IF YOUR CHILD IS CROSS,
FEVERISH, CONSTIPATED
 Look, Mother! If tongue is coated, cleanse little bowels with "California Syrup of Figs."

Mother can rest easy after giving "California Syrup of Figs," because in a few hours the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again.
 Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups.

LORD BEAVERBROOK'S PLAN.
 Lord Beaverbrook, by making the confiscation of war profits a national issue in Great Britain, has directed world attention to that method of aiding in the solution of the great problem of economic readjustment occasioned by the war's fearful cost. It would not be correct to credit Lord Beaverbrook with being the first to suggest the method proposed, but his prominence in both the business and political world has made the suggestion of many an idealist, many a socialist, many a plain, ordinary, common-sense thinker, a live issue of practical politics, a possibility of the near future. British financial returns, to the 11th. of October show a deficit of \$312,269,691, the show a deficit of \$312,269,691, the revenue amounting only to a little more than half the expenditures of \$794,682,449 are compelling reasons for some other method of getting money. More taxation there must be but mere taxation of itself will not be sufficient. Lord Beaverbrook sees confiscation of wealth the war created as the reasonable, the fair, the natural source to inadequate revenues and reduce staggering debts. His suggestion, or rather his support of what might be termed a popular suggestion, gives its force, because Lord Beaverbrook himself is a war profiteer who would be called upon to hand over to the public treasury a million and more pounds. He would have the government take the valuation of each business as of March 31, 1914, and a valuation as of the same date in 1919. All that lies between in the way of increment should be, argues he, added to the nation's treasury. Other influential men who made money out of the war or because of the war are backing Lord Beaverbrook in the campaign he is making. A notable example is Lord Iverforth, who is credited with having made at least \$20,000,000 profit in the war years, and who is willing to hand over a cent of it over to the national treasury if others whose wealth the war increased are compelled to do likewise. It is the view of Lord Beaverbrook that confiscation of war profits would give the government approximately five billion dollars, a sum which, if used in paying off Britain's debt in America, would aid materially

SENTENCES ARE MUCH REDUCED

All Men Punished for the Kimmel Riots Given Leniency.

Vancouver, Nov. 26—Information has been received by Capt. George Black from the office of the Prime Minister at Ottawa that all of the twenty-one sentences of imprisonment imposed by court-martial on Canadian Soldiers implicated in Kimmel Camp riots have been reduced so as to expire with two exceptions, before Jan. 1, 1920. One will expire on Jan. 7 and one, of a Russian, is reserved for further consideration and if discharged he will be deported.
 Upon returning to Canada after defending the Kimmel Camp men of whom twenty were acquitted. Capt. Black made strong representations to Sir Robert Borden and the minister of justice concerning the circumstances of the Kimmel Camp riot, protesting against the findings of the court-martial, the severity of the sentences and generally as to the undesirable features of such military tribunals.
 When seen at his office today Capt. Black said: "My action was taken, not to beg for leniency for the men, but to place before the government the facts as to who were responsible for the riot and to secure relief for the men who were victims of it. They being entitled to relief on the merits and on legal grounds. The application received immediate and sympathetic attention from the Premier and the results are as satisfactory as could be expected at this stage, although I am of opinion that injustice was done in more than one case.

in reducing national obligations. According to a Montreal Star London correspondent, "the British cabinet is divided upon the proposal. Lloyd George is said to be neutral, but Beaverbrook spends much time with him and the belief is growing that the Prime Minister is for it. Winston Churchill is strongly favorable. Bonar Law is strongly against it, I am told. So is Austen Chamberlain. The Gedds brothers have not said where they stand." It is noted by other correspondents that the champion of those who oppose Lord Beaverbrook's plan is also a former Canadian, Mackay Edgar, who, speaking for the financial interests, charges that the scheme, instead of getting the real war profiteers, would confiscate the capital required for industrial development. Mixed in with this is the usual charge of electioneering. Undisturbed by this opposition, Lord Beaverbrook continues, in the London Express, to urge his proposal, and the backing he is receiving from prominent and representative Englishmen not only makes the issue a practical one, but proves that many of the nation's men of wealth are ready to place their money at the service of the country as they were their lives.—Ex.

