the acci-  
dent. McInnes claimed that he was  
a new driver as a reason for not stop-  
ping.—Owen Sound Advertiser.

**T. A. MISSERE, - MILD MAY**  
TAILOR AND GENT' FURNISHER.

John D. Rockefeller's favorite story  
is of a farmer who met another driv-  
ing in a narrow country road in the  
deep snow of winter.  
"If you don't turn out for me," said  
the first farmer, "I'll do to you what  
I did to the last man who wouldn't  
turn out for me."

Not caring to have trouble, the  
other man pulled out into the deep  
snow and let his neighbor pass.  
When he got back in the road again,  
he turned and shouted back to the  
first farmer: "Tell me, neighbor,  
what did you do to the man who  
wouldn't turn out for you?"  
"I turned out for him," said the be-  
liggerent farmer.

Arran and Tara have a dispute on  
their hands over the cost of operat-  
ing the stone crusher which has been  
used on Tara streets. Arran recent-  
ly purchased the crusher and offered  
to supply Tara with crushed stone for  
65c a yard. After two days' opera-  
tion it was found that the price was  
too low and Reeve Scarrow of Arran  
gave notice that the township would  
have to receive more money for the  
use of the crusher. This the Tara  
council agreed to do, but no specific  
amount was stated. At 65c a yard  
the cost of crushing stone amounted  
to \$148.20. Arran Council has ren-  
dered an account for \$293, nearly  
double the amount asked in the first  
place. Hence the dispute.

**ROADS MADE OF OIL**

Oil is the best material for mod-  
ern roadmaking. It withstands the  
wear and tear of motor traffic better  
than anything else.

The majority of oil roads have  
made with pitch, or asphalt, which is  
really oil that has not been refined.

Asphalt is found in California and  
South America, but the Island of Tri-  
nidad alone, there is a supply of as-  
phalt practically inexhaustible. Sir  
Walter Raleigh it was who discovered  
those asphalt lakes in Trinidad. The  
largest he named Pitch Lake. It is  
about 130 acres in expanse and of un-  
known depth.

It is only about 50 years ago that  
scientists suddenly bethought them-  
selves that this asphalt, or pitch,  
would be a perfect material for road  
making. Previous to that this enor-  
mous supply of oil had not been made  
use of by man until about 1850, when  
some smart young men conceived the  
idea of getting oil from it. This en-  
terprise failed owing to the enor-  
mous expense and the competition  
of the natural oil springs in other  
parts of the globe.

In 1870 a company started in ear-  
nest. A factory was built on the shore  
of Pitch Lake, railways were laid to  
the coast, about a mile and a half  
away, and a jetty built for ships.  
During the next twenty years close on  
three million tons of asphalt were  
got from Pitch Lake. This did not

**The Famous Five Rose Flour**

THERE'S NONE JUST AS GOOD

Try a bag and you will never buy any other. We have others
