

PREMIER HEARST AND HON. DR. PYNE AT THE ONTARIO SCHOOL FOR THE DEAF

First Official Visit of Ontario's New Prime Minister Was for Opening of New Dormitories—Luncheon at the Superintendent's Residence—Address of Welcome—Description of Building

Belleville, Ont. Oct. 30, 1914.

To The Honorable W. H. Hearst, M. P., Premier of Ontario.

To The Honorable R. A. Pyne, M.D., L.L.D., M.P.P., Minister of Education Honorable Gentlemen:

On behalf of myself, the staff and pupils, I desire to express to you our sense of the great honor conferred upon us by your visit to our School—an honor all the greater, Mr. Premier, because this is one of your first official acts since you became First Minister of the Province. We are glad to have this early opportunity of extending to you our hearty congratulations upon your rapid advancement in positions of responsibility and trust in the government of the Province, and especially on your recent elevation to the highest and most honorable position in the gift of the people of Ontario. We feel confident that the best interests and the highest welfare of our great Province could not have been placed in more worthy hands.

It gives us very great pleasure, indeed, to welcome you both, to our School on this, to us, very important occasion; a welcome which is extended with equal heartiness to Mrs. Hearst and Mrs. Pyne, whose presence with us today we very greatly appreciate. The fact that, amid the pressure of your many duties and responsibilities, you were willing to take time for this visit, is evidence of the personal interest you take in the welfare of our pupils, and gives us assurance that we shall always be able to count on your sympathetic cooperation and assistance in everything that pertains to their advancement. We wish on this occasion to express to you, and to the other members of the

evidence of this is the erection of the two new residences, to which reference has already been made, which will ever be a monument to your progressive spirit and earnest solicitude for the best interests of the children of Ontario. We assure you, sir, that the pupils of our school heartily appreciate all that you have done for them, and are deeply grateful to you and to the Government for the generous way in which they have provided every possible facility for their education and welfare, and we are all proud to know that, when the further plans for re-modelling this main building have been carried into effect, we will have an educational establishment for the deaf which will be second to none in America.

In closing, let us assure you, sir, that we will not be content with a mere verbal expression of our gratitude for the many kind favors we have received from you, but will strive to manifest our appreciation by putting forth even greater efforts to give our pupils the best possible education and training, and to have them become intelligent, industrious and respected citizens, to act well their part in whatever sphere in life they may be called upon to fill.

(Signed) C. B. Coughlin,
Superintendent.

COMMITTEE
W. J. Campbell, Miss G. Linn. Geo. F. Stewart.

The Hon. Mr. Hearst in rising to reply was given a rousing reception. He first expressed his appreciation of the kind references to Mrs. Hearst, Dr. Pyne, Mrs. Pyne, and himself. To attend the ceremony had been a privilege. He appreciated the congratulatory words and said he hoped to fulfill the prediction of his future. Sir James Whitney has gone. Even his opponents said he had given the best that was in him for Ontario.

"I have just taken up the reins he has let fall. I know my failings, but I pray to the Omnipotent that I may be given wisdom and power and justice in the task."

He hoped to give clean government and thus honor the memory of the late Premier of Ontario.

His first visit here was two years ago and since then he had told everyone here, every man in duty bound to educate the young. Education must be made to include the training in right morals and high ideals. He said the principles of high ideals and morals prevailed, Europe would not today be drenched in blood. The war is a sad comment on the false ideal.

This flag is not erected in the new buildings. The Minister of Education must be proud of these monuments. They are unequalled in the British Empire in their appointments. And the work is not done in the mind of the Minister of Education, the principal, Mrs. Coughlin, and others.

This institution will compare well with any one on the continent. The cadet or the boy scout influence creates a discipline, respect and self respect.

Dr. Pyne believed the German Emperor alone responsible for the war in Europe. We are not at war with the Germans. They are a wonderful people in industry, in science both in Germany and in America. It is with that military despot the Kaiser whom we hope to see bend the knee before the Union Jack and the allied flags (cheers).

The great industrial age is upon us in Ontario. There is a great opportunity for industrial education.

Dr. Pyne congratulated the superintendent and staff on the tidiness and happiness of the boys and girls.

Mr. S. Burrows led the gathering in the chorus of the "Red, White and Blue," eight girls in white and wearing maple leaves signed that lyric.

Letters of regret at inability to be present were read by Dr. Coughlin from Dr. Crozier, Philadelphia; principal of Monterey school for the deaf, and a former Belleville boy, and from J. T. Shultz.

Dr. Pyne was asked to present diplomas to the boys and girls who had secured their entrance, the first in the history of the institution. Those receiving diplomas were:

Evelyn Hazlett, Dorothy Hazlett, M. C. Kelly, Margill Kennedy, Mona McArthur, Gladys Sours, Ursula Buchan, Isabel Baker.

