Roses and other cut flowers used to adorn the ballroom and reception parlors at the White House are always sent the next morning to the various hospitals of the city.

AWFUL LOSS OF LIFE AT ST. PIERRE, MARTINIQUE

Town Wiped Out by Volcanic Disturbance

Almost All the Inhabitants Said to Have Perished.

Destruction of All the Shipping in Port, Including the Quebec Steamer Roraima—Sketch of the Island.

St. Thomas, D. W. I., May 8—7 p.m.—The British steamer Roraima (Capt. Freeman), which left St. Lucia Wednesday for Martinique, returned to St. Lucia at 5 o'clock this afternoon.

The Roraima brings a report that the town of St. Pierre, Martinique, has been TOTALLY DESTROYED.

As a result of the volcanic disturbances in the island. Almost all the inhabitants of St. Pierre are said to have been killed.

The Roraima reports that all the shipping in the port has also been destroyed. The Quebec Steamship Company's steamer is mentioned as having been lost with all on board.

The Roraima was almost completely wrecked. Her captain was seriously burned and seventeen of her crew are dead.

The steamer Roraima (Capt. Muggah) left New York, April 26, for St. Thomas, where she arrived May 2. From St. Thomas she proceeded for St. Croix, Demerara, etc.

BEGINNING OF THE CATASTRO- PHE.

It was announced from St. Thomas last Sunday (May 4) that St. Pierre had been covered with ashes to the depth of a quarter of an inch as a result of the outbreak of Mont Pelee volcano, and the town appeared to be enveloped in fog.

A second dispatch from St. Thomas, dated May 6, said the flow of lava from the Mont Pelee volcano, which began last Saturday, had completely destroyed the Guerin factories, situated about two miles from St. Pierre. It was also reported that about 150 persons had disappeared, and that a great panic prevailed at St. Pierre.

Another dispatch from St. Thomas, dated May 7, said that advices received that morning from the Island of St. Vincent, B. W. I., announced that for some days earthquakes had been experienced in the neighborhood of the

Island of Martinique, which had been smoking and rumbling. The people in the vicinity of the volcano were leaving for places of safety. This St. Thomas dispatch said further that cable communication with the Island of Martinique was interrupted the morning of May 7, and that cable connection southward from St. Lucia, in the Windward Islands, ceased suddenly the same afternoon.

It was reported that the volcanic craters in Dominica, B. W. I., were THE ISLAND.

The Island of Martinique, in the West Indies, is the most northern and one of the largest of the Windward group. It is 45 miles in length, and about 10 in mean breadth. Its area may be estimated at 400 square miles. The land is mountainous and volcanic, the soil in the valleys being fertile and productive. Its products are sugar, coffee, cotton indigo, cocoa, ginger, rum and molasses. The population is 126,000.

Martinique was discovered by the Spaniards in 1493. In 1635 a French colony was established on it, and in 1763 it was taken by the English, but restored in the following year. In 1794 it was again taken by the English, and held until 1803. In 1815 it was finally relinquished by them, and since that time it has remained a French dependency.

THE TERRIBLE NEWS CON- FIRMED.

Paris, May 9.—The commander of the French cruiser Suchel has telegraphed to the minister of marine, M. De Lanessan, from Fort De France, Island of Martinique, under date of Thursday, May 8, at 10 p.m., as follows:

"Have just returned from St. Pierre, which has been completely destroyed by an immense mass of fire, which fell on the town about 8 in the morning. The entire population (about 25,000 souls) is supposed to have perished."

THIRTY SURVIVORS.

"I have brought back a few survivors, about thirty. All the shipping in the harbor has been destroyed by fire. The eruption continues."

"SHOOT TO KILL" ORDERS GIVEN RUSSIAN SOLDIERS

Parleying With Mobs Is Forbidden.

New \$5,000,000 Cunarder to Be Built.

Liverpool Looking After the Terminal Advantages of Any Canadian Fast Mail Service.

SNOW IN ENGLAND.

A Wednesday's cable says: The weather in London is bitterly cold, and snow has fallen in various parts of England. There have been snowstorms in Cheshire and Lancashire, and in Dover and other parts of Kent and Leicestershire and Norfolk. Snow fell at Newmarket this morning, accompanied by thunder, followed by sunshowers. Snow fell at Abbeville, midway between Calais and Paris, today.

LOOKING AFTER FAST LINE.

Lord Strathcona received yesterday an influential deputation from the Liverpool Chamber of Commerce, the City Council, the Mersey Docks, the Trade Association, in fact, practically all concerned in Liverpool shipping, begging that Liverpool be retained as the British terminal port of any Canadian fast mail service. It is understood that the deputation submitted in the strongest possible manner Liverpool's superior claims to Southampton and Cardiff. They had no official information has been furnished the press. Blackburn, Halifax and Huddersfield Chambers of Commerce were also represented on the deputation.

In the opinion of the highest authorities here this is a great chance both for Canadian and British shipowners outside the trust.

QUEEN WILHELMINA.

The Hague, May 9.—Prince Henry telegraphed his mother yesterday that the queen's condition was satisfactory, and that she had no fever. The Prince Consort attended Ascension Day services at the church in Apeldoorn. This was taken as a reassuring sign in regard to the queen's condition.

At Castle Loo this morning, the following bulletin was posted: "Queen Wilhelmina had a quiet night, with no rise in temperature. She is taking sufficient nourishment and her condition really is satisfactory."

ROYALTY AT THE SHOW.
