FAIR WEATHER.

is giving slight local showers, and is ac-

companied by mild weather. Minimum

THE BAPTISTS.

Annual Convention of the Young

People's Union of Ontario and

Quebec.

Woodstock, March 30.—The second

annual convention of the Baptist Young

People's Union of Ontario and Quebec

opened here to-day in the First Baptist

Church. There were between 800 and 900

delegates present. When President Urqu-

hart called the convention to order soon

after 1 p.m. the large auditorium was

packed.

After the routine work the welcoming

of delegates and a prayer service Mr. H. D.

Copp, Hamilton, secretary of the board of

managers, presented his report. Out of

380 churches 155 Young People's Societies,

with a membership of 5,408, had reported,

leaving 225 churches still without a society.

Steps were being taken to form societies in

unorganized sections.

Mr. F. Urquhart, president, delivered

his address. He referred to the progress

and success of the organization and the

great field there was at home for individual

work, especially to the north. He thought

the home work should be done by con-

secrated laymen.

Relaxing.

In warm weather the muscles relax much

more easily than in cold; hence in the

treatment of sprains, soreness, stiffness at

this time, St. Jacobs oil does its best work.

It never does harm.

Catches the Crowd.

Mr. Shuff's East End drug store has an

unusually attractive window this Easter

which seems to catch the crowd, both young

and old. The whole window is filled with

beautifully colored Easter eggs, while in

the center sits a hen in a real nest which is

also filled with colored eggs.

—Mr. and Mrs. Humphrey Bradton, of

mouche, Ont., living there for ten years,

and then moved to Danforth and lived seven

years. They then settled in Carleton Place,

where they farmed for about nine years. They

sold out and went to Westminister for

three years, and from there to London for

four years. From London they went to a

farm at Coyne's Corners, and settled for

the balance of their days. They lived

there for about 27 years.

What of the Stop Logs?

There is considerable speculation with

regard to the question of whether or not

the stop logs at Springbank dam were

down last Friday night. Mayor Essey

asserts that they were down, while Mr.

Fulton, living near the waterworks, has

signed an affidavit now in the possession

of Village Clerk Bartram, to the effect that

he lives within 500 yards of the dam, that

stop logs have not been down for three

months, and that they were not down dur-

ing the freshet of Friday last.

Satisfied with the G. T. R.

Mr. W. B. Juries, of England, the

Grand Trunk shareholder who came to

Canada a few months ago for the purpose

of investigating Grand Trunk methods, and

who visited this city last week, has ex-

pressed himself as greatly and agreeably

surprised at the manner in which the road

is run. He has written a book on what he

saw, which gives the ordinary shareholder