Mr. J. W. Johnson, M.P.P., for West Hastings, said the institution was established 42 years ago. No one else had succeeded in imparting education better than Dr. Pyne. The speaker said he was glad to honor the prime minister and predicted that more improvements are coming for the O.S.D. No man has higher regard than the prime minister. His must be respected by all, irrespective of party. Premier Hearst is the product of the great northland, of which the speaker had been an apostle for the past seven years. The great future of Ontario is in that northland. Mr. Johnson said he was proud to pay his fealty to the New King of Ontario and paid light tribute to the late Sir James F. Whitney. Mr. Hearst should follow on his lead with the exception of taking better care of his health, so that he might be spared for his wife and family. Mr. Johnson expressed a welcome to Mrs. Hearst and Mrs. Pyne.

Mayor Carter of Guelph, was welcomed to the platform.

The whole school repeated orally "God Save the King."

Mr. G. W. Reeves, president of the Association of the Deaf addressed a few remarks which were interpreted orally by Prof. Coleman. He referred to the advantages and improvements of the school, the benefits he had derived, and the steady advance, a step by step of the institution. Dr. Pyne is the right man in the right place. The ago and since then he had told everyone here, every man in duty bound to educate the young. Education must be made to include the training in right morals and high ideals. He said the principles of high ideals and morals prevailed, Europe would not today be drenched in blood. The war is a sad comment on the false ideal.

The pupils gave hearty yells for Premier Hearst and Dr. Pyne, waving banners.

The gathering then broke up as the ministers had to leave on the train shortly after five o'clock.

A reception was given in the school for the guests. Refreshments were served and an enjoyable time spent.

BOYS' DORMITORY

The two new dormitories are ideally situated on the large lawn before the main building, the girls' on the right and the boys' on the left.

The boys' dormitory is 156 feet long by 80 feet wide and consists of a basement and two stories containing eight large dormitories and three studies.

The basement comprises lavatories, bathroom and high school, two trunk rooms and one large room for reading, junior and senior lavatories with marble stalls, all the plumbing fixtures being of the most recent imported and sanitary lines. The rooms contain four tubs and eight sprays.

The first floor is furnished with a reception room, resident teachers' room, a bedroom suite, one play room for juveniles, two dormitories with a room adjoining for the attendant. To each pair of dormitories is attached a washroom with lockers, mirrors and lavatories. There is also attached to each two of the dormitories a linen and clothes room with clothes' cupboards for each pupil. The main corridor on this floor is carpeted with a heavy, plush, terrazzo base as are also the washrooms and lavatories.

On the second floor are four dormitories and attached rooms and two studies for senior and middle grade pupils. Clothes and linen accommodation is provided for on the top floor as in the first. Mr. W. S. Minns, supervisor of the Boys' department, has his room on this floor.

The corridor is covered with silk linoleum.

The hardware in the building is of a high grade finish and was manufactured in Belleville.

The exterior of the residence is brick with stone facings, two verandas being supported on stone columns and the building is in the main constructed on the principles of fireproofing with two fire escapes and two exit balconies. It is wired in conduit and the light is controlled in addition to a flush switch by a switch box situated on each floor. There are two internal standpipes the entire length of the building. Further appliances for protection are two hose reels and 75 feet of hose on each floor. In a suitable location on each floor is a triple-drink fountain.

The internal trimmings of the building are of oak with rubbed finish.

Fireproof is the stairway, constructed of wrought iron with marble treads and landings.

The heat for the building is supplied by underground conduit from the main plant which is situated in the main building almost five hundred feet from the dormitory. The system is the vacuum low pressure steam

system, controlled by the Johnson Controllable System in such a way that each individual room may be kept at any required temperature.

Two additional 75 h.p. tubular boilers have been added to the heating plant, making five boilers which supply heat to the entire suite of buildings at the school. These boilers have Murphy Stoker Coal and Ash conveyors together with the necessary pumps to feed the condensers brought back by the vacuum pumps. The plant is of the most modern. Mr. C. J. Peppin is the efficient engineer. He explained to the press in detail the wonderful centralisation of the heating and electric system.

A recent improvement is the new fire hall equipped with trucks, ladders, and hose, and with ample tower accommodation for drying the hose. It is east of the main building and is steam heated. It is of brick with stone facing and frame tower. The old fire conditions have thus been entirely remedied.

Messrs. Thomas Manley & Son of Belleville were the contractors of the boys' dormitory. The buildings they have erected, it may safely be said, cannot be excelled in the Dominion for the purposes for which it was built. Mr. A. J. Morton was superintendent of works. The marble for the stairway was furnished by the Vermont Marble Co., of Peterborough. Greenleaf and Sons of Belleville had charge of the electrical work. Purdy Harnell, Ltd., of Toronto installed the plumbing and steam heating appliances, and Mr. C. B. Scantlebury of Belleville, did the painting. The fireproof stairway was constructed by the Shipway Manufacturing Company of Toronto. Messrs. Tickell & Sons supplied the furniture and fixtures for the dormitories and clothes rooms. The shades were furnished by The Ritchie Co., Limited.