BEFORE THE REAL EXPLORERS CAME

Nearly every school boy will answer glibly that Columbus discovered America in 1492 and will add that other men followed in the wake of the hardy adventurer in later years and entered the St. Lawrence and founded the great empire of Canada. But few know that in the years before these came hardy Norsemen had probably visited the shores of the maritime provinces, Labrador and Newfoundland. That, however, is true, for the Sagas—the old records of the Norsemen—tell of the strange expeditions of crews of sailors who had ventured far beyond the well known seas of that day and had visited a place they called Vinland.
 The Norse came by way of Iceland and Greenland in the years following 872. One of them had explored quite thoroughly Greenland in 983 and founded a home in one of the deep fjords. Then he went back to his homeland and raised a party to settle in the new domain. His colony of 400 people lived in Greenland for about four centuries.
 In 1000, Lief, an explorer, sailed southward to see what could be found. He came to a flat rock. This territory he named Heluland. He sailed on until he found a wide wooded land, to which he gave the name of Woodland. Then he stood out to sea and driven by a wind he came to a new land. He came to a body of water connected with the sea by a short river. There he wintered. When spring came he returned to Greenland with a cargo of lumber and several years later he brought back a colony. It did not flourish, however and in 1012 it left the new land. The best authorities think he found Nova Scotia, Labrador and Newfoundland at this time.

A Weak Argument.

Mr. Taber was telling his daughter, the reasons why she should not marry young Carpenter.
 "Why, hang it all, Sue," said the father, "that fellow earns only eighteen dollars a week."
 "I know, father," said Sue, pleadingly, "but a week passes so quickly when you're fond of each other."

LADY ASTOR WON HER ELECTION

Supports Unionist Party—Government Also Won in Isle of Thanet.

PLYMOUTH, Eng., Nov. 28.—Lady Astor was elected to parliament from the Sutton division of Plymouth in the balloting of Nov. 15th. The results was announced after a count of the ballots here this afternoon.
 The vote stood:
 Lady Astor, Unionist, 14,495.
 W. T. Guy, Labor, 9,292.
 Isaac Foot, Liberal, 4,139.
 Lady Astor became a candidate for the Plymouth seat in the British House of Commons after the death of Viscount Astor, of Haverhill, had left her husband heir to the title and necessitated his retirement from the lower House of Parliament.
 Lady Astor, who becomes the first woman seat holder in the House of Commons, was formerly Miss Nannie Langhorne, of Virginia. She is the mother of six children a fact of which she boasted on one occasion during her canvass.

Convention Of N.B. Farmers

The United Farmers of New Brunswick have made their first definite move in the field of provincial politics, confirming previous intimations that they were preparing for a general provincial election.
 Their first move has been to call a convention in Carleton county for the purpose of considering the selection of candidates in the constituency, which forms the major portion of the federal riding in which they recently elected T. W. Caldwell as member of parliament.
 Stating that there is a possibility of an appeal, the officers of the United Farmers have called their convention in Carleton county for December 15 at Woodstock and it is believed that a complete ticket for a general provincial election will then be placed in the field, as well as one candidate named to contest the county in the death of the late G. L. White, who was elected in 1916 while in poor health and who never took his seat in the legislature after the election.
 It is expected that conventions in all the other counties of New Brunswick will follow that in Carleton County.

"BUY AT HOME"

This Is Better Than Laxatives

One NR Tablet Each Night For A Week Will Correct Your Constipation and Make Constant Dosing Unnecessary. Try It.
 Poor digestion and assimilation mean a poorly nourished body and low vitality. Poor elimination means clogged bowels, fermentation, putrefaction and the formation of poisonous gases which are absorbed by the blood and carried through the body.
 The result is weakness, headaches, dizziness, coated tongue, inactive liver, bilious attacks, loss of energy, nervousness, poor appetite, impoverished blood, sallow complexion, pimples, skin disease, and often times serious illness.
 Ordinary laxatives, purges and cathartics—sulfate, oil, calomel and the like—may relieve for a few hours, but real, lasting benefit can only come through use of medicine that tones up and strengthens the digestive as well as the eliminative organs.
 Get a 25c box of Nature's Remedy (NR Tablets) and take one tablet each night for a week. Relief will follow the very first dose, but a few days will elapse before you feel and realize the fullest benefit. When you get straightened out and feel just right again you need not take medicine every day—an occasional NR Tablet will then keep your system in good condition and you will always feel your best. Remember, keeping well is easier and cheaper than getting well.
 Nature's Remedy (NR Tablets) are sold, guaranteed and recommended by your druggist.

COPENHAGEN CHEWING TOBACCO

Copenhagen is used differently from ordinary chewing tobacco. Take a small pinch, for a start, and put it between the lower lip and gum, in the osseous. Afterwards you can increase the size of the pinch to suit the strength of the chew you desire.
 Copenhagen is strong because the tobacco of which it is made is cut into fine grains, which makes it transport its strength thoroughly and quickly.
 Chew a little "pinch" once a long year, showing that Copenhagen is not only an unusually economical chew, but also one of the finest quality, being made of the best, old, rich, high-flavored tobacco.

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.
