TENSION IN THE TARIFF DEBATE

Keen Feeling Exists in United States Upper House Over Reciprocity

Washington, June 27 The tensithat exists in the Senate over the reciprocity measure was emphasized by incidents that occurred in the conproceedings of today. The session began with an unsuccessful atfinance committee to secure an agree ment for a vote on reciprocity July 24th, on the wool bill July 26th, and on the free list bill July 28th. Friends of reciprocity will insist upon coupling all three measures in any agreement to vote. After refusing to permit such a

Senator Borah's Sensational Speech is The Talk of the Capital Today.

Washington, June 29-Senator Borah's speech, reading President Taft out of the Republican party because of the Canadian reci-procity bill, is the talk of the capital today. Senator Borah is an insurgent Republican from Idaho. He has been prominently for President Taft's running mate as vice-president in the next pre-sidential election. That he should have deliberately announced in his speech in the senate yesterday afternoon that a man who would advocate the Canadian agreement was more of a Democrat than a Republican, because he had gone contrary to the principle of tariff protection upheld by the Republicans since the days of Alexander Hamilton, is regarded as nothing short of sensational. Senator Borah quoted Blaine and all of the other authorities of the Republican party. He quoted platforms, platform builders and platform breakers in support

Another Phenomenal Increase in Edmonton's Eank Clearings For Week Ending Thursday

Bank clearings in Edmonton for week ending Thursday totalled \$2.101.241, as compared with a total of \$1,158,506 for the corresponding week of 1910. The net increase for the week was thus nearly a lion dollars, or in exact figures, \$942,735. This increase is one of 81 per cent., and is made despite the fact that Thursday of last week. Coronation day, was a bank holiday. The percentage increase the week before was nearly 100 per cent. Week in and week out for nearly a year now, Edmonton has led all the cities of Canada in percentage increase of bank clearings, the surest index of expanding business. It has been no mean distinction for Edmonton to lead every other city of Canada in this respect for almost a year. But the most satisfactory phase of the situation is that the clearings are increasing in even greater proportion month by month and show no signs of di minution. Not only does Edmonton lead in percentage increase of bank clearings, but the proportion of increase is more than twice as great as that shown on the average by any other city of the Domin