Crescent concrete walks have been built to connect with the various buildings of the institution.

The boys will soon be placed in their new home and the healthy surroundings should have a lasting result in all phases of their education.

\$1,400,000,000

That is the value of Canada's manufactures for one year—in money. But what of their value measured in the comfort, the happiness and the well-being of the whole country?

To produce them gives employment to over six hundred thousand workpeople, whose total wages amount to \$288,000,000 each year.

These workers, with their families and those who benefit by their purchasing power, number nearly one-third the population of Canada—supported by Canadian manufactures.

How readily it is apparent that the prosperity and happiness of every Canadian—of yourself—depend on the continuous employment of these people—on the consumption of goods "Made in Canada."

Canadian factories support one-third of our population. Are you helping to support Canadian factories?

Employ Our Own Dollars to Employ Our Own Workmen.

THOMAS MANLEY SR. AND THOMAS MANLEY JR., Members of Contracting Firm of "Thos. Manley & Son" Belleville, Who Erected Boys' Dormitory at Ontario School for the Deaf

approached, a gold key was presented to Hon. Dr. Pyne as a token of the occasion. After the various studies, dormitories, and appointments were inspected, the party proceeded across the spacious lawn to the boys' dormitory. Premier Hearst was presented with a gold key in honor of the occasion as he entered the door. Nothing but praise was given by the visitors as they went from room to room.

Some idea of the work carried on in the institution was to be given the visitors. Miss Ford gave with a small class of boys a very clear explanation of the elementary cultivation of the child's observation and sense of distinction. How pitch was obtained was made clear by Miss Ford. Miss Deaneard with an older class exemplified actual lip reading and speaking according to diagrams representing sounds. Marvellous seemed the success of a little Italian boy, who repeated "Little Jack Horner" very distinctly.

The Premier and Dr. Pyne and others expressed their wonder at the accomplishment of these children under such adverse circumstances.

Owing to lack of time, more classes could not be visited, although they were in readiness.

The public function in the dining hall was attended by hundreds of guests, the staff, the students, senators, members of parliament, and ministers of the city. The platform was decorated with an abundance of flowers. Those taking seats on the platform were Premier Hearst, Hon. Dr. Pyne, Sir Mackenzie Bowell, Dr. Coughlin, Supt.; Hon. Senator Corby, Mr. E. W. Johnson, M.P., Rev. F. N. Baker, Rev. A. R. Sanderson, Rev. A. L. Geen, Rev. G. R. Beames, Mr. F. E. O'Flynn and Mayor Willis.

Dr. Coughlin, the superintendent, was chairman and after a few words of welcome called upon Principal Rev. Dr. Baker of Albert College, who offered up prayer for the institution in its educational work and for the cause of "light" in the European conflict.

Dr. Coughlin supported by members of the staff then read the following address to the distinguished visitors:

Government, our great appreciation of the splendid new buildings which you have provided, and which you have just done us the honor of formally opening. No more beautiful, commodious and comfortable residences for pupils can be found on the continent and they will stand as a glorious and lasting tribute to the generous and progressive spirit that prompt their erection.

To you, Dr. Pyne, we are under a very special and very great debt of gratitude for the many favors we have received from your hands, and any words we could use would be inadequate to fittingly express our sincere appreciation of the kindly consideration we have received from you throughout the term of office as Minister of Education. During that time very great advances have been made in the work of educating the deaf. The standard of attainment has steadily advanced. This winter the most important is only one of the many improvements that have been made under your regime. The number of teachers on the staff has been greatly increased, thus enabling us to lessen the number of pupils in a class, without which our advanced work could not have been accomplished. The oral method of instruction has been introduced, which very satisfactory results so far, and with prospects of still greater success in the future, when it shall have become thoroughly established in all the grades. The name of the school has been changed so as to properly denote its character as a purely educational institution and the Compulsory School Attendance law of the Province has been made applicable to the deaf. While the moral and mental development of our pupils has thus so greatly advanced, their physical welfare has also been safeguarded in every possible way. The outstanding

work of teaching the boys and girls is God-given. They are entitled to be fitted for life. These handicapped call upon us first of all. The government would not be doing its duty if it did not do everything possible for these.

Premier Hearst paid high tribute to the staff. No work is nobler than training the young.

The Prime Minister referred to the cadet guard of red coats. No better guard could be fitted for life. These handicapped call upon us first of all. The government would not be doing its duty if it did not do everything possible for these.

The work of teaching the boys and girls is God-given. They are entitled to be fitted for life. These handicapped call upon us first of all. The government would not be doing its duty if it did not do everything possible for these.
