Peace and harmouy have not reigned there since the days of the organ question, the court proceedings over which will still be fresh in the minds of our readers. The church began to run down after that. A great many left while a number of those who remained gave but a luke-warm sup-port to the church. At last things arrived at such a pitch that something had to be done to check, if possible, the process of demoraliza-tion that had set in. And just at this stage the period of the annual congregational meeting arrived. This meeting was held in the basement of the church last night. Ladies predomi-nated in the comparatively small attend-ance. When one remembers the crowds that filled the basement in former years on such occasions the contrast is painfully striking, and much to be regretted. Pastor Kirkpatrick presided and opened the proceedings with devotional ex-ercises. The finances of the congregation were discussed. It was reported that money is badly wanted. It was reported that money of over \$4700 in two years. This alarm ing decrease is accounted for in two ways. In the first place the communicants have lessened fully one-half in two years, numbering now only about 220. Secondly, a great many of those who stayed reduced their contributions to almost

The action of Collector Patton of this city in seizing a package of books consisting of Paine's "Age of Reason" and Voltaire's "Pocket Theology," has excited consider-able comment. Mr. Patton was interviewed by The World, and from his remarks below it will be seen that he rests on the order which prohibits the importation of immoral and indecent literature.
