ly expressed the opinion that Mr. Goschen had gone too far in treating with Secretary Foster. He did not like the idea of a suspension of India's silver currency, but finding that the India office insisted upon an early settlement of the question he consented to submit it to the cabinet.

BAGGAGE BURNED.

Fires in Stratford, Thorold, and at Other Points.

THOROLD, Ont., Sept. 7.—Last night a fire broke out in a brick store on Front street, owned by Hugh James, badly damaging the interior of the building. Loss between \$700 and \$1,000. The furniture of the store was badly damaged.

THOROLD, Ont., Sept. 7.—Another disastrous fire occurred in this town about 11 o'clock last night. All the frame buildings situated between John Gundy's and J. Morrow's, on E. Proctor and T. B. Taylor, and the Eyrre estate, directly opposite our brick block were totally destroyed; contents saved. Loss covered by insurance.

HAMILTON, Sept. 7.—A fire at the Burlington Glass Works this morning was caused by sparks from the furnace, igniting some dry wood in the blow house. The fire totally destroyed the works and outbuildings which occupied more than half of the block. About \$10,000 worth of stock in the storehouse destroyed. Total loss at about \$35,000. An insurance of \$37,000 will fully cover the loss. The works will be rebuilt. The works had been shut down for the regulation two months and were to open again in a week. Three hundred men and boys are out of work.

PHILADELPHIA, Sept. 7.—Fire to-night destroyed the block between Twelfth, Thirteenth and Catherine and Temple streets. The loss is estimated at \$400,000.

A SURGICAL TRIUMPH.

Incisions Made in a Woman's Neck and Swallowed Teeth Removed.

ST. PAUL, Minn., Sept. 8.—Miss Josephine Nelson of South Minneapolis, has been lying at the point of death at the North-west hospital for the past six weeks, but because of a remarkable surgical operation made recently will recover. She has taken only liquid food for more than a year, and had become so weak she could not raise her head. As a last resort physicians, by the use of a stethoscope, located an obstruction in the esophagus, about two inches below the clavicle or collar bone.

Miss Nelson was given an anesthetic and an incision made on the left side of her neck, about four or five inches in length. The doctors then dissected down to the esophagus, opened it and there found two teeth, pointed downward, firmly inserted in the interior walls of the esophagus. They almost entirely obstructed the passage. Questioned about the matter after she recovered consciousness, Miss Nelson said that six years ago, while in a fit of laughter, she swallowed the two teeth, which were then attached to a triangular piece of rubber.

What renders this piece of surgery truly remarkable is the delicate region of the human anatomy in which the incision was made. For instance, if the pneumo-gastric nerve had been cut death would have been instantaneous. Had the subclavian artery been severed, the patient would have bled to death in three or four minutes.

THE YELLOW FLAG.

NEW YORK, Sept. 8.—Sandy Hook reports that the Normanna and Rugla have the yellow flag up against this morning and that it also flies at Hoffman Island.

DETROIT WILL QUARANTINE TWENTY DAYS.

DETROIT, Mich., Sept. 8.—The Board of Health, acting under the authority given by the Surgeon-General's circular, has decided to establish a twenty days quarantine here against immigrants coming by way of Canada. Twenty days will be the limit, but it does not follow that all or any immigrants will be detained that length of time. If there is any sickness on the train suggestive of cholera, passengers may be held twenty days or less, according to circumstances.

NOTES.

Brussels officials report one case of cholera.

The North German Lloyd steamer Herman rec'd at Bremerhaven for New York Tuesday night, and has 800 immigrants in the steerage.

The steamer Trave of the North German Lloyd Steamship Company, from Bremen, sailed from Southampton for New York Wednesday evening. She has 307 passengers in the saloon, but her steerage is empty.

The steamship Wyoming, which arrived at New York Tuesday night, has 50 Russians. The immigrants are liable to be detained for some time.

The oil tank steamer Brilliant which arrived at New York quarantine from Hamburg Sunday has been allowed to go to New York City. She had 10 passengers.

Prof. Vinograd has published the results of his inquiries in Russia in regard to cholera. He declares that the measures in force in Russia for treating persons attacked with the malady and for preventing its spread are excellent and that Russia is ahead of Germany in this respect. The virulence of the plague in the Voga district he attributes to the physical condition of the inhabitants, who are so reduced by famine that it is impossible to save them once they are attacked by cholera.

Cholera reports from Hamburg for

Wednesday show there were 655 new cases, a decrease of 47 compared with the figures of Tuesday. The deaths were 315, a decrease of 18.

There were reported in Havre Wednesday 19 new cases of cholera and 11 deaths. This is 8 fewer cases and 4 more deaths than were reported Tuesday.
