### FRUIT SCARCE TODAY PLENTIFUL TOMORROW

### Rain Interlered With Picking Yesterday—Poultry in Large Supply.

day was plentiful on the local marthis morning, some 30 loads being sold early in the day. Probably the most of it went off at \$14 50 per ton, but a few choice loads brought \$15 readily. New oats were eagerly snapped up at \$1 35 per hundredweight. The wet weather of yesterday having interfered with the fruit-picking, fruit was scarce today, but will be

plentiful tomorrow. Small baskets of peaches sold as low as 20 cents, larger baskets being offered for 50 cents.

Poultry prices remain unchanged Poultry is said to be fairly plentiful this season, and commission merchants say that lower prices may prevail after fair time. Grain Per Cut

ON ADELIADE STREET Water Commissioners Got Tired Waiting for Council to Do Something.

It is now considered very unlikely that the council will name a head engineer this year.

This is partly due to the fact that the water commissioners, not enamorthe city council, and can produce the most satisfactory results. They are also not so willing not to contribute \$1,000 or more towards the support of a head engineer as they were when the matter was first broached.

In addition there are divisions in the council. Those who are advocating the selection of a head engineer are not very popular with their colleagues, and there will be no stampede to support their selection. Many of them are strong for economy, and cannot see the advantage of a high priced engineer now.

The matter was slated to be discussed last night at the meeting of the ten weeks ago, is still confined to his board of works, but in the afternoon

## MAGISTRATE LOVE IS WITH THE LAWYERS

Says Summons Should Not Be Issued by the Magistrate.

The move made by the lawyers of Hamilton to have summonses issued by others than magistrates, is of considerable interest to legal gentlemen in this city.

Magistrate Love, when asked re-

"In some cases," he said, "it is, of course, necessary, but not very often.
I do not think it desirable at all as a general rule, for the simple reason that a magistrate is liable to have a one-sided view by hearing only one side of a question. He should have his mind free from knowledge of the case, so that he may decide fairly for both parties."

Magistrate Jelfs, of Hamilton, argues that the magistrate should issue the summons, as in that way many unimportant cases are prevented from being dragged into court.
