PRESIDENT OF HORSE SHOW.

well merited compliment to another horseman of this district, Mr. George association. Mr. Lane is one of the oldest stock men of the district, hav ing come to Alberta in 1883. He has been a very enterprising stock man as well and is doing very much to raise the standard of stock. Mr. Lane in exhibiting his stock at Seattle and other large American cities, has done much to advertise this part of the country. The horse breeders did stamp of man like Mr. Lane.

POWERS OF THE COMMISSION.

The city of Edmonton has a com mission form of government which has less of the commission about it 'than the Calgary form of municipal government. The members of the council them when occasion warrants and generally look upon the commissioners as the star committee acting under the instructions of the council. That is the kind of a commission that Calgary had at one time. It didn't suit.

And unfortunately that is the kind of a commission that the city council is now asking for in the city bill which will be submitted to the provincial legislature some time or another.

ed in an expert to look it over and size it up. He did so and came to a conclusion at an early date. The powers of the commission were restricted. The much. The organization was incom-

ecomes disorganized. The city would take a backward step in limiting the powers of the commis sioners in any way, either as to elec tion, as to security of office, or any thing like that. Remember Edmonton.

BAND OF HUMORISTS.

From time to time the Albertan has referred to the Alberta and Great Waterways railway people as a band of promoters without any experience in

humor is becoming more apparent every day. No person without a high through. The idea of making half a treme, no doubt. million or more out of the province by the handling of certain of its bonds is s because we are all prejudiced be-

Then these little bulletins from the ly the better of it in the horse show Great Waterways offices are hilarious in their merriment, if you read then n the right way. For instance take the announcement that the promoters intended to extend the road to Calgary. Perhaps you do not see anything very humorous about that. It is because you have not seriously considered the proposition. Look at it for a minte. Here is a company with no other capital than a discounted note for \$50 000. Upon such security it has already made the bond deal, and has worked the Alberta government for the most wonderful railway proposition since the beginning of the present era. Never on earth did a discounted note for such an amount go so far. It was stretched already out of all sort of gnition. Then when the first laugh had just about died down, some director suddenly suggests that they extend the note sti"l further and build a road down to Calgary with it. Cannot you see the humor of the situation now? And while we are all in the merry mood, some one up and suggests that they announce that all work on the road be discontinued. As a mater of fact, Practically all the work done, has been to lobby legislators and work through the sale of the bonds. When these facts

Chatham Man Gets Long Sentence

Chatham, Ont., April 6.—Edward Laforest was sentenced today to four years in the penitentiary on a charge of arson and burglary. Laforest at the hearing Thursday last, confessed to burning the Joy club at Mitchell's Bay, two years ago and to the theft of two guns from the burning building. Cedar, an accomplice, was captured at the time and sentenced to a year im-prisonment but Laforest escaped to the United States. He has served terms in Montana. Utah and Michigan.

Beautiful Displays of Fashionable Attire and New Merchandise

The Attractive Features at the Big Store This Week

THE fashion event of the season, "Horse Show Week," was formally opened in brilliant style last evening, adding another wheel in the machinery demonstrative of western progressiveness, and marking also the turning point of the season in real earnest at this store.

New goods are revolutionizing the store. We take this medium, therefore, of extending to our many out-of-town friends who are visitors to the Horse Show, a hearty invitation to visit the store and inspect and admire the various style themes for the new season which we present in wonderful array today. The showing embraces the latest conceptions in suits (men's and women's), dresses, coats, skirts, waists, etc., etc.

It's a showing and fashion display that will add still further laurels to this popular store, and still more firmly establish it as Calgary's vane of fashion.

The great inflowing of new goods taking place this week will make a visit to the big store one of particular interest to everybody. The spring' stocks of wearing apparel--embodying the latest style-features accepted as authoritatively correct and among them many exclusive conceptions, imparts an interest that will be at no time so acute as it is at present, when every woman--and man, too-- is keenly alert as to what's what in the world of

Make it a point to visit the store during "Horse Show Week."
