TWENTY YEARS. Makes a great difference in most women. They are troubled with "nerves"

they suffer from backache, headache, sleeplessness, a sensation of irritability or twitching, hot flashes, dizzy spells, or many other symptoms of female weakness. The local disorder and inflammation should be treated with Dr. Pierce's Lotion Tablets and the irregularity and weakness of the female system corrected and strengthened with Dr. Pierce's Favorite Prescription. The strain upon the young woman or the woman of middle age—upon the nerve and blood forming structures—may be too great for her strength. This is the time to take this restorative tonic and strength-giving nervine and regulator. For over forty years sold by druggists for woman's peculiar weaknesses and distressing ailments. The one remedy so perfect in composition and so good in curative effects as to warrant its makers in printing its every ingredient on its outside wrapper. The one remedy which absolutely contains neither alcohol nor injurious or habit-forming drugs.

Dear Sirs,—We have nothing but good to say of Mathieu's Syrup and can conscientionly describe it as the most popular and successful Coagh Medicine we handle. Owing to the absence of any drug store in this vicinity there is: a great variety of proprietary medicine sold in the course of the year, and Mathieu's Syrup pre-eminently leads in its own class. Yours sincerely,

A Standard Cull.

Editor Evening Telegram.

Dear Sir,—A standard cull for our otherwise known as the People's Parlighted to have inside information, ty, have in this, as in many other inspread the explanation abroad, and a stances, failed to take any practical steps towards remedying this serious grievance, or even to suggest a work-Implicit and unquestioning trust is able basis upon which the interests rare quality, even among friends. of both parties may be fairly conserved. Such, however, in a country like ours ought to be the business of the Government and of especial concern to the Minister of Marine and Fisher-He has made his last report, and when Mr. Piccott goes off the job within the next few months he will leave behind him a record as bare and as barren of results as one can well conceive possible for the head of that department to leave. The electorate are now thoroughly aroused

to a knowledge of the duplicity and sincerity of the Morris Government, or the so-called People's Party. The shadowy deals in many departments of the public service have become so otoriously frequent and of such magnitude as to make all self-respecting men pray for the time to arrive when this mischievous and extravegant gang of boodlers may be hurled from office. The Morris Governmen went into power four years ago, not by any means on their policy of rail-way extension but through secret ap-peals to simple-minded persons made by men now holding high offices of emolument. Such were the slimy nethods employed by men now in the Executive Government of the Colon to rob the trusting and confiding fisherman of his power through the Ballot Box—that high privilege se cured for him by Sir Robert Bond when he had the Ballot Act made the law of this country. Enough men were found in Harbor Grace District to believe that Mr. Piccott, "would re ject with disdain the vulgar incense of official adultation," but many of official adultation," the people of that district are now tive they put forward. They are now sending Piccott to Parliament has

been a costly one to the Colony gen erally and Conception Bay in a very particular way. They find the Minister of Marine and Fisheries voting for every undigested scheme Morris has proposed, which might tend to disturb the happy and halcyon state of the fishermen of this country, with the disastrous results, as pointed out by Mr. Kent in the House of Assem-bly, that within five years more than 7,000 men have deserted the fisheries; many of whom have left their island home never to return. Conception Bay and Harbor Grace District are

amongst the chief mourners. We ask the pertinent question has Mr. Piccott done anything toward keeping these young men at their chosen occupation? Has he taken any practical steps to secure for the fishermen a "Standard Cull" for his fish, under the direction of his denormant? the direction of his department? What has he done to open new markets for as much as a yaffle of fish? Where are the Bait Depots? This was his business: to develop the fisheries, to standardize the cull to have enacted a measure securing the shipped man or boy or girl a guaran-

tee of his or her wages after a sum-mer's hard work on the Labrador, and thus encourage them to remain in their own land. He has had the time of his life at the expense of the country he has helped to saddle with an additional burden of eight or ten millions of public debt within four and thus encourage them to remain in their own land. He has had the time man who works for a living in Har-bor Grace District, have any inten-tion of further providing him with fine clothes, fine linen and a berth at the Crosbie, with Johnnie and Wattie
