The Bay Chaleur Boat Service

The New Company Abandons
Project

In our last week's paper we stated
that the "Steamer 'Argyle'" had been
purchased for the Bay Chaleur Service
but we regret to learn that this was
a mistake.

The Hull Inspector passed the boat
and gave a very good report on it. Cap-
tain Poulliot said the boat was in
every way fitted for the service. It was
a couple of days before Mr. McKenzie
could get the boiler inspector's report
It was not very satisfactory. He stated
that he did not know whether they
would stand in salt water. Mr. Mc-
Kenzie then wired Mr. Johnson who is
mechanical foreman with the McLaugh-
lin people at Annapolis to meet him at
Ottawa.

Mr. Johnson was of the op-
inion that if the boilers would stand
one season she would still be a very
cheap boat and new boilers could be put
in during the winter for \$3000.

Mr. Johnson gave the boat a thorough
examination and reported that the
boilers would not stand the season in
salt water and could not recommend
the purchase. The inspector stated
that the only other boat suitable for
the route that might be purchased was
the "Nimble" owned by the Algon-
quins S. S. Railway Co. now in dif-
ficulties. They however wired that
they were negotiating with the Ontario
Government for a loan and giving se-
curity on their property. If they did
not succeed would be pleased to take
the matter up.

Hon. Mr. LeMieux, Mr. Marcell and
Mr. McKenzie then decided that it
would be a waste of time to try and do
anything further this season. They
called upon Sir Richard Cartwright and
stated that they were unable to pro-
pose a suitable boat and Marcell laid
before the Minister the importance of
having the service extended to Camp-
bellton and received his assurance that
this would be done.
