Report of the Railway Commission.

Special Evening Telegram,

LONDON, To-Day In the report issued by the Railway Commission of Inquiry, appointed to endeavour to effect a settlement of the questions at issue between the Railway Companies and their employees, who were then on strike, opposition is expressed to the recognition by the companies of the Men's Union. The Commissioners think, the By doing so you will report says, that with their great re sponsibilities the companies cannot and should not be extected to permit any interference by subjects of discipline and manage ment. News Will be **Bad for Manchus**

Special Evening Telegram. PEKIN, To-Day.

It is apparent that the Imperia Government knew the result of the battle at Hankow between the force and the rebels for more than 24 hour before it became public here. Report of the rebel victory gradually leak ed out. The success of the revolution has been considered here to hinge up on the result of the first encounter as it moral effect would be far-reaching in China, as probably nowhere else would be the case. When fugitive Imperialists reach the main army which is mobilized near Sin Yang Chow, news of the repulse, it is be lieved, will utterly demoralize the troops. While on the other hand, the news as it goes along the Yang Tse River will result in further important adhesions to the rebel cause.

"As Others See Us."

Editor Evening Telegram.

'Dear Sir,-I notice in this morning issue of the Daily News an item refe ring to a hot discussion at last night meeting of the City Council in refer ence to a proposal to take some land for street widening purposes. I commenting upon this incident th reporter of the Daily News grows funny and suggests that a proto grapher be employed so that the pic-tures may be reproduced for the moving picture show. Now, Mr. Editor it is only a short while ago, during the last session of the House of As sembly, when an opportunity was af forded for the services of a photographer, and that was when the Pramier of this country, Sir E. P. Morris, from his place in the Assembl used the most scurrilous language to wards the respected member for th East End, John Dwyer, Esq. Sir E P. on that occasion lost his temper and in language disgraceful to him self, the Assembly and the position he occupies, called our respected readvised him to plant his head for cabbage. Of course this sort of thin in the eyes of the Daily News was very funny, but when Councillor: Mullaly or Ryan lose their temper a a meeting of the Council and use what is considered to be unseeml language, the Daily News scribes roll up their eyes in holy horror, and like the Pharisee of old exclaims "Thank God they are not like the res of men!" What is considered a virtue in one man is considered a crime in another.
