OF INTEREST TO FARMERS

Prices for live hogs, delivered at the factory, London Junction, Monday and Tuesday mornings next:

THE CANADIAN PACKING CO. LONDON JUNCTION.

LOCAL MARKET. Saturday, Sept. 2, 1905. Today's market was a hummer, as the attendance was the largest since last spring; the market square was commodate the huge crowd of farmers and buyers, and the large number of was nothing in the large. There chicles filled with the products of the was nothing in the news of special in- las pervaded. farm and garden. Sales were brisk in terest. There was some support in Amalgamated Copper, Eric and Steel

draggy. Prices, as a rule, were steady. Grain-New oats were in good de-About three or four loads offered. Hay and Straw - A few loads were on the previous day. Sales were made at \$8 per ton. Owing to Monday being a holiday it is not likely any hay will be offered. There should be a good demand for hay next week as the hotel-keepers will be laying in an extra sup-

ply for the fair. A couple of loads of straw sold at \$5 per ton. Butter and Eggs-Butter sold weil: there was a cosiderable quantity offered. Sales were made at 21c and 22c per pound for butter in crocks; for pound rolls from 22c to 23c was paid for the basket lots; in the dairy hall 25c was asked for pound rolls. Eggs

were just shade firmer at 16½c to 17c Amal. Copper. 82%, 82%, 82%, 82% per dozen wholesale. American Sugar. 138%, 139%, 138%, 138% 138% 138% Fruits—This line was the feature of Amer. Cotton Oil. 29% per dozen wholesale. Fruits—This line was the feature of the market. The following prices were most frequently paid: Plums, 40c to 55c per 12-quart basket, mostly at 50c per basket. Peaches, 75c to \$1 10 for the 8-cuart and 12-quart baskets of Crawfords; for the common grade, 40c to 60c was asked for the 12-quart basket. Apples were in large supply; prices varied considerably. A medium quality of cooking apples could be had at \$1 per bag; fancy stock sold at \$1 25 to \$1 40 per bushel; several choice barper bag; fancy stock sold at \$1 25 to \$1 40 per bushel; several choice bar-rels sold at \$3 per barrel. Pears sold Kan. & Tex. pfd. 70% 711/2 at \$1 at \$1 25 per bushel. Jim Glendenuing had the first grapes of the season;
50c was asked for the 10-pound basket.
Crab apples, 30c to 40c per bushel. Elderberries sold at 10c per quart. Muskmelons, 75c to \$1 per dozen. Thimbleberries, 10c per box.
Vegetables and Roots—Potatoes were
well represented. Most of the sales

Warning to Marconi Stockholders.

Certain advertisements have recently appeared in Canadian and American newspapers offering the shares of the Marconi Wireless Telegraph Company of Canada at a less price than \$5.00.

This is to warn stockholders and the investment public generally that such offers are not made in good faith for the purpose of silling shares of the company but with the hope and expectation of preventing the sale of such shares.

This plan of advertising to sell stock at less than its true worth been is one of the commonest devices of the stock market trickster and manipulator.

It is a plan resorted to in the endeavor to force down the price of shares so that the manipulator may buy them in at a profit.

Unfortunately such a plan is not infrequently successful.

Timid holders of stocks are easily frightened into selling them at a sacrifice by evil report and advertised evidences of weakness in the market price. Such timid ones often sell at a grievous sacrifice in tear that if they hold on they may lose all.

It is the very purpose of such advertisements and of such advertisers to frighten the timid into selling at a sacrifice.

Usually while offering to sell at less than the market price, such advertisers (or the principals for whom they are acting), are far more eager to buy than to sell.

It is often the case that they have previously sold large numbers of shares at the higher price, for luture delivery, and that, being unable to deliver the goods, they adopt these tactics, in the The rush of entries for the Western hope of inducing holders of the shares to sell at a price that will afford the brokers a profit on the stock they are under contract to

> Coupled with their offers to sell the stock there is also usually in offer to buy (at a lower price).

Remember the familiar phrase: I WILL BUY-I WILL SELL.

They can only buy if they succeed in frightening somebody into elling. Thus they "scalp" a little off the seller and "skin" a little off the buyer-make a commission both ways, by preying upon the fears of the public and its thirst for bargains.

In nearly every case these advertisers are unable to deliver the their limit. Only favorable weather is shares at the price they advertise and where they do deliver the goods, it is as a rule the stock of someone they have succeeded in frightening into making the sacrifice.

Canadian Marconi shares in our estimation are worth \$5 and will never be sold for less, unless the stockholders allow themselves to be frightened by such piratical methods and throw their stock on the market at the mercy of the stock-jobbing crew.

Our advice is: Hol i on to your shares—they will soon be worth great deal more than \$5.00.

The recent attempt to force down the price of Marconi shares has lamentably failed.

Many legitimate brokers, unfamiliar with market conditions, have been deceived by these advertisements into selling shares short; that is to say, they have sold shares they did not have, expecting to be able to buy them from the advertising brokers. They cannot get them at the price they have sold, and unless value of your money and a home with- they can succeed in compromising with their clients by the return of the purchase money they will be heavy losers, and will be compelled to cover their short sales at a much higher price:

> We believe Canadian Marconi will be selling at \$6 within very short time:

There is another class of broker whose favorite occupation is offering recognized reputable stocks at "bargain prices" or "cut rates." He does not deserve so much attention as the other fellow because he is LESS DANGEROUS. He is the fellow who, by offering the stock at a ridiculously low price, attracts the attention of the public. If you write to him you will find that he has "just sold the last share" at that price to someone else; but he always has something MUCH BETTER to offer you, something that will invariably make more money for you than the STOCK YOU WANT to buy. He endeavors to foist on you something that you have absolutely no interest in.

He is just as likely in the first instance to have offered you your favorite stock at one-tenth of one one-hundredth of its market value as not; depending upon a shrewd combination of misleading words to relieve him of a charge of direct FALSEHOOD but you may be first the property of t but you may be sure that you will not get the stock at the price at which he SEEMS to offer it. The sole object of this class of broker is to get your NAME on HIS LIST. He wants the NAMES of men who have money to fivest. His theory is that IF you are willing to invest in ONE THING it will be easy to induce you to CHANGE YOUR MIND and invest in ANOTHER. Therefore he will try all sorts of schemes and article deduces to get your NAME

will try all sorts of schemes and artful dodges to get your NAME. A good rule to follow in making investments is to buy your stock only from authorized representatives.
