good indication of a live busines ise is to see its advertisement in the local paper. A merchant who is afraid to tell what he has, hasn't much worth telling about. In Saving the Lives of Others He Brought the Disease to His Own Home.

MONTERAL, Jan, 2.—A sad case arising out of devotion to duty on the part of a young medical practitioner of this city is much talked of in French-Canadian circles. Some time since the young children of Sergt Charbonneau, of the city police, were attacked with scarlatina and the disease assumed so virulent a form that for days the lives of one or two of the little ones were almost despaired of. Dr. Joyal, of Notre Dame hospital, and one of the most skilful medical gentlemen in the city, was called in, and for many days and nights he battled with the disease. The danger was at last past, and although the doctor had gained a professional triumph, the same was achieved at a terrible sacrifice at home.
