

Maritime Farmer.

Fredericton, N. B., August 10, 1897.

The Premier's Visit.

Fredericton will have the honor next Monday of welcoming to its hospitality for the first time, a Premier of Canada.

The Right Honorable Sir John A. Macdonald, accompanied by Lady Macdonald, will arrive here by special train from St. Andrews at noon today, remaining till the following morning, when the distinguished visitors will take the boat for St. John.

During their short stay in the city, Sir John and Lady Macdonald will be the guests of Mr. Temple M. P. It is proposed that the City Council present a non-political address to Sir John in the City Hall, Monday afternoon, probably at 2 o'clock, and a special meeting of the Council will be called for to-morrow evening, to make the necessary arrangements.

At 3 P. M., Monday, the cornerstone of the new Railway Bridge will be formally laid by Lady Macdonald, at the Sunbury street terminus, and there will be the only public demonstration during the visit.

The Premier cordially welcomes Sir John and Lady Macdonald to Fredericton, and in doing so we feel we are speaking for the whole people. While politically, our citizens may be divided by political lines, we are sure the time will never come when they will refuse to unite in extending a hearty welcome to such distinguished visitors as it will be Fredericton's pleasure to entertain on Monday.

Grit Corruption.

The story of how Lovitt the Grit M. P. was elected in Yarmouth last February, has been told in the election course, and the exposure was so complete, the evidences of corruption so convincing, that Lovitt threw up the sponge before the examination was finished, and the seat was declared vacant. It was claimed by the Grit party, and Cartwright taunted Tripper more than once with it during the late session of Parliament, that the latter had carried Nova Scotia by a gigantic scheme of corruption, that the result of the elections in that Province was brought about by the use of unlimited hoodlum. Well the hoodlum evidently was not all on the Government side, for in the Yarmouth trial by which Lovitt was unseated, Mr. Oliver, one of Lovitt's agents testified: "I paid John Amiro \$5 to vote for Mr. Lovitt; Lewis Amiro \$5; Manasseh Larkin \$5; James McComisky \$5; John Bell \$5; Peter Belliveau \$5; Chas. Amiro \$5; Vincent \$5; Murphy \$5. All of them did not promise to vote for Mr. Lovitt, but they understood why they got the money."

A Mr. Gresham, another agent of Lovitt's, swore in this wise: "I spent the money at different places. I spent it in East Passaic. I gave some to Mr. S. L. Oliver, day before election. I told him what it was. I gave it to him to buy votes for Mr. John Lovitt. I delivered a number of the cases during the work preceding election on Mr. Sanderson's order. I gave them on Mr. Sanderson's order because he asked me to do so. He got permission to put cases into the cellar. I understood that he wanted to put liquor in the cellar. I knew that these cases were in connection with the election, and that Mr. Sanderson was an active supporter of Mr. Lovitt. I had no particular reason to have the cases put in the cellar. I daresay it was for secrecy. I know there was something underhanded about them."

We merely quote these extracts to show that all the corruption is not with the Tory party, that the reality is not confined to that old arch-conspirator, Sir John and his fellow hoodlums, and that there really are Grits in this country who will buy votes for their candidate.

The Merchants' Bank.

On Monday the Merchants' Bank of Halifax opened its agency in this city in the premises formerly occupied by the Maritime Bank, with Mr. A. S. Murray, Agent. The Merchants' Bank is a strong and popular financial institution, and it does a large and thriving business all over the Maritime Provinces, and even beyond. Its paid up capital is one million dollars, with a reserve fund of one hundred and twenty thousand dollars. On its directors are some of the wealthiest and best known gentlemen of Halifax, at the head of which is Mr. Thomas E. Keeny, M. P., for Halifax, President, with Hon. James Butler, M. L. C., Vice President, and Messrs. Thos. A. Ritchie, Edward J. Davys, Allison Smith and Thomas Ritchie, directors, and Mr. D. H. Dancon, a sound financier and an capable officer, as cashier. The Bank has agencies in Nova Scotia at Antigonish, Bridgewater, Guysborough, Lunenburg, New Brunswick, Pictou, Port Hawkesburg, Sydney, Truro and Yarmouth; in New Brunswick, at Bathurst, Dorchester, Fredericton, Kingston, Moncton, Newcastle, Sackville and Woodstock; in Prince Edward Island at Charlotte town and Summerside; at Hamilton, Bermuda; and St. Pierre, Miquelon. The Bank has been very happy in the selection of its Fredericton agent, Mr. A. S. Murray, a gentleman who is most favorably known in business circles in this city. Mr. Murray, during his management of the Maritime Bank Agency in Fredericton, never lost a dollar of his employers' money, and those having dealings with him, and the number included the great majority of the business men of Fredericton, found him courteous, gentlemanly, and at all times obliging, and it

safe to say that he will not be long in working up a good business for the Merchants' Bank here. While glad to hear of Mr. Murray's personal success, the citizens of Fredericton are pleased to know that he is to remain among them, and that he represents a healthy, and popular financial institution.

An Old Friend Welcomed.

