"The question of annexation has been widely discussed in Hawaii during the past year. England has yielded with seeming grace to the hold which the United States has upon the islands, but Canada has been coquetting with Hawaii. Mr. Ashford, a Canadian, and formerly Attorney-General, has been especially active in favor of annexation to Canada."

With our Raised Letter Attachment it can be used by the Blind. WHAT THE ODELL WILL NOT DO. will not get out of Order. It will not get out of Alignment. It will not cost anything in use, no ribbon being used.

In placing our Odell Typewriter on the market we are fully alive to the attack which may be made upon it by the makers of writing machines who have already a place in this market. Many persons on seeing the machine, or an illustration of it, will condemn it from sheer prejudice, saying: "Oh! it is not a key machine—it can't be any good. Anything but a key machine is a toy," without in any way looking into its merits. Although this is not a key machine, yet it is capable of turning out work not only equal to but bet er than any key machine yet invented, and more astonishing still is the short space of time occupied in writing. This is no idle boast and we are prepared to prove our assertion to any one who will favor us with a visit.
