SPRING CALF FEEDING

How to Feed and Handle the
Young Arrival.

The Dam's Milk the Best First Food
—Skim Milk Should Gradually
Replace Whole Milk—Grass or
Stable for Calves?
(Contributed by Ontario Department of
Agriculture, Toronto.)

THE calf that comes in at a time
when everybody is so busy
getting the spring work
done that he is very liable to be re-
jected to a certain extent. Young
calves are very susceptible to disease
com—on to young cattle and a little
lack of attention to spring calves is
liable to cause serious trouble to them.

There are two menaces to calves
in spring and summer, and those are
extreme heat and flies, and one is on
a par with the other. Arrangements
should be made whereby the calves
are kept in during the day and al-
lowed to run out in a paddock at
night.

By this means they are
afforded a liberal amount of exercise
and good pure fresh air, and also
they are allowed to get some of the
nice juicy green grass, which is the
nearest thing to a complete and bal-
anced ration that can be found out-
side of milk.

When the calf is dropped it may
be well to leave it with the dam for
a few hours in order that it may get
the first milk (or colostrum) which
is so necessary on account of its ac-
tions on the digestive tract. When
the calf has received sufficient colo-
strum to set up the necessary action
it should be removed from its mother
into a separate stall, or it may be put
into a stall with other calves of the
same age or nearly so. If, by any
chance, the cow's udder is inflamed,
the calf may be left for a few days,
because of the beneficial effect that
the calf's sucking has upon it.

For a few days the calf should be
fed whole milk, but when it is two
to four weeks old a change should be
made, skim milk gradually replacing
the whole milk, from eight to ten
days taken for the change. When
the whole milk is totally replaced the
milk may be increased to eighteen
or twenty pounds per day for a calf
six weeks old. The best kind of
skim milk for calves is warm, just
when it leaves the farm separator.

However, everybody may not have a
separator, and then this is not pos-
sible. In any event the system start-
ed with the calf should be followed
as nearly as possible at all times,
because radical changes in diet are
sure to cause digestive troubles.
Pails and all feeding utensils
should be kept very clean to elimi-
nate any danger of disease from
bacteria. The milk may be contin-
ued on as long as it is thought ad-
visable, up to eight or ten months
old. Good thrifty calves may be
weaned as early as three months old,
providing good substitutes for the
milk are used.

The most frequent trouble in rais-
ing calves is indigestion or common
scours. This trouble is usually caus-
ed by overfeeding, feeding milk too
cold, feeding milk heavily laden with
the disease germs, or by keeping the
calves in a dirty and poorly venti-
lated quarters. The calves should be
watched carefully, and if they show
signs of scours, immediate steps
should be taken to effect a cure. The
ration should be reduced and a little
lime water put into the milk. If
immediate action is needed, about
one-half cupful of strong black tea
or strong cayenne should be given.
As for meal for the calves, rolled
oats are good, and if they are getting
no whole milk a little linseed oil
cake should be added. The oil cake
has a laxative property as well as
supplying a little fat to the ration.
A good meal for calves: 100 lbs. of
ground oats, 50 lbs. bran and oil
cake (nutted) 25 lbs. Good clover
hay is essential at all times, giving
enough to allow the calves to pick
out the nice succulent parts, and still
not be overfed. J. C. McBeath,
O. A. College, Guelph.

Should Calves Go Out to Grass or

Remain in the Stable?

Generally speaking, calves are bet-
ter kept in the stable during the
first summer, when stable conditions
are not good, and where
there is not enough labor to look af-
ter them and keep them dry and
clean. The only other exception is
in the case of calves dropped in the
early winter and which have had
three to six months of milk and more
or less dry feed. Such calves may
be all right, if turned out to grass
as soon as the pasture is good and
the weather warm and pleasant. Par-
ticularly in this case where milk
and other feed is scarce on the farm.

The chief advantages of keeping
calves in the stable, the first summer
are:

1. They can be fed milk and other
feed as required, which is often neg-
lected when calves run with the cows,
or are pasturing some distance from
the barn.

2. Calves in a clean, well-venti-
lated stable are protected from the hot
sun, storms and flies, which often
prevent that good growth which is
essential for a well-nourished thrifty
calf.

3. If allowed to run with the herd,
the older animals are likely to
"boss" the calves and may injure
them, or deprive them of their proper
share of feed.

4. Cases of sickness, such as indi-
gestion or "scours" are more likely
to be noticed, and properly treated,
if the calves are inside where they
are seen frequently.

5. As a result of this better care
and feed, better cows are more likely
to be reared, which means larger
returns to the owners of cows.—Prof.
H. H. Dean, O. A. College, Guelph.

John Allan was fined \$2 in police
court this morning for allowing his
dog to run at large.

New Dress For Old

With Diamond Dyes

WOMEN CAN PUT BRIGHT RICH
COLOR IN SHABBY, FADED
GARMENTS

Don't worry about perfect results.
Use "Diamond Dyes," guaranteed to
give a new, rich, fadeless color to any
fabric, whether it's wool, silk, linen
cotton or mixed goods—dresses,
blouses, stockings, skirts, children's
coats, feathers, draperies, coverings.