Judge E. L. Wetmore arrived here from the Northwest, Saturday, and was cordially welcomed by his friends. The amount of hand-shaking he has had to indulge in since, must be wearying, but the Judge had some practice at that sort of thing, having gone through three election campaigns. He says he is well satisfied with his new home, and is very favorable impressed with the country. His judicial headquarters are at Moosomin, 280 miles west of Winnipeg, and 13 miles west of the Manitoba boundary. The region around Moosomin is rich agriculturally, and the town promises to assume large proportions in the near future. Judge Wetmore brought the FARMER some fine specimens of grain in the ear—including wheat, barley, and oats, which have reached a phenomenal growth. It was pulled from the farm of Mr. J. R. Neff near Moosomin, and the extent of this gentleman's operations may be judged from the fact that in one field he is growing this year 365 acres of oats, 250 acres wheat and 115 of barley, while hardy wheat and barley. The variety of wheat almost entirely sown in the Red Fife and the oats are of the Main variety. Potatoes, Judge Wetmore says, are not a successful crop, but large quantities of mangolds and other roots are raised. The crop outlook throughout the whole North West is exceptionally good, the grain having escaped the ravages of frost. Judge Wetmore will remain in Fredericton until Sept. 15th, when he will permanently remove to Moosomin, taking his wife and family with him, for whose reception he has already arranged. The FARMER wishes him a pleasant holiday, and renews the general regret of the people here, that his public position demands the removal of so popular a citizen.

Laurier on Commercial Union.

The Grit party did not receive much comfort from their new leader Mr. Laurier, on the subject of Commercial Union, which they have been so industriously booming during the past few months with the hope of capturing the electoral ear. At the Somerset, Quebec, picnic one day last week, in speaking on this question, Mr. Laurier said: "For myself, I am not ready to declare if commercial union will be an acceptable idea, or a principle which ought to be adopted. There are a great many considerations at a great deal of preliminary study to be gone through before a stand should be taken on one side or the other. Commercial union may be possible, but it is surrounded by apparently insurmountable difficulties. We must take counsel and see how we can arrange matters with the U. S.; see how far we can go towards commercial union. Now for the stand I take as regards commercial union with Great Britain, which has been much talked about in some places, I can only say the same thing as about union with the States. I would accept the principle between all nations under the sovereignty of Great Britain, and gladly welcome the opening of trade with Australia and other countries. There can be no more efficacious means of extending trade than a commercial union of the English nations."

Le Monde of Montreal, charged Mercur.

The Quebec Premier with being drunk at a horse race, and the latter promptly arrested the offending editor, Yvan, M. P., on a charge of criminal libel. The editor explained that the article got into the paper without his knowledge or consent, and made a humble apology, but Mercur declines to accept, and the trial will come on next month. The Premier claims \$50,000 damages, and he ought to get that amount, if the article was as false as he alleges it was.

Rev. Mr. Mowatt announced from the pulpit of St. Paul's church Sunday morning, that no indentments that could be offered at present, would take him away from his present charge, a statement that was received with pleasure by his congregation.

The Montreal Witness (Grit) says that at South Renfrew, the Grits suffered the most decisive defeat which has ever yet been encountered by the liberal party.

Incredulous Grits who said the Fredericton Railway Bridge was only an election trick, are now constrained to admit it a striking reality.

Hon. John Coughlan took a prominent part in the South Renfrew election.

THE MARITIME BANK.

A Very Important Decision.

The Supreme Court gave judgment Saturday last in the case of the Maritime Bank v. Robinson. The Chief Justice read his own judgment, and that of Judge King. Judge Wetmore agreed with the Chief Justice. Judge Fraser read his own judgment, and that of Judge King. The four judges agreed in their decision on the three questions submitted to the court. The questions were— 1. Is the defendant entitled to offset against the plaintiffs' claim, any claim purchased by him for the purpose of a winding up of the suspension was known to defendant and prior to the presentation of the winding up petition and appointment of the provisional liquidator. Decided in the affirmative. 2. Is the defendant entitled to offset against the plaintiffs claim purchased by him after the presentation of the petition for winding up? Decided in the negative. 3. Are the plaintiffs obliged to accept payment of debts due them their bank notes acquired after the suspension for the purpose of such payment? Decided in the negative.

The great stationer Paron, which defeated the famous printer Harry Wilkes at Ottawa last week, and made a record of 2,143, was sired by Hancock, which horse is closely related to John McCoy's "Sir Charles."

THE GRAND OLD MAN.

five million of people, extending across a great part of which at the time of the construction of the railway, by the Indians and wild buffaloes. Already we see the beneficial result of its construction, for we see the riches of Asia pouring into Canada, and by the great sea is connected with the great West. We are loyal subjects, feeling proud that by this road we have added to our Empire a new and fertile country. The older persons in this gathering can doubtless remember when a large number of people were opposed to the project of a canal and a railway to the West Indies, and that they were only a source of weakness. Especially was this opinion held of Canada, which it was said in the event of its connection with the United States, was sure to fall a victim to her powerful neighbors. We do not now see any reason to doubt the wisdom of the opinion that the British America is a BUREAU TO THE MOTHERLAND.

SIR JOHN A. MACDONALD.

Enthusiastically Received by the People of Charlotte.

Presented with Addresses at St. Andrews and St. Stephen. The Premier's Happy Replies. He will come to Fredericton, Accompanied by Lady Macdonald, Who will formally lay the Corner Stone of the New Railway Bridge.

with which he was connected, and it would be continued with due regard for economy and public benefit. The railway favors the opponents of New Brunswick was something remarkable, and he hoped that further lines would be established, and that St. Stephen and Charlotte County would further share in the practical benefits of the extension. He had

HEARD A LITTLE GRUMBLING because of the failure of the ship-building industry and the continued depression in the lumber business. There were changes going on, but the result was not what he would like to see. The object was to get new fields for labour and capital. He was glad to see that there were many mills which compare favorably with those in other sections of the Dominion had been erected. They had the effect of keeping the people at home to assist in the development of their own country. St. Stephen had suffered from depression of the lumber industry, but he was sure that the province would still be a source of wealth to the Dominion.

At the conclusion of his remarks a number of citizens were presented to Sir John. Subsequently the party drove to the residence of Mrs. Z. Chapman, and in the afternoon they were driven through the town and viewed the different points of interest in the St. Stephen area.