The Direction Book with each pack-
et tells so plainly how to diamond
dye over any color that you can not
make a mistake.

To match any material, have any
druggist show you "Diamond Dye"
color card.

COMMISSIONER HIGGINS

HERE TO CONFER ON SAL- VATION ARMY MATTERS

Com. W. J. Richards, head of the
Salvation Army in Eastern Canada
and Col. John McHillan, Chief Sec-
retary are conferring with Commis-
sioner Higgins, Chief of Staff and
Second in Command of the Salvation
Army for the work who arrived in
Boston from London, England, recent-
ly. Com. Higgins came to America
to discuss matters pertaining to Sal-
vation Army affairs in Canada and
the United States, with Commander
Eva Booth, head of the Salvation
Army in the United States and with
the Canadian officials. He was for
many years Chief Secretary of the
United States and recently succeeded
Com. Howard as Chief of Staff and
Second in Command. Many matters
having any important bearing upon
the future policy of the Salvation
Army, and its reconstruction work
are to be taken up at this meeting,
and it is expected that on his return
Com. Richards will have something
to say in regard to the questions af-
fecting the policies to be followed in
Canada.

DOCTOR WARD, The Specialist

SPECIALIST IN THE TREATMENT OF NERVOUS CONDITIONS, NERVE EXHAUSTION,
BACKACHE, LUMBAGO, RHEUMATISM, STOMACH AND LIVER TROUBLES, ACNE, SKIN DIS-
EASES, CATARRH, ASTHMA, RECTAL TROUBLES, PILES, FISTULA AND BLOOD CONDITIONS.
The knowledge gained from many years' experience in treating diseases just like yours is of much benefit
to you and assures the ailing man of prompt relief. When a man knows that he is again feeling well—that
he is rid of his ailment—he feels that a heavy load has been lifted from his shoulders. I give every patient
the benefit of the knowledge acquired through the long experience of a graduated, licensed and registered
specialist, in order to bring about the most satisfactory results in the shortest possible time.

NERVE EXHAUSTION
A CONDITION AFFECTING MANY MEN—THE GREAT AM-
ERICAN DISEASE—IT IS BROUGHT ON BY OUR MAN-
NER OF LIVING—OUR WORRY AND HURRY—AMERI-
CANS EXHAUST MORE NERVOUS ENERGY THAN ANY
OTHER RACE OF PEOPLE.

There are a great many men who need treatment for their
nervous system. These men do not know what is the reason they
don't feel right—why they can't work like they used to—why they
tire so easily and why they are irritable, nervous, despondent,
weak, pale and lack ambition. These conditions require the ex-
pert knowledge and treatment of a specialist who has had many
years' experience in just such ailments. A specialist learns by
experience to know just the right treatment at the right time so
that the patient can be dismissed at the earliest possible time. Men
affected with nervous exhaustion have no endurance—no ambition
—everything they attempt is an effort. Life to them appears as a
long, gloomy future. Their appetite is poor and variable—they be-
come irritable, cross and discouraged. They have pains and aches
in various parts of the body and there is often indigestion and
pains in the stomach. Sleepless, wakeful and restless nights fol-
low.

RHEUMATIC AILMENTS
SCIATICA AND OTHER FORMS OF RHEUMATISM, LUMBAGO,
PAINS IN BACK, SWELLING, ACHING, PAINFUL
CONDITIONS IN ANY PART OF THE BODY—INFLAMED
AND SWOLLEN JOINTS OF LEGS AND ARMS—MANY
OTHER SYMPTOMS.

Hundreds of men are suffering with some form of Rheumat-
ism. Many of these men go from day to day suffering untold agon-
ies thinking they cannot be cured. They have tried liniments, rub-
bing, massage, salts and other treatments without experiencing
any relief, and they are now going through life thinking they
are martyrs to that burden called Rheumatism. If these men could
only know how easy it is to get rid of many rheumatic conditions
I know they would not suffer another single day. Then all suf-
ferers of rheumatism would be strong and healthy if they could
get rid of the condition. Rheumatic patients are nearly all strong
and robust before being attacked by this ailment, and therefore
it is so hard for the man to understand why he should suffer the
agonies of such a condition. When a man gets rid of such a condi-
tion he feels that a heavy burden has been lifted from his life, and
he starts right out to make up for lost time both in money and
pleasure. When a man comes to my office, suffering with the
above condition he is given a most careful examination, and he is
given treatment that he feels is giving him great benefit.

Quick and Lasting Results Assured the Ailing Man

BLOOD YOUR WHOLE HEALTH OF BODY AND MIND DEPENDS ON YOUR BLOOD. Any
"building process" of the body and mind, of the muscle and tissue formations, of any of the various vital
organs, can be accomplished only by working direct through the blood stream.
